Abstract: There are many theories about the origin, structure, nature, and evolution of the cosmos in the time-line of old, and modern theories, ideas, and discoveries from ancient time to present day. Some of the best minds in history-both philosophers and scientists-have applied themselves to an understanding of just what the universe is and where it came from, suggesting in the process a bewildering variety of theories, arguments and ideas. Every theory is good and also not every theory can be described the universe and could not explain the universe indefinitely. 1543 Copernicus universe theor is one the theory of Cosmology. I also proposed A New Hypothetical Model of Cosmology in 1977 regarding the origin, structure, nature, and evolution of the cosmos. In this paper, a study is made comparing the 1543 Copernicus universe theory and Irlapatism-A New Hypothetical Model of Cosmology that was proposed by me in 1977. So, scientists can study these two theories with each other and theorize the cosmology.

Key words: Irlapatism-A New Hypothetical Model of Cosmology, Geo-Universe, Atomic-universe, Photon-universe.

Introduction: Now let's learn about the two above-mentioned theory 1543 Copernicus universe theory and Irlapatism-A New Hypothetical Model of Cosmology.

1543 Copernicus universe theory:

1543 Copernicus universe theory is the astronomical model developed by Nicolaus Copernicus and published in 1543. This model positioned the Sun at the center of the universe, motionless, with Earth and the other planets orbiting around it in the circular paths, modified by epicycles, and at uniform speeds.

Irlapatism-A New Hypothetical Model of Cosmology:

According to the Irlapatism-A New Hypothetical Model of Cosmology, the cosmos is made up of universes in infinite number, having similar universal external and internal and structure and properties, embedded one in each other and extended in ascending and descending order. To explain and justify this model, there are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are having similar universal external and internal structure and properties, embedded one in each other and extended in ascending and descending order. Of these three, we known some extent about the internal structure and properties of the Geo-Universe but we do not known its external

structure. We know some extent about the external structure and properties of the Photon-universe but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal & external structure and properties of the Atomic-universe. Hence, I have taken the similarities of external structure & properties between the Geo-universe & Atomic-universe to propose that all the universes in ascending and descending order of the creation are having similar universal internal structure and properties. The similarities of external structure & properties between the Atomic-universe and Photon-universe are taken to propose that all the universe in ascending and descending order of creation are having similar external structure and properties. And the manner in which of these three universes i.e., embedded one in each other, extended in ascending and descending order to propose that all the universes in ascending and descending order of the creation are embedded one in each other and extended in ascending and descending order. This doesn't mean that these photon, atom, universe etc. are arranged one on another as cycles separately. The cosmos enormous mixed compound of photons, atoms, universes etc. that are extended in ascending and descending order, embedded one in each other in the form of super matter or super fluid or super fluid matter.

Descending order of creation:

The Geo-universe that means the Universe seen around our earth is having magnificent structure and properties such as galaxies, stars and planets and some planets such as earth having continents, countries, oceans, trees, animals, cyclones, human beings etc. Such Geo-universe being built by Universes of its descending order of creation that means atoms.

Atomic-universe that means the atom present in several forms from hydrogen to uranium etc is another gigantic universe, having magnificent structure and properties such as electrons, protons, neutrons, etc., and continents, countries, oceans, cyclones, trees, animals, human beings may be present on some neutrons having suitable conditions exactly similar to the earth planet resembling to the Geo-universe. Such Atomic universe being built by universes of its descending order of creation that means energy particle ‘photons’.

The Photon-universe that means the particle “photon” related to energy present in several forms of electromagnetic radiation is also another gigantic universe having magnificent structure and properties resembling to Geo-universe and atom. Such Photon-universe may also being built by universes of its descending order of creation that is not yet known to us.

Thus the descending order of creation continuous infinitely.

Ascending order of creation:

The Photon-universe that means the particle related to energy “photon” having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means atom. All components in the atom are built by these “photons” in infinite number. Such each and every energy particle “photon” in the Atomic-universe is basis to an infinite descending order of creation.

The Atomic—universe that means the “Atom” having magnificent structure and properties is being as a

primary syntactic unit in the universe of its ascending order of creation that means in our Geo-universe. All components in the Geo-universe such as stars, planets etc., are built by these atoms in infinite number. Such each and every atom in the Geo-universe is basis to an infinite descending order of creation.

The Geo-Universe that means the “Universe” seen around our earth is a gigantic universe that is known to us, having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that is not yet known to us. All components in that universe are built by these Geo-universes in infinite number. Such each and every Geo-universe in that ascending creation is basis to an infinite descending order of creation.

Thus the ascending order of creation continuous infinite.

2.Similar universal structure & properties:

Of these three, we known some extent about the internal structure and properties of the Geo-universe but we do not know its external structure and properties. We know some extent about the external structure and properties of the Photon-universe but we do not know its internal structure and properties. Between of these three universes, we came to know a large extent about the internal and external, structure and properties of the Atomic-universe. So, I have taken the similarities of internal structure & properties between the Geo-universe & Atomic-universe to propose that all universes in ascending and descending order of the cosmos are having similar universal internal structure and properties. The similarities of external structure & properties between the Atomic-universe and Photon-universe are taken to propose that all the universes in ascending and descending order of cosmos are having similar universal external structure and properties.

Similar External Structure & Properties

According to the model, all the universes in ascending and descending order of the creation are having similar external structure and properties. All the universes in either ascending or descending order of creation have the similar external structure and properties. So, we have imagine the external structure and properties of the atom compare with the external structure and properties of the photon. In the same way, imagine the photon external structure and properties compare with the external structure and properties of the atom. Because, according to my cosmological principle all the universes in the ascending and descending order of creation must have similar external and internal structure and properties. To explain and justify this, I have taken many similarities between the atom and photon. To justify this, I have taken many similarities between the atom and photon.

For example:-

Atomic-Universe	Photon-Universe
1) The atom appearing in several forms such as Hydrogen to uranium etc., being due to the Internal structure having different atomic particles at various numbers	2) The particle “Photon” related to energy appearing in several forms such as radio waves, gamma rays, violet rays etc being may be probably due to the internal structure having different particles at various numbers.
2)The atom exhibiting several physical and chemical Properties such as weight, colour, taste, hardness etc being due to the internal structure having different particles at various number.	3)The particle “photon” related to energy exhibiting properties such as wave length colour, temperature etc being may be Probably due to the internal structure having different particles at various number.

SIMILAR INTERNAL STRUCTURE & PROPERTIES

According to the model, all the universes in ascending and descending order of the creation are having similar internal structure and properties. All the universes in either ascending or descending order of creation have the similar internal structure and properties. So, we have imagine the internal structure and properties of the atom compare with the internal structure and properties of the Geo-universe that's the universe seen around our earth. . In the same way, imagine the internal structure and properties of the Geo-universe, compare with the compare with the internal structure and properties of the atom. Because, according to my cosmological principle all the universes in the ascending and descending order of creation must have the similar external and internal and structure and properties. To explain and justify this, I have taken the many similarities between the atomic-universe and Geo-Universe.

Atomic-Universe	Geo-Universe
1)Various atomic particles at different sizes in several numbers are present in the atom	1) Various astronomical objects at different sizes in several numbers are present in the Geo- Universe
2) These atomic particles having three types of charges at negative, positive and neutral states are present in the atom	2) These astronomical objects having three type of charges at positive, negative and neutral states are present in the Geo-Universe
3) Positively charged protons are present in the nucleus	3) Stars built by atoms having positive charged nucleus are present in centre of the Geo-Universe
4) Neutrons at neutral state are present in the Nucleus.	4) Planets at neutral state are present in Centre of the Geo – Universe
5) Negatively charged electrons are present at large distance of the atomic nucleus in the atom	5) Here is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the Geo-Universe.
6) Additional neutrons called isotopes are present.	6) Additional planets called satellites around the planets are present
7) Radiation emitting from the atom.	7) Cosmic rays emitting from the Geo- Universe.
8) There is a property of nuclear fission is in the atom.	8) There is a property of super Nova is in the Geo -Universe.

Postulates:

After many researches and studies on the origin, structure, nature and evolution of the cosmos, I proposed that:

Similarities&embeds:

The cosmos is made up o universes in infinite number that are having similar structure and properties,

embedded one in each other and extended in ascending and descending order in the form of a super fluid of spacetime. There are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are individual universes, having similar structure and properties, embedded one in each other and extended in ascending and descending order.

Geo-universe:

Geo-universe, that means the universe seen around our earth is a gigantic universe, having magnificent structure and properties such as galaxies, stars, planets etc. There are continents, oceans, countries and living beings on some planets in our geo-universe. Such gigantic geo-universe is a little atom in its ascending world. That means our universe is in that ascending world just as atom is in our universe. We do not know whether our geo-universe is in the air, water or elsewhere in that ascending world. In my opinion, our Geo-universe is in an intelligent creature in that ascending world. But what is not known to that creature in that ascending world is that there are galaxies, stars, planets and human worlds in their atoms. In their view it is thought that there are tiny particles in their atoms. But they do not know that there are galaxies, stars, planets and human worlds in their atoms just as we think that there are electrons, protons, neutrons in our atom. But we do not realize that there are galaxies, stars, planets and human worlds in the atom. So do they think they have little particles. Such geo-universe being built by universes of its descending order of creation and the same time being act as a primary syntactic unit in its ascending order of creation that is not yet known to us.

Atomic-universe:

Atomic-universe, that mean the atom present from hydrogen to uranium etc. is a gigantic universe, having similar universal structure and properties such as galaxies, stars, planets in the form of electrons, protons and neutrons exactly similar to our universe. Just as there are continents, oceans, countries and human beings on some earth-like planets in our Geo-universe, continents, oceans, countries and living beings can be present on some neutrons in the atom. That is the atom is a vast universe as our universe. But we do not recognize them. For the creatures in the atom, in their view the atom is a great universe but they do not know that another gigantic universe exists above them, and that their atom in which they resides is acts as a tiny atom in our universe just as we do not know that our gigantic universe is a small particle in the universe above us. There may be humans on neutrons who have civilizations like countries, governments, planes, trains, ships, motors etc. just there are humans who have civilizations on our planet. Such atoms being built by universes of its descending order of creation that are photons and the same atom being act as a primary syntactic unit in its ascending world that is our universe..

