**Abstract:** Human material needs of life's realities and religious leaders have always emphasized Brtamyn the needs of its way to encourage people to try to earn income and the solvent have. But according to some traditions, this scenario seems to be alive in the minds of Muslim poverty and it likes to celebrate. This article proof that encourages poverty, material poverty but spiritual poverty to power is extremely divine. Islam sees poverty underlie corruption and the corruption of the main goals of Satan and the evil man counts. The first and smallest family of peaks and valleys, leaving behind most of which are influenced by social issues such as class differences and social conditions, unemployment, poverty, and could be so much comfort to a The results in Table upsets family abuse and conflict divorce and separation and in some cases can be In the meantime, not only hurt their parents, who in many cases that the Kvdkannd Off they suffered more serious damage may not occur at the same time represents the Criminal damage in humans makes his long-time patients who have been treated Paper the factors that affect the incidence of crime, crime prevention strategies in providing Track. Many sociologists will not break out of poverty or higher or the decisive factor than other factors should acknowledge the Creator of social deviance. Their view of many factors, including genetic factors, cultural, social, economic, political and event creator Some of these factors are social deviance in certain communities or certain periods of time are more important, But other factors must be replaced.

[Manouchehr Hosseini Akbar Naqdi Sepahvand. **The rise of mass poverty in Ghana.** *Academ Arena* 2014;6(7):30-33]. (ISSN 1553-992X). <http://www.sciencepub.net/academia>. 6

**Key words:** crime, poverty, corruption, cultural

### 1. Introduction

The poor have a special class for causing deviation of the eyes to see this band called And azfrhngy Paynalgvy class specific behaviors and values that express Khshta dominant society and culture is different. The poor person does deviate due to the meme that he has been transferred from generation to generation, has brought him so. Hence, this view suggests that poverty and perversion, have poor attitudes changed.

This view is one-dimensional view that poverty is due to a change in attitudes, but ignores the unequal distribution of opportunities. (Unitary, 1390), poverty makes people very poor condition and in dirty and unsanitary quarters, Populated and impoverished lives, and many choose to live in small rooms and health and This can lead to anger and frustration on the one hand to provide spiritual inhabitants, causing collisions and Prevent conflict between neighbors and other children become evident that the lack of proper education The correct moral and intellectual development can propel them toward committing the crime. Besides causing severe economic crisis and weak people who previously due to False education and preparation of anti-social acts have taken advantage of the opportunity, under the pretext Bad economic situation of their own or other people's wealth to embark commit robbery and other felonies. Thus, sociologists, criminologists and criminal offense-causing factors, economic factors of poverty Considered directly responsible for mass poverty and

some of them believed, and some other economic factors However, the indirect impact crimes have caught and criminal formulate policies to combat crime Poverty is also something to think about and it is very evident that as long as poverty, unemployment and other economic conditions; Social and related crime has not gone that actually causes the reaction mass was not very effective. (Lyary, 1390) Moreover, the process of converting wealth to report the threatening and dangerous to society. Beck's a good thing that the process of wealth and poverty, a positive value to a negative value makes. When wealth was exhibited in the community and changing consumption patterns and the luxury-oriented extension to People in need, the need for entrepreneurship will lead to disastrous results, whether it be a worthwhile change of fortune Other values are seeking, for example when the money caused more respect in society, it is clear that the poor are not to be despised, shall not in any way trying to add to their property. Asnan When changing money values and Arzshmn Wang and his desperate need for money and the ability to feel

Increase was not available to him and also legitimate ways before resorting back to see what it might take to illicitly ways. It is illegal to switch on their side, the conditions are also necessary. Factors such as high need, low income, a sense of injustice and relative deprivation are the only factors that may be irritating to humans illegitimate ways to earn money

