ABSTRACT: This Scientific Research focus that prehistoric human had “J” chromosome and lived before modern human having **xx, xy** chromosome. The “**J**” chromosome population had only 3 chromosome and only single type blood “**AB**” on origin. The “**J**” chromosome human shall also be considered as Prehistoric “**CLONING**” human evolved of spontaneously without **sex involvement**. It is speculated that the Principle of cloning in modern time might be derived from Prehistoric “**J**” chromosome human. This research provides solution to the current mystic Problem of “**Missing Link**” and **Human Ancestor**. It is speculated that **Darwin Sir** probably be an **Atheist** and hence he might be against to “**Third gender**” Godly population and framed his theory that Godly person is like an **Ape**. But Godly population not only **loves** Godly persons but **Atheist, Apes** as well. In the lineage of evolution, Darwin Sir was at the stage of **46, 48** chromosome organisms who were having **xx, xy**, chromosomes. Where as the **J** chromosome human believed to have existed with 3 chromosome on Origin with **long evolutionary gap**. Darwin Sir Probably might have hided deliberately this mystery in his research.

1. Introduction

The origin of Life is still under mystery among biologist. Biogenist focus Life might be originated from Life matter; Abiogenist focus that Life might be originated from non-life matter. Miller Experiment and Primordial Soup theory have already confirmed that spontaneous origin of Life could not be possible from non-life matter due to impact of **lightning** artificially developed in the Laboratory.

It is focused by the author that **Neutrino radiation** has distinguished Property compared to

artificial lightning. It is asserted that spontaneous origin of Life could be possible from naturally formed **Nucleic acid, Amino acid** due to impact of **Neutrino radiation**.

The right dot shall be considered as the right nipple associated to **Proton** for cells functional part, the left dot shall be considered as the left nipple associated to **Electron** for cells structural part, the centre dot shall be considered as the “**NAVEL**” associated with **photon** for cells law part (genome).

It is hypothesised that the Variation **Heart Beat** is closely associated with the three “**SENSORS**” for regulations of “**Heart Beat**” to the normal level.

“Any surgical attempt to remove Nipples, Navel may seriously affect the regulation of “Heart Beat” and effective sequential functions of “CELLS”.

Every human shall be considered controlled by Neutrino radiation “RAY”. Each RAY shall be considered as a “MSC”. Human shall be considered as BASE TOWER. Heart shall be considered a BTS. Equipment accessed through “SENSORS”.

Further Any variation in property of Electromagnetic radiation may also effect the “Normal pulse rate” of Heart. It is hypothesised that the

“**J-Chromosome**” human had Heart normal pulse rate around “**60 per minute**” in Prehistoric time. During the course of time the human normal pulse rate might be gradually “reset” to different value and might be attained to the stage of “**72 per minute**” in modern time.

34. Einstein Sir is Wrong?

“It is hypothesised that **Einestein Sir** may not be wrong!. **Light, Lightning** shall be considered as **species** to Electromagnetic Radiation. Electromagnetic radiation can travel at absolute speed of light. Light Ray Particle, shall be considered as having “**higher mass**” compared to Electromagnetic radiation particle. Einstein Sir observed focused in his theory may be **LIGHT** not Electromagnetic Radiation which exist in the upper region of **Region III** Universe. **Tesla Sir** focused about “**Aether Energy**” may be closely associated with **neutrino radiation** which probably travels much faster than speed of **Light** and electromagnetic radiation because of its **zero mass**.

“Aether exists. Einstein sir can’t dispute to Tesla sir!”- Author

35. Darwin Sir is Wrong?

Darwin sir may not be wrong!. He probably may not be conscious about “**J**” **Chromosome Human**” who is **Godly Person**. Darwin Sir probably “**Athiest**” and hidid the mystery about J chromosome human.

36. Case study on Biblical Narration

It is hypothesized that the **Angel** populations stipulated might belong to “**J-Chromosome**” human. The Angels might have had only **3 Chromosome** and capable of **Flying**. Angels are sometime depicted with white skin. It is focused that Angels shall be considered as “**Black Beauty**” and Third Gender Godly population. Further Angles shall be considered **ancestors** to “**Adam, Eve**” populations. The Adam populations shall be considered as **species** descended form **Angels** and started living on **Earth Planet** at later period. Further the Adam sons **CAIN, SETH** might have married **Angels (Gen 4:17)**

37. Conclusion:

The modern human had four type of Blood group (i.e) **AB, A,B,O**. It is focused that all the four type of Blood might be evolved in different phases during the course of **space and time** in the expanding Universe. There is no current theory about Origin of first blood group and Lineage of other blood groups. It is focused that Angels might have had only single type blood **AB** which is called as **Universal acceptor**. Further in the evolutionary concept Male, Female gender human might have descended from **Third Gender** Angel Populations.