Photon-universe:

Photon-universe, that mean photon, the particle related to energy existing in several forms of electromagnetic radiation etc. is a gigantic universe, having similar universal structure and properties similar to our universe that have galaxies, stars, planets and similar to atom that have electrons, protons and neutrons in the form of electrons, protons and neutrons. Just as there are continents, oceans, countries and human beings on some planets in our Geo-universe, continents, oceans, countries and living beings can be present on some planets in the photons. That is, the photon is a vast universe as our universe and as the atom. But we do not recognize them. For the creatures in the photon, in their view their photon is a great universe but they do not know that another there is a gigantic universe in their ascending world that is atom, and there is another world above the atom that is our universe. There may be humans in the photon who have civilizations like countries, governments, planes, trains, ships, motors etc. just there are humans who have civilizations on our planet. Such photon is being built by universes of its descending order of creation that are not yet known to us and the same photon is being act as a primary syntactic unit in its ascending world that is atom.

Cosmic-Environments:

The fill of structure and characteristics in the universe of the cosmos proposed as **cosmic environments**. For example the fill of structure and characteristics like galaxies, stars, planets etc in the Geo-Universe proposed as Geo-Environment, the fill of structure and characteristics like proton, neutrons and electrons etc in the Atomic-Universe proposed as Atomic-Environment and the fill of structure and characteristics in the Energy-Universe that means in the photon that is not yet known proposed as Energy-Environment.

Geo-environment:

The fill of structure and characteristics like galaxies, stars, planets, comets, meteors, asteroids, space dust including air, cyclones and all other celestial objects that are in the Geo-universe that's the universe seen around our earth is proposed as Geo-environment.

Atomic-environment:

The state of structure and characteristics like proton, neutrons and electrons and all other components that are in the atomic-universe that's atom is proposed as **atomic-environment**.

Photon-environment:

The state of structure and characteristics that are not yet known in the photon-universe that is proposed as **photon-environment. Space-environment:**

The state of structure and characteristics in the space is proposed as **space-environment**.

Space-climate:

The state of galaxies, stars, planets, nebulas, pulsars etc. at a particular region over a long period of time is proposed as **space-climate**.

Space-atmosphere:

The state of structure and characteristics like galaxies, stars, planets and their orbits and other physical forces etc that surrounds in the universe is proposed as **space-atmosphere**.

Space Weather:

The fill of structure and characteristics like galaxies, Stars, Planets and their orbits and other physical forces etc that surrounds in the universe proposed as space atmosphere, the state of galaxies, stars, planets, nebulas. Pulsars etc at a particular region over a long period of time proposed as space-climate, the state of characteristics of space- climate like solar wind flares, asteroids etc at a particular region during a short period of time proposed as space-weather.

Space Regions:

The state of space atmosphere being in still proposed as “Inactive Space Region”, the state of space atmosphere being in active proposed as “Active Space Region” The region of space atmosphere in which the celestial bodies are more widespread areas proposed as “Space High Pressure Area” the less widespread areas proposed as “ Space Low Pressure Area”.

Inactive space region:

The state of space atmosphere being in still is proposed as “Inactive Space Region” and

Active space region:

The state of space atmosphere being in active is proposed as “**active space region**”

Space high pressure area:

The region of space atmosphere in which the celestial bodies are more widespread areas is proposed as “**space high pressure area**”

Space low pressure area:

The less widespread area is proposed as “ **space low pressure area**”.

Space Low Pressure Systems:

Some space times happens variation of differences of pressure in the space-climate, At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure. The centre of space low pressure area itself is the black-hole and the circular whirling celestial bodies & other space dust etc caused by the space low pressure area proposed as Galaxy.

Space-cyclone:

Some space times happens variation of differences of pressure in the space-climate, At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure area is proposed as “**space-storm**” which is galaxies.

Eye of space-cyclone:

The centre of space low pressure area itself is the **black-hole** and the circular whirling celestial bodies & other space dust etc caused by the space low pressure area is proposed as “space-storm that's galaxy.

Spacegenesis:

Empty spaces that are space voids formed in some places in the space as a result of the movements of celestial objects where space pressure is low relative to its immediate surroundings. It is often a indicator of coming space low pressure area. As a result, a low pressure system in the space atmosphere develops when these celestial objects in the surroundings space high pressure area rushes in to fill the empty space. They will try to occupy that empty space all at once. In this attempt, the whirl around that space low pressure area due to the obstruction of centripetal force acceleration as as a space-storm that is galaxy. As the celestial objects rotates, an space-eye form in the center of the space-storm that is galaxy is proposed as Black-hole. After this, the space-low pressure area filled and neutralized with celestial objects, those will be scattered that is proposed as star clusters or interstellar cloud of gas and dust.

Earth tilting:

The earth is not tilted at a constant angle of 23.5 degrees as expected so far but slightly ups and downs by 23.5 degrees and revolves in oscillating order on sun's fulcrum, which orbits the centre of our galaxy tipped at an angle of 60 degrees bobs ups and downs and above and below the galactic plane is the root cause of the climate changes, seasons, monsoonal changes on the earth.

Results and analysis:

Universal similarities: According my theory, there are three universes so far known to us (a) Geo-Universe (b) Atomic-Universe (c) Photon-Universe. These three are having similar structure and properties. Of these three, we known some extent about the internal structure and properties of the geo-universe but we do not know its external structure. We know some extent about the external structure and properties of the photon-universe but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal & external structure and properties of the atomic-universe. Hence, I have taken the similarities of external structure & properties between the photon-universe & atomic-universe to propose that all the universes in ascending and descending order of the creation are having similar external structure and properties. The similarities of internal structure & properties between the atomic-universe and geo-universe are taken to propose that all the universe in ascending and descending order of creation are having similar internal structure and properties.

Uniform comparisons between atom and photon: The similarities of external structure & properties between the atom and photon are taken to propose that all these two are having similar internal structure and properties.

Structure: The Atom appearing in several forms such as hydrogen to uranium etc., being due to the internal structure having different atomic particles at various number. In the same manner the "photon" related to energy appearing in several forms such as radio waves, gamma rays, violet rays etc being may be probably due to the internal structure having different particles at various numbers.

Properties: The atom exhibiting several physical and chemical properties such as weight, colour, taste, hardness etc being due to the internal structure having different particles at various number. The "photon" related to energy exhibiting properties such as wave length colour, temperature etc being may be probably due to the internal structure having different particles at various number.

Various atomic particles at different sizes in several numbers are present in the atom Various astronomical objects at different sizes in several numbers are present in the Geo- Universe.

Uniform comparisons between Atom and Geo-universe: The similarities of internal structure & properties between the atom and geo-universe are taken to propose that all these two are having similar internal structure and properties.

1. Various atomic particles at different sizes in several numbers are present in the atom. In the similar way various astronomical objects at different sizes in several numbers are present in the geo- universe.
2. These atomic particles having three types of charges at negative, positive and neutral states are present in the atom. In the similar way, these astronomical objects having three type of charges at positive, negative and neutral states are present in the geo-universe.
3. Positively charged protons are present in the nucleus. In the similar way, Stars built by atoms having positive charged nucleus are present in centre of the Neutrons at neutral state are present in the nucleus. In the similar way, planets at neutral state are present in centre of the geo-universe.
5. Negatively charged electrons are present at large distance of the atomic nucleus in the atom. In the similar way, there is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the geo-universe.
6. Additional neutrons called isotopes are present. In the similar way, additional planets called satellites around the planets are present.
7. Radiation emitting from the atom. In the similar way, cosmic rays emitting from the geo-universe.
8. There is a property of nuclear fission is in the atom. In the similar way, there is a property of super Nova is in the geo-universe.

Study & discussion:

The Cosmology is one of the most creative and bizarre areas of science, concerned with the studies of origin, structure, nature and evolution of the universe. There are two main theories, steady state theory and the big bang theory, that explain the structure of the universe. For example, The big bang theory has faced many criticisms by many scientists as being inadequate to explain the relativity and complexity of the universe. Therefore, it not sufficient to correctly model the origins of the universe.

According to Bud Rapanault (quora); 'The Big Bang Theory is essentially unscientific because the physical model it presents does not resemble the cosmos we observe in any of its particulars. None of the

distinguishing features of the Big Bang Theory are part of the cosmological landscape that lies before us.

The Big Bang Theory itself and the *ad hoc* inflationary epoch are unobservable by terms of the model.

Curved and expanding space time cannot be directly detected but are integral to the model.

The Big Bang Theory model requires that 95% of the universe consist of some dark matter and dark energy neither of which can be empirically detected and both of which are simply additional *ad hoc* patches necessary to make the model predictions conform to physical reality.

In addition, the Big Bang Theory rests on two assumptions, one simplistic and naïve, the other dubious

The cosmos is a unified, coherent, and simultaneous entity.

The cosmological redshift is a recession velocity.

According to George Yool (quora); current evidence like the cosmological principle, Hubble ultra deep field and alternatives like quantum relativity suggest a universe has no beginning or end in which big bangs are galactic processes we can observe empirically. There are many esteemed critics such as;

NASA WMAP beyond big bang theory;

Einstein evolving universe.

Hoyle The big bang theory got its name from a man who thought the theory was total nonsense.

Plus 34 more famous scientists around the world in an open joint letter to the scientific community has been criticized the Big Bang Theory (Big Bang Theory Busted By 33 Top Scientists) Rense.com

Applications:

Extraterrestrial hazards:

Everyone should know about the origin, structure, nature, evolution of the universe and its various properties. Since, all the hazards on the earth directly or indirectly are associated with the gravitational forces of the universe. Further, this in order to be study the hazards, study of the cosmology is needed to know about hazards. There are hazards on the earth, on other planets and there are also happening within atoms. Human beings are on the earth, are on the outside

planets of the earth and also on the neutrons in the atoms. Even if the world's people appreciate or criticize me, it is fact. Hazards caused by asteroids, meteoroids, and comets as they pass near the earth, enter the earth's atmosphere, and/or strike the earth, and by changes in inter planetary ionosphere, and atmosphere. In the face of extra terrestrial hazards and events that can lead to disasters, it is important to live in a resilient community because these types of disasters are so unpredictable and depending on the size of meteorite can cause serious damage through the heat emitted during impacts with earth's surface. In addition, impact can cause earth quakes, Tsunami, wildfires, acid rains from nitrogen oxides, darkness from dust and soot and global warming. It is for this reason that staying aware and prepared at all times is extra important. This is not an implication to live in fear, but a reminder to stay educated about these types of disasters and to have a plan in place as with any other type of disaster. Before an extraterrestrial hazards /events occur, there are some steps that can be taken to mitigate and minimize the impact. I have conducted many studies on the universe and its extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth. A new hypothetical model of cosmology will helpful to study and know the universe, extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth.