Pull, but not so that anyone who had the urgency to address piracy. (Ahmad Vand, 1391) can also be no doubt that increasing wealth as a factor causing offense to update. As can be seen in many people with the utmost dignity and respect and live in poverty and never Round are not only acts, but also as a means of perfection and glory be to our prosperity, Contrary to what many people who need it without having to have the same fortune, theft, fraud, and other crimes of malversation pay. Most fraud and scams like these are a great and huge traffic. Statistics show that even in times of economic progress, sometimes crime is increasing, the Garvfalv Famous scientists and criminologists have pointed out that the French and Italian schools of realization when Wages had gone up 45 percent in France during the economic boom continued, however, the crime rate had increased from 100 to 245. Statistics released by the Ministry of Justice in 1340 and 1350 shows that the number of crimes During the 10 years of the iconic increased by 68% And while the income level at which interval Was on the rise as people with no taste. Mr. Pynatl (2010) in his essay "Criminal Law and Criminology," himself wrote the beginning of the nineteenth century, the situation That transformation was developed European economies, agricultural production, industrial production had to be replaced.

**First words:**

Can be said to be worth a fortune on the one hand, there is a human need and leads the world in all kinds of goods Simultaneously reducing the income and wealth in human beings need to feel its intensity and the Other facilities provided are not sufficient on their own to block all legitimate ways of seeing as well as system Their internal control and values of the religion and faith Tzyf external control system, they will satisfy the needs of the illegitimate ways. Obviously, everyone has to fit its internal control system to work Paybndyha illegitimate grade Namshrvyt it sees little use of state property for private purposes, a number of people begging Turn, has provided a number of possible embezzlement and bribery can reach the felony Yarandi, some Less control of smuggling, theft and those who engage in acts incompatible with chastity. However, there is no doubt that in order to prevent All adverse consequences must be worth a fortune to deal with the , He led them to the right people into the economic life of luxury and a sense of nationalism and the increasing militancy

Beware of false needs. In general it can be stated that Ghana can Pdyday poverty and crime Have been involved in politics, and it should be considered criminal.

**Research questions:**

- 1 - role in shaping poverty and crime, creating what is coming?
- 2 - How to increase the richness and wealth in

society can be created on the incidence of crime?

3 - shadows in criminal how a country can become a wealth of richness and wealth management To increase value and crime prevention in this area?

There is a need to conduct research that can be detected and Ghana Brjrm role and mechanisms of influence Its formulation and criminal Ajrasyast effective in preventing this effect should be taken.

The significance of this research is that there could be grounds for interdisciplinary studies such as economics, criminology, Sociology, criminology, sociology and criminology Hrmyt poverty and have to be followed.

**Method:** The research is a descriptive - analytic study. This research also studies the type library is well documented. The researcher also refer to scientific books, documents, theses, and scientific research publications and websites Trying to extract useful material for this article will be taking notes. The researcher will study the issue of poverty and wealth, while extracting its instances, attempts to study the impact of crime prevention will Brshkl Fqrv Ghana.

**Chapter Two.**

**Poverty**

Discussion of poverty and wealth in all societies and nations have long been the most controversial issues in society Row The school is located and any ideology or religious creed of his head toward the voice and action has. Islam is also the issue of the juridical aspects, theological, political, economic, moral and examine that here we look at a corner it seems.

**Explanation of words**

A - Ghana: independence means that we can think of two types:

1 - no absolute requirement that God has given, he has no grounds at least needs to others Instead, we need the God argument.

2 - Financial independence: the minimum, provide the essential requirements for life and you do not need others to add to the poverty line. It also depends on the maximum effort and economic activities of individuals.

B - Poverty: Poverty also has four Mnakarbrd:

1 - Developmental essential requirement that all Mmkant including humans, have described it.

2 - Lost and friary at essential necessities of life, which may occur with or without the track.

3 - poverty and the needs of the soul which is never satisfied and constantly craving Brhrs and it will be added.

4 - need constant intellectual and spiritual growth in the Lord Hrmyzan man sees himself in dire need of God. Islam

Poverty in some verses and Islamic traditions praise, but some others have been criticized in

First consider the kind of tension and conflict evokes the realm of God's religion is far from certain

that such defect,

To explain Islam, Quran and traditions into five categories are:

- Some have praised poverty;
  - Some have criticized it;
- Number, Poverty order to have patience;
- A bunch of Ghana and has been praised;
  - Vdsth others, have condemned the richness and amassing wealth.

