Abstract: I, Gangadhara rao irlapati appeal to the world scientists in the following few lines for kind consideration and research. I am an unfortunate Indian scientist born on 25, May,1958 in a group of lowest social caste system traditionally to be untouchable in india. The Government organizations and research institutes did not encourage and provide research opportunities to me moreover subjected to incessant verbal insults and humiliations. I built a small lab at his house with home-made apparatus and conducted enormous researches and studies on weather problems and natural calamities. From 1965 to present, over a 10,000 researches and studies on weather problems and natural calamities have conducted. More than 5,000 research papers are prepared; among of them above 1000 papers in print and online science journals and 4000 papers in social networking websites have published. Around a 100 key investigations have made just like Irlapatism- A New Hypothetical Model of Cosmology (1977), Geoscope (1962), Global Monsoon Time Scales (1991).

Keywords: Appeal; World; Scientist; Cosmology

Global Monsoon Time Scales	Regional Monsoon Time Scales	Sub-Regional Monsoon Time Scales
African Monsoon Time Scale	North American Monsoon Time Scale	Australian Indonesian Monsoon Time Scale
European Monsoon Time Scale	North African Monsoon Time Scale	Maritime Continent Monsoon Time Scale
Asian Monsoon Time Scale	Indian Monsoon Time Scale	Arabian sea Monsoon Time Scale
Australian Monsoon Time Scale	Western North Pacific Monsoon Time Scale	Bay of bengal Monsoon Time Scale
European Monsoon Time Scale	South American Monsoon Time Scale	Indo-Australian Monsoon Time Scale
	South African Monsoon Time Scale	Asian-Australian Monsoon Time Scale
	Australian Monsoon Time Scale	Malaysian Australian Monsoon Time Scale
	East Asian Monsoon Time Scale	Northern Australian Monsoon Time Scale
	North American Monsoon Time Scale	Arizona Monsoon Time Scale
	Australian Monsoon Time Scale	Mexican Monsoon Time Scale
	European Monsoon Time Scale	South west US Monsoon Time Scale
	East African Monsoon Time Scale	East Asian Western North Mon. Time Scale
	South-West Monsoon Time Scale	
	North-East Monsoon Time Scale	

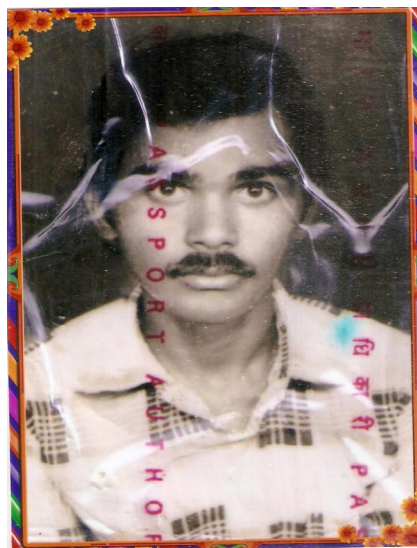

However much efforts did though, neither governments nor research organizations have encourage and recognize me. I was envied, humiliated tortured and imprisoned by the scientists and society. My researches were ignored and darklayden. I am a victim of negligence, racism and discrimination. Perhaps my race & poverty, torn clothes & worn slippers, physical appearance & less height are the reason. Political recommendations, officials support, publicity, region, religion, cash and community factors may play a key role in giving recognition, awards, rewards, honor and fame to downtrodden scientists in

India. I am now making my life's last journey due to pains & poverty and disregard & despair.

Under the aforesaid circumstances, I am making this appeal that Many ambitions are remaining. My goal is to create artificial storms and making our control and describe rainfall by moving to desert plains, reservoirs etc. By way of implanting/establishing super human power biotechnology in the brain of the human being that what kind of thing we want in mind that create or destroy, move the objects from one place to another place, travel one place another place by himself. To have relationship with living beings on the Neutrons in the

Atoms and in the same manner to have relationship with living beings on the planets in the outside worlds of our geo-universe (the universe seen around our earth is a small atom in that ascending order of creation). All the underground must be brought under control of the Geoscope. To start a research project that attract the vaporized sea waters to the desert plains through the sky by geo-magnetizing atmosphere when the atmosphere is surrounded by the water molecules during the low pressure areas & to prepare a project that attract the sea waters to the desert under ground areas through the layers by electro-ionization. To recreate the human beings of past etc. But all my hopes have become obsolete. They may not be fulfilled during my life time. I am now making my life's last journey due to pains & poverty and disregard & despair. Hence, if the world scientists acquire the technology that recreate the pass away people in future, please remember and recreate me to complete my in-completed goal and ideal. And also I request that kindly recognize me as the Inventor of Global Monsoon Time Scales, Father of Geoscope & Geoscopic researches and Originator of the Theory of Irlapatism-A New Hypothetical Model of Cosmology and specify in your research papers by making a reference about me and my discoveries and inventions and bring into light. Science organizations, publishers, enthusiasts, researchers may find out my biography and other inventions and discoveries on the Search Engines in the name of GANGADHARA RAO IRLAPATI or can obtain by send their email id to "scientistgangadhar@yahoo.com" and research, promote my investigations and recognize & bring me into light.