The impact of the gravitational forces on Earth's atmosphere:

The year to year change of movement of axis of the earth inclined at 23½ degrees from vertical to its path around the sun does play a significant role on the Earth's atmosphere and stimulates the weather. The inter-tropical convergence zone at the equator follows the movement of the sun and shifts north of the equator merges with the heat low pressure zone created by the rising heat of the sub-continent due to direct and converging rays of the summer sun on the India Sub-Continent and develops into the monsoon trough and maintain monsoon circulation.

Studies Carried Out: Many studies were carried out on this Hypothesis and it was successfully proved out in theoretically.

Conclusion:

I would like to have an extensive discussion on my hypothesis. My theory is the basic relating to the cosmology. Many things that visible to researchers relating to beyond the extreme deep intergalactic space and expanding universe etc are yet to be explained. So scientists can review the 1543

Copernicus universe theory and Irlapatism-A New Hypothetical Model of Cosmology to theorize the actual cosmology. .

Acknowledgements:

Many consultations are made with university professors and research scientists for their suggestions and advices. There was also taken some information from the Wikipedia. I am grateful to them.

Inquisition: The postulates about the creation, existence of god, theory of evolution and my thoughts such as to take and keep the entire underground by the control of Geoscope to study the underground mysteries, explore the underground resources, predict the geological hazards, attracting the sea and deep underground waters to the areas of deserts through the layers, attracting the vaporized sea waters to the desert plains through the sky by geo-magnetizing atmosphere when the weather is surrounded by water molecules during the trough of low pressure areas by using new technologies such as Geoscope; create artificial storms and making them our control by moving desert planes and pour rains; creating artificial rains; travelling into the past by using new technologies just like Time-Travel-Machine; Restore and re-create people in the past by using new biotechnologies just like Bio-Machine; restore and re-create people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine; establishment of human habitations on inter-planets; to have relationship with living beings on the neutrons; to have relationship with living beings on the planets in the outside worlds of our Geo-universe etc. were exposed to the anger of fundamentalists and superstitious, subsequently got into violent altercations. As a result, my lab was destroyed and copies of my hypothesis were burned. I reported these repressions to the Revenue Divisional Officer. Amalapuram in July, 1977. The Revenue Divisional Officer was conducted an enquiry about this matter. While returning from the enquiry, on forenoon, I was attacked by a mob and they had taken me forcibly to the village chavadi, Ryali, there fundamentalists and superstitious people were met and where I was beat up. Followed by altercations about my thoughts in the book, they beaten and forced me to put signatures on some prepared documents, and an offence falsely framed and foisted against me. After many tortures, I was sent to the Taluk Magistrate, Kothapeta and persuaded to renounce my views and ideas. The fundamentalists and superstitious people succeeded me in sentencing. The Taluk Magistrate was declared me as a dangerous boy and up to anything and issued sentence to punish and handed

over to the Police Station, Ravulapalem. I was arrested on July 21, 1977. A case was registered and I was kept remand for some months in sub-jail and remaining period interrogated periodically. I had been driving with chains through the streets of Kothapeta from Sub-Jail to court during the timings of presenting to the court. The trials were done from April 2, 1979 to November 20, 1979. After many trials and arguments, the Hon'ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27, 1979.

Author bio: I'm an unfortunate Indian scientist that society throws away and government did not encourage and provide research opportunities, was born on May 25, 1958 in India to a poor depressed community family. Eventually, I built a small lab in my house and more than 1000 researches and studies have been conducted by me from the childhood age 1965 to till year 2022 earth and space science issues.

Among them, Bio-forecast(1965-70), Irlapatism-A New Hypothetical Model of Cosmology(1970-77), Inquest and imprisonment(1977-79), Geoscope(1980-87), Basics of Monsoon Time Scales(1987-91), Indian Monsoon Time Scale(1991), Disaster management prevention and mitigation policies(2000-10), Global Monsoon Time Scales(2010-2022) etc. were important and successfully completed while Artificial rains for creating normal rains, Artificial storms for pouring heavy rains, Artificial underground waters for increasing ground waters, Time-Travel-Machine for traveling into the past, present future, Geo-machine for re-creating humans of past, Earth-machine for re-creating the another earth in the space, Inventing the life, Microcosm project for connecting and entering the worlds of micro organs, atomic-worlds, Macrocosm project for connecting and entering the worlds of space and outer space worlds etc. were uncompleted due to lack of support and opportunities.

However, much efforts and sacrifice did tho, I could not get government recognition and social support. My researches and studies on Artificial rains, Artificial storms, Artificial underground waters, Time-Travel-Machine, Geo-machine, Earth-machine, Inventing life, Re-creation of humans of past etc. and my campaigns to dispel superstitions, remedial education, literacy programs and science popularization programs etc. and my proposals such as "photon is a gigantic universe as same as our universe and atom in which there are galaxies, stars, planets similar as in our universe and/or electrons, protons, neutrons similar as in atom; atom is a gigantic universe as same as our universe in which there are galaxies, stars, planets in the form of electrons, protons and neutrons and there

are continents, oceans, countries, living beings on some neutrons similar as on the earth; the universe seen around our earth is a tiny atom in another ascending order of creation etc. were subjected to the wrath of upper communities, racists, fanatic officials and as well as fellow scientists.

I have conducted many studies on the origin, nature, structure and evolution of the cosmos during the period of 1970-77 and proposed A New Hypothetical Model of Cosmology with hundreds of postulations. In 1977, a book was published in the name of Irlapatism--Irlapati Theoty of universe on the basis of the postulations of the hypothesis by the supporters. My thoughts and proposals in the book were exposed to the anger of fanatic people and I got into a violent altercation about these postulations of the hypothesis. As a result I was subjected to the suppressions and persecutions. I reported these suppressions and torments to the revenue divisional officer. Amalapuram on 6-7-1977 the revenue divisional officer was conducted an enquiry about this matter on forenoon, July 21st, 1977 while returning from the enquiry, I was attacked by a mob and they had taken me to the village chavadi. Followed by an altercation with tortures about the theory, they beaten and forced me to put signatures on some false documents, and an offence falsely framed and foisted against me. After that I was sent to the taluk magistrate, kothapeta for another trial with the investigation of the superstitions, the taluk magistrate was declared me as a dangerous boy and up to anything and issued sentence to punish me and handed over to the police station, ravulapalem. The police was arrested me on July 21, 1977 registered a case and sent to remand, I was kept imprisoned some months in subjail and remaining period interrogated periodically by panatics and officers. The trials were done between April 2, 1979 to November 20, 1979. After many trials and arguments, the Honorable Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27, 1979.

I tried to find out a lot of inventions and discoveries and basic ideas. But I am not giving research facilities. However, I could not do further researches on many more research ideas due to lack of opportunities. My goal is to take and keep the entire underground under into the control of Geoscope to study the underground mysteries, explore the underground resources; predict the geological hazards; attracting the sea waters to the underground areas of deserts through the layers by electro-ionization; attracting the vaporized sea waters to the desert plains through the sky by geo-magnetizing atmosphere when the weather is surrounded by water molecules during the trough of

low pressure areas, Create storms and making them our control by moving desert planes and pour rains; creating artificial rains; travelling into the past by using new technologies just like Time-Travel-Machine; Restore and re-create people in the past by using new biotechnologies just like Bio-Machine; restore and re-create people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine; establishment of human habitations on inter-planets; to have relationship with living beings on the neutrons; to have relationship with living beings on the planets in the outside worlds of our Geo-universe etc . But all hopes have become obsolete

However, much efforts and sacrifice did tho, I could not get government recognition and social support. My researches and studies on Artificial rains, Artificial storms, Artificial underground waters, Time-Travel-Machine, Geo-machine, Earth-machine, Inventing life, Re-creation of humans of past etc. and my campaigns to dispel superstitions, remedial education, literacy programs and science popularization programs etc. and my proposals such as "photon is a gigantic universe as same as our universe and atom in which there are galaxies, stars, planets similar as in our universe and/or electrons, protons, neutrons similar as in atom; atom is a gigantic universe as same as our universe in which there are galaxies, stars, planets in the form of electrons, protons and neutrons and there are continents, oceans, countries, living beings on some neutrons similar as on the earth; the universe seen around our earth is a tiny atom in another ascending order of creation etc. were subjected to the wrath of upper communities, racists, casteists and religious people as well as fellow scientists and resulted into oppression on me. They invaded my laboratory, abused and beaten, humiliated and tortured me in many ways. Illegal cases were framed and foisted against me. I faced trials, handcuffed and led through streets, and imprisoned. I am a victim of racism and discrimination, negligence and jealousy. I am now making my life's last journey due to disregard and despair and serious illness and severe poverty that's no food to eat, no fabrics to put on and no money to take treatment for the asthma cardiovascular disease.

Appeal:

Kindly find out my researches in all social networking websites or can obtain by sending your email to me. These findings are very helpful for research institutions, universities researches. And also these findings can be very helpful for Ph.D students, Postdocs, professors, seniors, scientists and science

enthusiasts who want to innovate. I will send them the valuable information I have.

For example, those who want to design Monsoon Time Scales for their regional or country Monsoons and conduct weather predictions have trouble in making the Monsoon Time Scales, kindly contact me at my email id gangadhar19582058@gmail.com and take my suggestions and assistance. I will send you complete details of this scale. Further if you want, I will create a manual Monsoon Time Scale and send the same to you for study. However for this, data of list of monsoon pulses in the form of monsoonal low pressure systems, depressions and storms formed over their monsoon region or country last 100& above years since 1880 as cited in the Reference-1 (i.e Mooley DA, Shukla J(1987); Characteristics of the west ward-moving summer monsoon low pressure systems over the Indian region and their relationship with the monsoon rainfall. centre for ocean-land atmospheric interactions, university of Maryland, college park, MD.,) have been taken as the data to establish this scale. I will make and send it to you.

I am now making my life's last journey in serious illness and poverty. Illness weakening the health and mind slows down and forgetfulness is coming. It is not known how long I will live and when I will die, but I know my time is near. Hence, I humbly request that if world scientists have invented any technology in future that re-create humans of past, kindly remember and re-create me to complete my uncompleted researches as attendant in your research institute. .

BIOBIBLIOGRAPHY

The major events in my life and references of some important research publications are also listed below along with supported documents in a chronological order. The only important ones are given below. Many more publications and services that are done but not listed in the references below.

