**Abstract:** In everyday human life so many “QUESTIONS” are being asked. **No question shall mean no life...** Some questions can be answered and some questions can't be answered **Why I was born?... Why I am black?... Why earth quake occurs?... Why I hide revenue income?... Why I deposit in Swiss bank?...** In parliament session also so many questions are being asked during “zero hour”. **Questioning is easier than answering?...** In High school educational system students are scoring 100% marks aiming for medicine to serve the society. But in real “Life system” doctors do not want to serve Indian rural poor but want to serve other nations like **USA, AUSTRALIA, EUROPE, etc.** “CONSCIENCE” (Contra + Science) differs from “SCIENCE”?... If so...