Now referring to some verses and traditions, we describe the cases of five persons.

1 - Praise of Poverty: Imam al-Kazim, peace be upon him says:

Prophets, their children and their followers have been three distinct characteristics: disease, poverty and fear of the king.

God in prayer with Moses PBUH Avfrmvd

If you see the poverty and the dervish turns, say: Congratulations on the slogan Salehin!

To these traditions, poverty can be a positive option unless the piety of the heart to the world and convince the lowest Mvvnh life.

All the saints and prophets of God as they were described, since none of them in his Mrgranbhay collect and accumulate wealth, and if it was not wasted time spent earned their living expenses and the There were others, but they also need to reach out to others who are not poor.

Appropriate measure of piety, which is necessary to the life style of eating, is the rule.

Some wrongly, are perceived piety means abstinence from worldly things.

Of these people, pious is he who struck the back foot in the material world and to improve the material conditions of his family Does not attempt to build the world will not step.

The great leaders of Islam, where the manifestations are thought to be strongly rejected it and they

It had a tendency to be discouraged his followers. From the perspective of Islamic culture, piety means someone while enjoying God's blessings in this world, Nbndd heart of the world and does not depend on itself to Nfrvshd, and all Hmtsh not to lose it. Quran's condemnation of worldliness says:

Those who hope to meet us - and resurrection - and they were happy to live in the world and rely upon, and they are heedless of Our signs. Been criticized in the above verse clearly implies consent to convince and assure the material and the spiritual on the Taftn evolutionary closeness of the divine and meet with him.

In other words, Z is a benefit as well as others Lzayd material, but his vision is so broad as worldly-minded, just do not see the front of your foot, but also in the far future and the world hereafter. The blessings in this world, not because Khvshgzary and debauchery, but also as a means to achieve eternal bliss

uses.

## Section II

Living in poverty and crime

We humans are social animals Hsytm last (Ian Robertson) As a human, we all have to interact Community we live and the formation of his character, we need to communicate with others And in this process of evolution that we pass everyday life under the skin of the face Grydm currents that are sometimes very easy to pass. Pages of the daily newspaper is full of events that the soul Vafqaty offends many of us. New laws and tough, long prison walls and new Ndamtgahay, none has been effective in reducing crime has played a role. Delinquency as a behavior that violates the basic values of society and through it the best examples of unsafe A number of citizens as victims of direct and indirect victims of insecurity get the rest of the citizens because it is known.

1 According to Section 14, Article III of the constitution of individuals, whether male or female full rights and legal security for all and the equality of all before the law Tkalf of the state In this regard, the implementation of these principles every day, sometimes aggravated by writing new laws and penalties against former We're looking to kill disease rather than treat disease, we may be unaware that a disease Perhaps removing or quarantining a sick part of the live virus outbreaks reduced but still Mstdd transmission. In this regard, it is best experts into the open pit and to prevent virus outbreaks and identify Attempting to destroy or at least weaken it.4.

## Discussion

What you get from this discussion that there is a close relationship between poverty and corruption and discrimination because the discrimination and

Corruption is the main cause of poverty and discrimination Fqrv always been one of the causes of corruption and discrimination that violates human rights, and corruption leads to poverty.

One of the institutions mentioned in the confession of Islam is the way of repentance is always open to giving back and reform Provides a sinful man and promises to Nykvvsh encouraged to return and modify. Repent, including Islam, is so hot that everyone at every level and in any case out of his grace and love. October celebration of God does not repent special exception shall not include any amount that is to be Hrgnah. Islam, Knowledge, Science, and the idea that the fundamental source of progress and prosperity of any kind is highly praises and the ignorance and Fundamental source of misery and crime is ignorance is taboo in many of the same household Factor for the juvenile crime cases can be far more than it can prevent crime Crime is a child in the family kindly and familiar concepts to pure Islam and Quran to stay away from any malice life. Against

possible accidents with confidence and the courage to say no when offered and their exposure to crime Away, and trust in God to stand against lust and carnal desires.