1	25 th May, 1958	Born in a group of lowest social caste system(ranked as Mala in scheduled caste) traditionally to be untouchable in India.
	May25,1958	I, Gangadhara rao irlapati, an unfortunate Indian scientist born on 25 th May,1958 in a group of lowest social caste system(ranked as Mala in scheduled caste) traditionally to be untouchable in India. Parents: Pullaiah Irlapati(father),Manikyam Irlapati(mother); Brothers&Sisters:Sampath Rao Irlapati(brother),Saroja Irlapati(sister),Bhagyam Irlapati(sister), Gangadhara Rao Irlapati(self), Kalavathi Irlapati(sister), Balaji Irlapati(brother); Spouse: Satyavathi Irlapati; Children: Pullaiah Naidu Irlapati(son), Prudhvi Irlapati(son), Saroja(daughter); My wife and childrens are argumentative, negative and ill-tempered who vehemently opposed my researches and they were mentally torturing me.

	Education	I acquired scientific interest and conscious inherently by birth. I did primary education from 1 to 5 th classes in Government Elementary High School, Merlapalem(1963-1968); 6 th & 7 th classes in Government Upper Primary School, Vubalanka(1969-1971); 8 TH to 10 TH classes at Government High School, Ravulapalem (1971-74); Intermediate 11+12 classes at M.G.Jr. College, Atreyapuram(1974-76). I studied graduation B.A. degree in Andhra University(1985-89) and obtained post-graduation M.Sc degree in disaster mitigation sciences from Sikkim Manipal University(2001-03).
	Researches	<p>With an ideal to serve the people from weather problems and natural calamities through scientific researches, I went around governments and organizations for research support and opportunities. But the Governments and councils did not encourage and provide opportunities; officials & researchers ridiculed me and pushed out. My thoughts angered the fundamentalists and superstitious. Despite being oppressed and not getting research opportunities, I built a small lab at my house with available resources and mathematical instruments, drawings, designs, home-made apparatus, scrap reference books and did many researches and studies on anticipating weather changes and natural calamities that can be performed either in easy methods or at complicating infrastructure; either with big amount or at no cost; either by common researchers or by great researchers from 1965 to present. But the governments did not encourage and provide research opportunities and the society threw away me. They ridiculed and humiliated me when I asked to provide research opportunities. After many rejections and humiliations, I built a small lab in my house and made more than 1000 researches, studies and postulates on the earth and space science from my childhood 1965 to old age 2022. Among them, Bioforecast(1965-70), Irlapatism-A New Hypothetical Model of Cosmology (1970-77), Inquisition(1977-79), Basics of Geoscope (1980-87), Basics of Monsoon Time Scales (1987-91), Indian Monsoon Time Scale(1991), Researches on Earth and space related issues(1991-2000), Numerical Weather Periodic Tables(2000-10), Designs of Geoscope projects (2010-20), Designs of Global Monsoon Time Scales (2020-) etc. were important and successfully completed. However, Artificial rains for creating normal rains, Artificial storms for pouring heavy rains, Artificial underground waters for increasing ground waters, Time-Travel-Machine for traveling into the past, present future, Geo-machine for re-creating humans of past, Earth-machine for re-creating the another earth in the space, Inventing the life, Microcosm project for connecting and entering the worlds of micro organs, atomic-worlds, Macrocosm project for connecting and entering the worlds of space and outer space worlds and postulates like "photon is a gigantic universe as same as our universe and atom in which there are galaxies, stars, planets similar as in our universe and/or electrons, protons, neutrons similar as in atom; atom is a gigantic universe as same as our universe in which there are galaxies, stars, planets in the form of electrons, protons and neutrons and there are continents, oceans, countries, living beings on some neutrons similar as on the earth; the universe seen around our earth is a tiny atom in another ascending world etc. remains uncompleted due to lack of support and opportunities.</p> <p>In addition, I tried to find out some inventions on the basis of some super research ideas/proposals but could not do further researches on those research ideas due to lack of opportunities. Besides these, I have done also various other services and play active role in many fields science popularization programmes, modern scientific ideas of hierarchical, infinite and innumerable universes, mysteries and rational thoughts of the creation and cosmo and general taking an active part in issues such as literacy</p>

		programmes, remedial programmes, rationalize programmes, etc that concerned greater good of the community associated with many organizations like Peoples Action For Rural Awakening, Ravulapalem. Apart from these,
2	1965-70	Started little experiments at the age of 7 th year, with home-made apparatus, mathematical box and pencils etc and invented the Lisposcope(1965) Discovered some bubble like objects later named as Biolumucells (Boiluminiscent micells(1966)). I found the relationship between the weather changes and the number of micells later it was named as Bio-forecast effect(1969).
	Bioforecast	<p>From 1965 to 1970, I started doing researches and studies around 10th year of my childhood. Organisms such as animals, fish, birds, reptiles, and insects etc have a biological genetic forecasting system that predicts weather changes and disasters in advance. Many researches and studies did on this biological genetic forecasting system between 1965 to 1970, and invented Lisposcope in 1965, Biolumicells (Bioluminescent micells) in 1966, and “ Bioforecast effect” in 1969. These are my first inventions which can help to forecast the weather changes 18 days in advance. I tried to break the mystery of how organisms can detect weather changes and disasters in advance.</p> <p>This system was efficiently conducted and proved in the presence many researchers and institutions. Although weakened by forecasting property with less successive rate, it is a primary and natural biological genetic forecasting method. The important prediction of the Bio-forecast was proved in 1991. In 1991, the Andhra Pradesh State Council of Science & Technology, The Andhra Pradesh Remote Sensing Applications Centre and the Andhra Pradesh Science Centre were conducted experiments on the relationship between the biosphere and atmosphere (explore the inter-connection of earths geomagnetic field with natural calamities and their effect on human impulse). In these observations, the maximum level of the Biolumicells were recorded between 7th to 11th of April, 1991. It is the sign of the ensuring cyclone of the 28th April 1991. The three directors of the said institutions were met in the Andhra Pradesh State Council of Sciences & Technology on 9th, April 1991 and discussed about the prediction. As predicted on 9th April 1991, in the meeting a severe cyclone was formed in Bay of Bengal and strike the Bangladesh on 28th April 1991. As a result, thousands of people were killed and crores of rupees property was damaged. This is the Great prediction by the Bio-forecast and the remaining predictions were weak. Global researchers can do more research and develop on this natural biological genetic forecasting method and use it for the welfare of global humanity.</p>
3	1970-77	Built a small lab with home-made apparatus, small telescope, mathematical instruments, collected a number of books relating to the cosmology along with sacred books and did immense chapters on the origin, structure. nature and evolution of the creation. Discussed the same with professors & lecturers and taken their views. Finally, I proposed a hypothesis with several postulations and proposals. In 1977 on 1 st July, A book was published in the name of Irlapatism-Irlapati Theory of Universe . The proposals in the book were instantly repulsed by the superstitious. As a result I was subjected to

		the anger of fanatic people and officials. My lab was destroyed and copies of the books of my theory were burned.
	Irlapatism	Between 1970-77 years I have done extensive researches and studies on the origin, nature, structure and evolution of the creation and proposed basics of creation. Based on those basics, A New Hypothetical Model of Cosmology was proposed in 1977. A book was also published and released on 1 st July, 1977 in the name of Irlapatism-Irlapati Theory of Universe by the supporters. All matters pertaining to the creation such as Origin, Structure, Nature and Evolution were widely discussed in this hypothesis. According to this Hypothesis "Irlapatism" the creation is made up of universes in infinite number that are having similar structure and properties, embedded one in each other and extended in ascending and descending order in the form of a super fluid substance amalgamation. To explain and justify this model, there are three universes so far known to us (a) Geo-Universe (b) Atomic-Universe (c) Photon-Universe. These three are having similar structure and properties, embedded one in each other and extended in ascending and descending order.
	Inquisition	These Basics of creation particularly my views on underground can be controlled by a system named National Geoscope System, artificial rains can be poured, artificial storms can be created, artificial underground waters can be increased, time-machine, space-machine, geo-machine, images of living beings living on earth are preserved in the earth's magnetic field and they can be created by a machine named geo-machine and most important of all the atom has a gigantic internal structure similar to our universe and there are worlds, continents, seas, countries, humans on the neutrons and our gigantic universe seen around oetc restore and recreate people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine; establishment of human habitations on inter-planets; to have relationship with living beings on the Neutrons; to have relationship with living beings on the planets in the outside worlds of our Geo-universe etc were instantly traduced, exposed to the anger of fanatic people and got into violent altercations. As a result, I was subjected to the anger of fanatic people and officials. My lab was destroyed and the copies of books of the hypothesis were burned. I reported these persecutions and torments to the Revenue Divisional Officer. Amalapuram in July, 1977. The Revenue Divisional Officer was conducted an enquiry about this matter. While returning from an enquiry, on forenoon, July 21 st , 1977, I was attacked by a mob and they had taken me forcibly to the Village Chavadi, Ryali, there superstitious people were met and where I was beat up. Followed by an altercation about the basics and ideas of the book, they beaten and forced me to put signatures on some prepared documents, and an offence falsely framed and foisted against me. After intense tortures, I was sent to the Taluk Magistrate, Kothapeta and persuaded to renounce my views and ideas. The superstitious people succeeded me in sentencing. The Taluk Magistrate was declared me as A dangerous boy and up to anything and issued sentence to punish and handed over to the Police Station, Ravulapalem. I was arrested on July 21, 1977. A case was registered and I was kept remand for some months in sub-jail and remaining period interrogated periodically. I had been driving with chains through the streets of Kothapeta from Sub-jail to Court during the timings of presenting to court. The trials were done from April 2, 1979 to November 20, 1979. After many trials and arguments, the Hon' ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27, 1979.

4	Petition july,1977	Dated:6 th	I submitted a petition to the Revenue Divisional Officer. Amalapuram about these torments after publication of my theory of creation.
5	July,1977		While returning from the enquiry, I was attacked by a mob and they had taken me forcibly to the Village Chavadi, Ryali, there superstitious people were met and where I was beat up. Followed by an altercation about the ideas of my hypothesis, they beaten and forced me to put sign on some prepared documents, and an offence falsely framed and foisted against me.
6	Taluk Magistrate Report, Report No.A-2- 5873/77.Dt.July 21 st A.N 1977		After tortures, I was sent to the Taluk Magistrate, Kothapeta.. The superstitious succeeded me in sentencing. The Taluk Magistrate was declared me as A Dangerous Boy and Upto Anything and issued sentence to punish me and handed over to the police station..
7	53/77 July,22 nd .F.N 1977.		A case was registered against me. I was kept remanded in sub-jail. I had been driving with chains through the streets of Kothapeta from Sub-Jail to Court during the timings of presenting to court.
8	Additional Judicial First Class Magistrate Court Judgment&judgment. C.C.No.13/79,		The trials were done from April 2, 1979 to November 20,1979.
9	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.1		Judgment
10	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.2, para-5,lines 5-9,		The thing that came up in the inquest was that the superstitious and fanatic people grew wild on the logic of the Creation&God issue in my hypothesis of creation I published and distributed.
11	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.3, para-5,lines 10- 12		The thing that came up in the inquest was that an enquiry was conducted by the Revenue Divisional Officer

12	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.3, para-5, line-13	The thing that came up in the inquest was that a case was falsely framed and foisted against him.
13	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.3, para-6, line 14-19	Taken, beaten and obtained his signatures forcibly; produced before the Tahsildar and handed over to the police station.
14	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.3, para-6,	The thing that came up in the inquest was that establishing a case against him, beyond all reasonable doubt ?
15	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.4, para-7, line-1	The thing that came up in the inquest was that he was beaten
16	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.27 th November,1979 Page No.4, para-7, line 3&4	The thing that came up in the inquest was that there was a altercation regarding the existence of God(Theory of creation)
17	Additional Judicial First Class Magistrate Court Judgment.No.13/79,	The thing that came up in the inquest was that the Hon' ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted me on 27 th ,November 1979.

	Dt.27 th November,1979	
18	1980-82	1980-82: I suffered serious financial problems; I did not have food to eat, fabrics to put on and there was no house to live. However I built a small lab with home-made apparatus and did immense many studies and experiments to propose a revolutionary architecture in the name of Geoscope.
19	1982-87	Joined in the Gram Panchayat Forest Scheme(1982-87) to contend financial difficulties. I made that opportunity favorable to researches and played active role in the fields of social forest schemes, environmental protection programmes, urban forestry and other awareness programmes of environmental protection under the Gram Panchayat, Merlapalem and made many studies in the fields of Agricultural meteorology, climate and crops, farming systems, weather & its effects on environment, interactions of weather with grasses, trees, agro-ecosystems, yield forecasting, disaster management, environmental pollutions, climate change etc that concerned greater good of the nature and environment.
	1980-87	From 1980, I started working out t Geoscope and designed the Basics of Geoscope for all world countries
	Basics of Geoscope	<p>Between 2000-10, I conducted many researches and studies on the world geological regions and applied them to the Geoscope and proposed and designed the Geoscopes for all world regions and countries with many proposals such as studying all over earth system dealing with the physical and chemical composition and it' s atmosphere including geological hazrds; breaking the underground mysteries; searching&exploring the underground resources; predicting&mitigating the geological hazards; attracting the deep underground/sea waters to the areas of deserts and rain shadow areas through the layers by electro-ionization and increase the underground waters; attracting the vaporized atmosphere/sea waters to the desert/rainshadow areas through the sky by electrically geo-magnetized atmosphere when the weather is surrounded by water molecules during the trough or low pressure areas; creating artificial storms and making them to our control by moving desert/rainshadow areas and pour rains; restoring and recreating people in past by images that are preserved in the earth' s magnetic field by new technologies just like Geo-Machine etc. These are not what Buckminster had proposed Geoscope in 1962. Geoscope proposed by me is completely different intended to study the earth' s underground&surfaceground for public purposes.</p> <p>The Geoscope is a geological system that studies the underground by setting up a number of Geoscopes in different locations and analyzing the data in a coordinated manner. For example, to study earthquakes one or more required number of Geoscopes should be established in the expected earthquake zones. The observation personnel in the respective Geoscopes should watch the onset of earthquakes day and night. There should be established a Regional Geoscope Centre at every expected quake zone to co-ordinate and codify the information supplied by the local Geoscope Centers of the zone. There should be established a central processing centre to co-ordinate and codify the information supplied by the local geoscope centres from all over country in a coordinated manner. Whenever a local geoscope centre sends warning about the onset of earthquakes, the observation personal should immediately send the information to its centralrocessing centre. The central processing center should analyze the information supplied by the local geoscope centre and estimates the epi-centre, time, area to be affected urban</p>

		<p>places etc., details of the impending earthquake and send to the authorities, and media and warnings in advance to take precautions.</p> <p>In 2003, The Secretary, Andhra Pradesh Public Service Commission was forwarded a research project to the Chief Minister's Office for implementation of a drought combat poroject. .</p>
20	<p>A.J.V.B.M. Rao</p> <p>Hon' ble Member ofParliament Lr.Dated:3rd,December,1987</p>	<p>Sri A.J.V.B.M. Rao Hon' ble Member of Parliament was recommended the Geoscope proposals to Sri K.R.Narayanan, Union Minister of Science& Technology, New Delhi. (became the then President of India) for further research and development in the services country.</p>
	1987-91	Between 1980-87, I proposed and started making Basics of Monsoon Time Scales for all world local, regional, and global monsoon
	Basics of Monsoon Time Scales	<p>Monsoons are crucial in the climate system; a seasonal reversing wind accompanied by its corresponding weather changes and natural calamities in precipitation and moves according to the gravitational forces. We cannot be said that a monsoon especially to be relevant to a particular continent, region or country. Each and every continent, region or country has its own seasonal monsoonal winds. So monsoon system is spread all over the globe. Between 1987-91, many researches were conducted by me on the world local, regional and global monsoon systems and proposed Basics for Monsoon Time Scales to study the past' s, present and future movements of monsoon systems and its relationship with rainfall and other weather problem and natural calamities.</p> <p>In 1991, A detailed report on the Global Monsoon Time Scales (Indian Monsoon Time Scale) was submitted to the Director General of Meteorology, India Meteorological Department for further research and implementation.</p> <p>In 1991, Shri G.M.C. Balayogi, Hon' ble Member of Parliament was forwarded the Global Monsoons Time Scales (Indian Monsoon Time ScalE) to the Indian Meteorological Department for implementation in services of the nation.</p>
21	<p>DalitVoiceJournal PageNo.20,21,June&July,1988</p>	<p>The Dalit Voice Journal published a story on the inventions&discoveries Lisposcope, Geoscope and A New Hypothetical Model of Cosmology etc and its consequences.</p>
22	<p>Minister,State, Science&Technology, Government of India, No.401/VIP/MOS/88 1988 Dated 9th, December, 1988</p>	<p>Sri K.R.Narayanan was recommended the Geoscope project proposals to the Council of Scientific & Industrial Research in the capacity of Vice-President, Council of Scientific & Industrial Research for further research and implementation.</p>

23	Dated:03 rd , June,1989	As per the directions of the Council of Scientific & Industrial Research, a detailed report on the Geoscope project was submitted to the National Geophysical Research Institute for further research and implementation.
24	GramPanchayat, Melapalem,P.R.No1988, 13 th ,December,1988.	Gram Panchayat, Merlapalem Village was sent a resolution to the Government to approve his inventions and discoveries just like Theory of creation, Monsoons Time Scale etc.
25	Hon' ble High-Court of Andhra Pradesh. Writ Petition No.12355, Dated: 6 th September,1989	The Hon' ble High-Court of Andhra Pradesh was also issued orders to the Government of India, Council of Scientific & Industrial Research, New Delhi, National Geophysical Research Institute, Hyderabad for provision of research facilities to carry out scientific investigations on the Geoscope and Monsoon Time Scales Project Proposals. When I met the N.G.R.I, they are insulted, refused to provide research facilities and pushed out to the gate.
26	1988	Shri G. Surya Rao, Hon' ble M.L.A was forwarded the Monsoons Time Scales projects to the Chief Minister of Andhra Pradesh for implementation in the welfare of the people.
27	Chief Minister, Andhra Pradesh, CMP No.17/Rev/L/89. Dated:30 th January,1989	Sri N.T.Rama Rao, The Chief Minister of Andhra Pradesh was issued orders for implementation of th Monsoons Time Scales in the welfare of the people.
28	1989	I went to Coconut Research Institute as per orders of the A.P.Agricultural University to conduct of fundamental experiments on some research projects by predicting climate changes through Monsoon Time Scales, attracting the sea waters to the underground areas of deserts through the layers by electro-ionization; attracting the vaporized sea waters to the desert areas through the sky by electrically geo-magnified atmosphere when the weather is surrounded by water molecules during the trough of low pressure areas. During this researches, I was man-handled.
29	1989-90	I conducted some experiments on Monsoon Time Scales, magnetic waters and research projects that attract the vaporized sea waters to the desert plains through the sky by geo-magnetizing atmosphere when the atmosphere is surrounded by the water molecules during the low pressure areas and also conducted fundamental experiments on a research project by which attracting the sea waters to the underground areas of deserts through the layers by electro-ionization; at Central Tobacco Research Institute, Rajamundry.
	1991	In 1991 I proposed Indian Monsoon Time Scale.
30	Lr.Dated:15 th August, 1991	A detailed report on the Monsoon Time Scales was submitted to the Director General of Meteorology, India Meteorological Department through Shri G.M.C. Balayogi, Hon' ble Member of Parliament for further research and implementation..
31	Indian Meteorological Department	Shri G.M.C. Balayogi, Hon' ble Member of Parliament was forwarded these Monsoons Time Scales to the Indian Meteorological Department for implementation in welfare of the nation.

	Lr.No.NA-153, Dated:21 st October,1991	
32	Lr.Dated:1 st November,1991	According to the Indian Meteorological Department , I was sent a detailed report about the Global Monsoons Time Scales including Indian Monsoon Time Scale to the Indian Meteorological Department for implementation in welfare of the nation.
	1991-2000	Between 1991-2000, I researched on the relationship among the earth and space related issues and discovering many mysteries.
33	Andhra Pradesh StateCouncil Science&Technology, Proc.No.ADMN/RESEAR CH/231/' 91 25 TH June,1991	A Project was jointly had been organized by Andhra Pradesh State Council Science & Technology, Andhra Pradesh State Remote Sensing Applications Centre and Andhra Pradesh Science Centre on the inter-connection of Earth' s Geomagnetic field with natural calamties and their effect on human impulse and also to prepare a project that attract the vaporized Sea waters to the desert plains through the sky of geo-electromagnetizing atmosphere when the atmosphere is surrounding by the water molecules during the low pressure times and attracts the sea/underground waters to the desert underground areas through the layers by electro-ionization; During that research, The Director shouted biggerly and insulted among the staff for asking some money for food at that time I had no food to eat and no fabrics to put on.
	1991-2000	There are many myths, mysteries, truths, beliefs in the cosmology that current theories can not explain. Some issues in the cosmology are theoretical, meaning that existing theories seem incapable of of explaining a certain observed phenomenon or experimental result. The others are experimental, meaning that there is a difficulty in creating an experiment to test a proposed theory or investigate a phenomenon in greater detail. Some pertain to one-off events, unusual occurrences that have not repeated and whose causes therefore remain unclear. Between 1991-2000, I conducted many researches and studies on the relationships between the space and the earth proposed many things for studying the structure and properties of the cosmos; unraveling the mysteries of the cosmos and exercising the benefits of mankind and development of the astronomy. This theory led to many discoveries of the cosmology and many mysteries regarding the cosmology can be answered based on these as that all things in the creation which may be photon to atom, and cyclone to galaxy have the similar basic principles.
35	People' s Action for Rural Awakening. 5 TH October,1993	I joined in the People' s Action for Rural Awakening. I played active role in remedial and rationalize programmes and general taking an active part in issues such as literacy programme, science popularization programmes, remedial programmes, rationalize programmes,modern scientific ideas, ideas of hierarachical, infinite and innumerable universes, mysteries and rational thoughts of the cosmos etc that concerned greater good of the community associated with the organization of People' s Action for Rural Awakening,Ravulapalem.
36	1993	I joined as Junior Assistant in A.P.P.S.C, Hyderabad. Financially convenient.

43	Cabinet Secretariate of India DO.No.NMRF/SKM/30/94 ,Dated:17 th August,1994	Consultations were made with The Cabinet Secretary of India for implementation of the Global Monsoons Time Scales including Indian Monsoon Time Scale.
48	India Meteorological Department, No.NA-150, Dated:28 th November,1996	Consultations were made with the President of India and other VVIP through the Lok Sabha Secretariat for further research and implementation of the Indian Monsoon Time Scale(Global Monsoons Time Scales)
49	2000	Many Universities had expressed their complements on the Irlapatism-A New Hypothetical Model of Cosmology.
	2000-10	Between 2000-10, I did many researches regarding the Designs of Numerical Weather Periodic Tables for all world countries.
	Numerical Weather Periodic Tables	<p>Astro-Meteorology or Meteorological Astronomy is a pseudoscience that attempts to forecast the weather changes and natural calamities. It is fact that the postion and motion of celestial objects can be used to predict both seasonal climate and weather.. Between 1991-2000 years, I conducted many researches and studies on the relationship between weather changes and gravitational forces and designed the Numerical Weather Periodic Tables on the basis of Metonic cycle.</p> <p>I designed the Numerical Weather Periodic Tables with 21 blocks, each block containing certain prescribed cycle of years in which similar calendar years repeating one after another that leads similar weather conditions of those previous years to future years likely repeating every year approximately to study the monsoon and it' s weather conditions and natural calamities. Numerical Weather Periodic Tables are very useful in estimating climate many years in advance.</p> <p>Many Consultations were made with the Directorate of Statistics and Economics regarding implementation of the Weather Periodic Time Scales. In 2005, Consultations were made with the Indian Meteorological Department for implementation of the Weather Periodic Time Scales. In 2006, Sri D. Sambaiah, Hon' ble M.L.A was forwarded the Weather Periodic Time Scales to the Chief Minister of Andhra Pradesh for implementation in the welfare of the people. Consultations were made with the Commissioner for Disaster Management for implementation of Weather Periodic Time Scales. In 2009, Consultations were made with the Addl. Commissioner for Disaster Management for implementation of Weather Periodic Time Scales. In 2009, The Secretary, Andhra Pradesh Public Service Commission was forwarded Weather Periodic Time Scales to the Commissioner for Disaster Management for implementation. In 2010, A detailed research project on the Weather Periodic Time Scales was submitted to the Indian Meteorological Department for further research and development. In 2010, Negotiations with the A.P State Council of Science & Technology are conducted related to implementation of Weather Periodic Time Scales.</p>

59	Directorate of Statistics and Economics Lr.No.2851,p1g.X1/A2/2004-4 Dated:15 th October,2004	Consultations were made with the Directorate of Statistics and Economics regarding implementation of the Astro-Climatic Weather Time Scales.I collected a lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.
60	India Meteorological Department No.49106 Dt: 25 th July,2005	A detailed research project on the Indian Monsoon Time Scale was submitted to the Indian Meteorological Department for further research and development.
61	Commissioner for Disaster Management, 2008	Consultations were made with the Commissioner for Disaster Management for implementation of a disaster management project.,
62	2005	Consultations were made with the Secretary, Ministry of Science & Technology for further research and implementation of Geoscope and Indian Monsoon Time Scale.
63	A.P. State Legal Services Authority,ROCNo.7387/LSA/2005 Dated:26 th November,2005	I was proposed a project which can help to forecast the cyclones in advance. The A.P. State Legal Services Authority was forwarded that project proposals to the Chief Minister of Andhra Pradesh for implementation through the Disaster Management Department.
64	2005	Consultations were made with the Indian Meteorological Department for implementation of the Weather Time Scales and Indian Monsoons Time Scales. Collected a lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.
65	Supreme Court Legal Services Authority,ROCNo.8664/2OO5 Dated:2 nd june, ,2006	Consultations were made with the Hon' ble Supreme Court Legal Services Committee to implement the Geoscope in the services of welfare of the people.
66	A.P State Council of Science & Technology,Lr.No.0393/S&T/2006-1,Dated:19 th January, 2006	Negotiations were made with the A.P State Council of Science & Technology for implementation of a research project to recreate artificial rains and cyclones.
67	D. Sambaiah, Hon' ble M.L.A Dated:15 th April,2006	Sri D. Sambaiah, Hon' ble M.L.A was forwarded the Indian Monsoons Time Scales and Weather Time Scales to the Chief Minister of Andhra Pradesh for implementation in the welfare of the people.

74	Commissioner for Disaster Management,Lr.No:6524/ DM-111,Dated:19 th February,2008	Consultations were made with the Commissioner for Disaster Management for implementation of a disaster management project.,
75	Minister of State for Mines Lr.No.209/MOS/PS/2008	I presented preliminary findings from my study about the world global monsoon systems and its effects on the Indian monsoon to sri Dr.P.Subbarami Reddy. Sri Dr.P.Subbarami Reddy, Hon' ble Minister of State was forwarded these project proposals to the Indian Meteorological Department for implementation.
76	India Meteorological Department No.GT-02(MISC)/6675 Dt:8 th August,2008	Consultations were made with the Indian Meteorological Department for implementation of the Indian Monsoon Time Scale/Global Monsoons Time Scales.
77	Asst.Commissioner Disaster Managemet 25241/8 th july, 2009	The Andhra Pradesh State Weather Time Scale Project was sent to the Times Foundation for offer their remarks Indian Weather Time Scales are containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.
78	 6655/Dt: 13-8-2008	Indian Weather Time Scale was submitted to the India Meterological Department. A lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.
79	Secretary, Ministry of Science & Technology,Lr.No. 2009	The secretary for the Department of Science & Technology was sent the Indian Monsoon Time Scale to the Indian Institute of Trophical Meterology
80	Asst.Commissioner Disaster Managemet 25241/8 th july, 2009	Consultations were made with the Addl. Commissioner for Disaster Management for implementation of a project.
81	Indian Meteorological Department, No.S- 01416/Prediction.Dated:9 th December,2009	A detailed research project on the Indian Monsoon Time Scale was submitted to the Indian Meteorological Department for further research and development.
82	Indian Meteorological Department, No.S- 01416/Prediction.Dated:9 th December,2009	A detailed research project on the Geoscope was submitted to the Indian Meteorological Department for further research and development.

83	DisasterMangementDepart ment, Lr.No.25241/DM.111(3)/2 009Dt:8-7-2009	A seminar was conducated in the Disaster Mangement on 13-7-2009 regarding the Indian monsoon movements and its weather changes and natural calamities
84	869/Dt: 15-7-2009	The Secretary, Andhra Pradesh Public Service Commission was forwarded a research project to the Commissioner for Disaster Management for implementation.
85	India Meteorological Department No.F12016 Dt: 1-12-2009	Some experiments & studies were conducted on the Indian Weather Time Scale and submitted to the India Meteorological Department
86	India Meteorological Department No.S- 01416 Dt: 9-12-2009	Some experiments & studies were conducted on Geoscope and submitted to the India Meteorological Department
	2010	From 2010 I started making Designs of Geoscope projects for all world countries.
87	Indian Meteorological Department, No.F- 12016/1/00-NA Dt: 9-7-2010	Many studies were carried out on the Indian weather chronologically and formulated the Indian Weather Time Scale in which collected a lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately and sent the same to the India Meteorological Department
88	Andhra Pradesh State council of Science&Technology Lr.No.1/APCOST/NRDMS -Dt:16-7-2010	Negotiations with the A.P State Council of Science & Technology are conducted related to implementation of the A.P State Weather Time Scale.
	2010-20	Between 2010-20 I designed several Geoscope projects to all world countries.
	Designs of Geoscope	Between 2000-10, I conducted many researches and studies on the world geological regions and applied them to the Geoscope and proposed and designed the Geoscopes for all world regions and countries with many proposals such as studying all over earth system dealing with the physical and chemical composition and it' s atmosphere including geological hazrds; breaking the underground mysteries; searching&exploring the underground resources; predicting&mitigating the geological hazards; attracting the deep underground/sea waters to the areas of deserts and rain shadow areas through the layers by electro-ionization and increase the underground waters; attracting the vaporized atmosphere/sea waters to the desert/rainshadow areas through the sky by electrically geo-magnetized atmosphere when the weather is surrounded by water molecules during the trough or low pressure areas; creating artificial storms and making them to our control by moving desert/rainshadow areas and pour rains; restoring and recreating people in past by images that are preserved in the earth' s magnetic field by new technologies just like Geo-Machine etc. These are not what Buckminster

		<p>had proposed Geoscope in 1962. Geoscope proposed by me is completely different intended to study the earth’ s underground&surfaceground for public purposes.</p> <p>The Geoscope is a geological system that studies the underground by setting up a number of Geoscopes in different locations and analyzing the data in a coordinated manner. For example, to study earthquakes one or more required number of Geoscopes should be established in the expected earthquake zones. The observation personnel in the respective Geoscopes should watch the onset of earthquakes day and night. There should be established a Regional Geoscope Centre at every expected quake zone to co-ordinate and codify the information supplied by the local Geoscope Centers of the zone. There should be established a central processing centre to co-ordinate and codify the information supplied by the local geoscope centres from all over country in a coordinated manner. Whenever a local geoscope centre sends warning about the onset of earthquakes, the observation personal should immediately send the information to its centralrocessing centre. The central processing center should analyze the information supplied by the local geoscope centre and estimates the epi-centre, time, area to be affected urban places etc., details of the impending earthquake and send to the authorities, and media and warnings in advance to take precautions.</p> <p>In 2003, The Secretary, Andhra Pradesh Public Service Commission was forwarded a research project to the Chief Minister’ s Office for implementation of a drought combat poroject. .</p>
89	2020	From 2020, I started making Designs of Monsoon Time Scales for all world local, regional and global mo
	Designs of Monsoon Time Scales	<p>Monsoons are crucial in the climate system; a seasonal reversing wind accompanied by its corresponding weather changes and natural calamities in precipitation and moves according to the gravitational forces. We cannot be said that a monsoon especially to be relevant to a particular continent, region or country. Each and every continent, region or country has its own seasonal monsoonal winds. So monsoon system is spread all over the globe. From 2020, many researches were conducted by me on the world local, regional and global monsoon systems and proposed basics for local, regional and global monsoon time scales including regional monsoon time scales, sub-regional monsoon time scales, northern monsoon time scales, southern monsoon time scales, summer monsoon time scales, winter monsoon time scales and country-wise monsoon time scales for all regions and countries to study the past’ s, present and future movements of the global monsoon systems and its relationship with rainfall and other weather problem and natural calamities.</p> <p>At present, many researches are being conducted on the global monsoon systems with an ideal to invent the mysteries of the world global monsoon systems and formulating the Basics of the Global Monsoons, Regional Monsoons, Sub-Regional Monsoons and Country-wise local Monsoons, Northern, Southern, Summer and Winter wise Monsoons to predict the weather changes and natural calamities in advance and to take mitigation measures.</p>
	Uncompleted missions	There are some unsolved inventions in the field of scientific researches. World scientists should pay attention to the failures. I started basic level researches on more than 100 such ideas and prepared research notes but

	<p>could not complete due to lack of support and opportunities. I am placing these before the world scientists. I hope these inspire the world scientists and carry out researches in that direction.</p> <p>I tried to find out many inventions on the basis of some super research ideas. The proposals for these researches are placed before the respective research Institutes described above. But I am not giving research facilities and could not do further researches on those research ideas due to lack of opportunities. My goal is keeping the entire underground under into the control of Geoscope to study the underground mysteries, exploring underground resources; predicting geological hazards; attracting sea waters to the underground areas of deserts through the layers by electro-ionization; attracting the vaporized sea waters to the desert areas through the sky by electrically geo-magnified atmosphere when the weather is surrounded by water molecules during the trough of low pressure areas, creating storms and making our control by moving them to desert areas and pour rains; creating artificial rains; travelling into the past by using new technologies just like Time-machine; restoring and recreating people in the past by using new biotechnologies just like Bio-machine; restoring and recreating people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-machine; establishing of human habitations on inter-planets; having relationship with living beings on the Neutrons; having relationship with living beings on the planets in the outside worlds of our Geo-universe; creating another similar earth worlds by tracing out images of earth of previous years or centuries by space-machine etc but couldn't complete due to lack of support and opportunities.</p> <p>Artificial rains: Artificial rains has proposed&designed me through this it is possible to pour rains in required desert and rain prone areas to save people from droughts and famines. Artificial Rains Research Proposal is proposed and designed by me and prepared a scientific methodology with some clues and ideas to create artificial rains and also keep them under our control and pour rains in the required desert and rain-prone areas and tried to conduct researches . I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities.I call on world scientists to do researches that create Artificial rains.</p> <p>Artificial cyclones: Artificial storms has proposed and designed by me with a scientific methodology with some clues and ideas through this it is possible to pour rain waters in required desert and rain prone areas to save people from droughts and famine. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that create Artificial storms.</p> <p>Artificial underground waters: Artificial underground waters has proposed and designed by me with a scientific methodology with some clues and ideas through it is possible to increase underground waters in required desert and rain prone areas to save people from droughts and famines. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that create Artificial underground waters.</p> <p>Invention of life: Invention of life has proposed and designed by me to invent life with a scientific methodology with some clues and ideas through this it is possible to revive living beings. I have prepared the necessary research</p>
--	--

	<p>basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that invent life.</p> <p>Super-human: Super-human has proposed and designed by me with a scientific methodology with some clues and ideas which we can create super humans by ...he has super strength, super speed, super agility, super reflexes, super dexterity, super levitation, super flight, super invulnerability, super stamina, super jumping, super healing factor, super longevity, super immortality, super senses, super hearing, super olfaction, super telescopic vision, super x-ray vision, super microscopic vision, super eidetic memory or photographic memory, super genius level intellect, super solar energy absorption, super heat vision, super breath, super freeze breath, super dexterity, super invisibility and intangibility by vibrate his molecules, super outer space travel and super inner atomic space travel. He could fly so fast he could travel through time, his strength was enough to move the planet, his invulnerability became pretty much absolute, and he was given a raft of sensory powers-heat vision and even super ventriloquism. I have prepared necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that invent Super-human..</p> <p>Re-creation of humans of past: Re-creation of humans of past has proposed and designed by me with a scientific methodology with some clues and ideas to re-create humans of past through this it is possible to humans of the past can be re-created. I have prepared the necessary research basics notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that re-creation of humans of past.</p> <p>Bio-machine: Bio-Machine Research Project Proposal is proposed and designed by me with a scientific methodology with some clues and ideas to binvent it to create humans of past. I have prepared the necessary research basics notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that re-create humans of past..</p> <p>Time-machine project: Time-machine project I has proposed and designed by me with a scientific methodology with some clues and ideas through this it is possible to we travel to past and live. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that invent Time-machine..</p> <p>Geo-machine project: Geo-machine has proposed and designed by me with a scientific methodology with some clues and ideas through this it is possible to re-create humans of past who are embedded in the earth magnetic layers. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do like Geo-machine.</p> <p>New-Earth-machine project: New-Earth-machine project has proposed and designed by me with a scientific methodology with some clues and ideas through this it is possible to re-create siresearchesmlar earth of past in the space which is embedded in the gravitational layers. New Earth Research Project Proposal was proposed and designed by me with methodology to binvent it and go back into past time I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that Earth-machine project.</p>
--	--

		<p>Microcosm project: Microcosm project has proposed and designed by me with a scientific methodology with some clues and ideas through this means connecting inner worlds of the atom directly in microscopic ways or entering into the atom microscopic forms. (Here is a very important point to be grasped that one second of us equal to is an era in the atom world world people.). Mission Travel into Atom Research Project Proposal was designed by me with methodology to invent it and go back into past time. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that Microcosm project .</p> <p>Macrocosm project: Microcosm project has proposed and designed by me with a scientific methodology with some clues and ideas that means connecting Outer-Geo-Worlds directly in macroscopic ways or entering into the Outer-Geo-Worlds in macroscopic forms. (Here is a very important point to be grasped that our one era is equal to a second in that outer-geo-worlds.). Travel Outer-worlds Project Proposal was designed by me with methodology to invent it and go back into past time. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that Macrocosm project.</p>	
90	*	<p>However, much efforts and sacrifice did tho, I could not get government recognition and social researches were ignored and darkened. My researches such as Irlapatism-A New Hypothesis Cosmology, the existence of God in the gigantic universe is questionable, Artificial rains for crops; Artificial storms for pouring heavy rains and floods; Artificial underground waters for ground waters; Time-Travel-Machine for traveling into the past, present future; Geo-machine for humans of past from the images of past eras embedded in the layers of earth's magnetic field; Earth for re-creating another earth in the space; Inventing the life; Microcosm project for connecting the worlds of micro organs, atomic-worlds; Macrocosm project for connecting and entering space and outer space worlds etc. were subjected to the wrath of racists, casteists, fanatics as well as scientists and resulted into the oppression and humiliations on me. My lab was invaded. Illegally framed and foisted against me. I was faced trials, handcuffed and led through streets during enquiries and court hearings and imprisoned. I am a victim of racism and discrimination, not jealousy. Political recommendations and officials support, cash and caste, region and religious key role in giving support and opportunities, awards and rewards, respect and recognition communities. But I have no of them. At last, I am now making my life's last journey due to and despair with illness and poverty. Illness weakening the health and mind slowly forgetfulness is coming. It is not known how long I will live and when I will die, but I know near. I humbly request the world scientists that if world scientists have invented any technology in future that re-create humans of past, kindly remember and re-create me to complete my researches.</p>	

మహారాజశ్రీ రెవినూ డివిజనల్ ఆఫీసరు
వారి దివ్యసముఖమునకు,
అమలాపురం.

కూర్మగోదావరి జిల్లా, కొత్తవేట లాలాకా మెర్సెసాలిం గ్రామకాపురముడు ఇర్లపాటి
పుల్లయ్య కుమారుడు ఇర్లపాటి గంగాధరరావు అను నేను మిక్కిలి విదేయతో నమస్కరించి
దాఖలు చేసుకొను విన్నపములు.

అయ్యా,

నేను శాస్త్ర పరిశోధనలు చేసి దేశానికి సేవలు చేయాలనే ఆశయమును కలిగిన
శాస్త్రపరిశోధకుడను. ఇంటి వద్దనే చిన్న పరిశోధనాలయమును వెట్టుకొని ప్రియోగాలు చేసు
కొంటున్నాను. సూషి అపిర్వావము, నిర్మాణము, ధర్మాలు, పరిణామము మానవసూషి మతము-
దైవము మొదలగు విషయాలను విశదీకరిస్తూ, వాదాలను ప్రతిపాదించాను & ఇదేకాకుండా
ప్రజలను తుఫానులు, కరవుకాటకాలు, నరదలవంటి ప్రకృతివైపరీత్యాలనుండి కాపాడటానికిగాను
కొన్ని స్కాలలను వడ్డుతులను డియోనోపు వంటి పరికరాలను రూపొందిస్తున్నాను. ఇంకా
అనేక శాస్త్రీయ ప్రచురణలు ప్రచారము ద్వారా సేవచేస్తున్నాను. అయితే మాగ్రామ కరణంగారు,
మునసబుగారు, ఆత్రేయపురం రెవినూ ఇన్స్పెక్టరుగారు, కొత్తవేట తహశీల్దారు గారు ఇతరులు
ముఖ్యముకాకానీ నా సిద్ధాంతాలను విమర్శిస్తూ, వాగాధము చేస్తున్నారు. నా పరిశోధనలకు
ఆడంకులు కలిగిస్తున్నారు. నాకు కులధుష్పత్రమున్న సంతకము వెట్టుకుండా బాదిస్తున్నారు.
దయతో ఈ విషయమే విచారించి నాకు రక్షణ కల్పించమని న్యాయము చేయుమని వేడుకొనుచున్నాను.

ఇట్లు, తమ విశ్వాసనీయుడు,
9. Gangadhara Reddy
6-7-77
: ఇర్లపాటి గంగాధరరావు

మెర్సెసాలిం,
తే. 6-7-1977

27-

Received a tipped report Taluk Magistrate Kotta Peta with the following:-
 Ref. A-2-5973/77 dt 21-7-77 Taluk office Kotta Peta

From: Sri P. Subbarao, C. Com. Taluk Magistrate
 To: The Station House Officer
 Ravulapalem.

Sir,
 Subj: Signature - Forgery Signature - Sri G. J. Gangadhara Rao of Merlapalem V. Report of the Revenue Inspector, Atreyapuram.
 Ref: Report of the Sririka Revenue Inspector, Atreyapuram dt 21-7-77.

The Rev. Inspector Atreyapuram enquired and reported that Smt. Relangi Rattamma wife of Muralaiah of Merlapalem Village applied for grant of a tree (Terminalia) situated on the north-west portion of her house for which house - si - Patta was granted. On the above petition the signatures of Village Munsiff, Merlapalem and the Rev. Inspector Atreyapuram were forged.

The Rev. Inspector, Atreyapuram further reported that Smt. Relangi Rattamma in her statement deposed that the second son of Sri G. J. Gangadhara Rao of Merlapalem Village, the offender in the instant case may be dealt with according to law. Please intimate the action taken in the matter.

In the above case the offender is Sri G. J. Gangadhara Rao of Merlapalem Village, the offender in the instant case may be dealt with according to law. Please intimate the action taken in the matter.

1. The following records are enclosed here with duty officers and enclosed.
2. Slip containing forged signature.
3. Statement recorded from Sri G. J. Gangadhara Rao of Merlapalem Village.
4. Statement of Smt. Relangi Rattamma wife of Muralaiah of Merlapalem Village.
5. Report of the Rev. Inspector, Atreyapuram dated 21-7-77.

The offender is produced before you through the Rev. Inspector Atreyapuram for taking in to custody.

Enclo: - As stated above.
 (sd) P. Ramasubbingi
 Head clerk.

yours faithfully,
 (sd) P. Subbarao
 Taluk - Magistrate
 Kotta Peta.

IN THE COURT OF THE JUDICIAL MAGISTRATE OF THE I CLASS KOTHAPETA.
 PRESENT: SRI D. VENKATAMARAYANA, B.COM., LL.B., Judicial Magistrate
 of the I Class.

TUESDAY, the 27th day of November, 1979.

C.C.No. 13/79.

Between:

The State of Andhra Pradesh, through

The State Inspector of Police, Razole
 Cr.No. 63/79 of Ravulapalem P.S. .. Complainant.

and

Irlapati Gangadhara Rao,
 s/o Pullayya, Aged 19 yrs.
 Merlapalem. .. Accused.

This case coming on 20.11.79 for hearing before me in the presence of the State-Complainant and the accused appearing in person and having stood over for consideration till this day, the court delivered the following:-

JUDGMENT

The Inspector of Police, Razole has laid the charge sheet in Cr.No. 63/79 of Ravulapalem Police Station Under Sections 420, and 471 IPC against the accused herein.

2. The case of the prosecution is that P.W.1 is resident of Merlapalem village and she is living in a house constructed in R.S.No. 129 in Merlapalem village which was given to her by the Revenue department. There is a tamarind tree in the said house site near her house. The branches of the said tree were over-hanging on her house endangering safety to her house. She was advised to apply for patta of the said tamarind tree. The accused who had come to know about it approached P.W.1 two weeks prior to 21.7.77 and offered his services to get the tree or patta for her and he induced her to affix her thumb impression on the application written by him and wanted her to get the recommendations of the Village Munsif and Revenue Inspector, Atreyapuram. When she expressed her inability to secure their signatures he resorted to forging of the signatures of Village Munsif, Merlapalem and Revenue Inspector (P.W.4). Completing the application and the recommendations he presented the application in the Taluk Office,

is that he was beaten by P.W.4 and others and he was forced to put his signature on Ex.P3 and also Ex.P2. Further, the plea of the accused is that there was altercation between him and P.W.4 with regard to the existence of God and also with regard to obtaining of signature of P.W.4 on the caste certificate. Except, the confession statement of the accused Ex.P3 before P.Ws. 2 to 4, there is no direct evidence to connect the accused with the offences charged against him. P.W.4 is an illiterate. She does not know on which paper the accused obtained her thumb impression. Even for a moment sake, it is presumed that it is the accused who obtained the signature of P.W.1, on Ex.P1, Ex.P1 itself is completely in torn condition and the Tehsildar, Kothapeta who is competent authority to grant patta of the tamarind tree, would not have acted upon the petition Ex.P1. Moreover, the prosecution failed to explain the reason why the accused forged the signature of P.W.4 and the Village Munsif, Merlapalem on Ex.P1 and by forging the signature what is the wrongful gain the accused wanted to obtain. There is no evidence to show that it is the accused who filed Ex.P1 petition and other enclosures in the Tehsil Office, Kothapeta. Further, there is a typed petition filed in this case which contains the recommendation of the Village Munsif and the recommendation of Revenue Inspector-P.W.4. It is not marked by prosecution. To support a conviction U/s. 467 IPC, there must be evidence that the document is a false document, within the meaning of section 464 IPC and that it was forged by the accused with some intent mentioned in sec. 463 IPC. It is not sufficient that some possible intent may be inferred from the facts, it is necessary such intent should be established by evidence, which is lacking in this case. Under Sec. 420 IPC, there must be evidence that the person deceived delivered to someone, or consented that some person shall retain certain property, that the person deceived was induced by the accused to do as above, that such person acted upon such inducement in consequence of his having been deceived by the accused, that the accused acted fraudulently.

and that subsequently when he approached P.W.4 to sign on the caste certificate, he demanded Rs. 10/- from him and that subsequently he reported the matter to the Revenue divisional officer, Amalapuram about the demanding of illegal gratification of P.W.4. ←
 The R.D.O. Amalapuram has promised to enquire into the matter. ←
 Therefore, this case is falsely foisted against him. when he was ←
 coming from Ravulapalem the village servant took him before P.W.4. ←
 Thereafter he was ~~kept~~ taken to village chavidi where P.Ws. 1 to 4 were present and they beat him and obtained his signature on Ex.P3 and subsequently he was taken to the Tahsildar, Kothapeta from there he was sent to Police Station, Ravulapalem and that he is innocent and he did not commit any offence.

6. The point for consideration is whether the prosecution has been able to establish its case against the accused, beyond all reasonable doubt? ←

7. The case of the prosecution is that the accused forged the signature of P.S.4 the revenue inspector and village Munsif, Merlapalem (who is no more alive). Ex.P1 is the petition which contains the alleged forged signatures of village Munsif, Merlapalem and Revenue Inspector (P.W.4). Ex.P1 is in torn condition. The alleged signature of village Munsif, Merlapalem is completely torn and the signature of P.W.4 is also torn completely except some portion. It also contains the thumb impression alleged to have been affixed by P.W.1. The prosecution to establish that it is the accused who is responsible for the alleged forgery of signatures of P.W.4 and village Munsif, Merlapalem relied on Ex.P1 petition and Ex.P2 the slip which is also alleged to have been signed by the accused in the presence of P.Ws. 2 to 4. There is no direct evidence available, in this case, who witnessed the forging of the signatures of P.W.4 and village Munsif, Merlapalem. Even the alleged signatures are in torn condition. Regarding the statement of the accused recorded by P.W.4 in the presence

dishonestly when so inducing that person, that the accused so induced that person intentionally, that such act of the accused was likely to cause damage or harm to that person in property. There must also evidence of fraudulent or dishonest intention at the time of the omission of the act in respect of which the cheating is alleged. Since the main part of the alleged signatures of P.W.4 and Village Munsif, Merlapalem (who is no more) are completely torn and Ex.P1 is in such a condition that the Tahsildar, Kothapeta would not have been acted upon it in granting patta of the tamarind tree to the petitioner i.e., P.W.1. Therefore the question of commission of offences of cheating and thereby dishonestly inducing delivery of property, forgery of a valuable security or authority to make transfer any valuable security and using a genuine a forged document which is known to be forged are not proved against the accused, beyond all reasonable doubt.

In the result, the accused is given the benefit of doubt. The accused is found not guilty of the offences punishable Under sections 420, 467 and 471 IPC. and he is acquitted Under sec. 248(1) Cr.P.C.

Dictated to the Shorthand-writer, transcribed by him, Corrected by me and pronounced in Open Court on this the 27th day of November, 1979 in the presence of the accused.

Sd.D.Venkata Narayana, 27.11.79

9th December, 1988.

Dear Shri Rao,

I have your letter dated 15th November, 1988,
enclosing a petition from Shri Gangadhara Rao
Irlapati.

2. I will try to help.

Yours sincerely,

(K.R. NARAYANAN)

Shri A.J.V.B. Maheswara Rao,
Member of Parliament (LS),
43, North Avenue,
New Delhi.

Hyderabad,
Date: 03-06-1989

To

The Director General,
Council of Scientific and Industrial Research,
Rafi Marg, New Delhi-I.

Sir,

Sub: Invention of Geoscope - Requested for further
research and development at the National Geophysical
Research Instituted - Reg.

- Ref: 1) Letter dated: 03-12-1987 of A.J.V.B.M. Rao,
Member of Parliament (IS), Amalapuram.
- 2) Letter No.401/VIP/MOS/88 Dated: 8th December, 1988
of Sri K.R.Narayanan, Minister of State Science
& Technology, New Delhi.

I am a poor scientist with an ideal to serve the Country
through Scientific research. I have invented and built a
small Geoscope at my house which can help to study the
underground.

Geoscope is a simple and wonderful invention. A borehole
having suitable width and depth has to be ~~dig~~ dug. An
Observatory having research and analysis facilities has to be
constructed on the borehole various ~~apparatus~~
sensing apparatus to recognize the geophysical and geochemical
changes generated in the underground should be inserted into
the underground through the borehole and linked with the
concerned analysis departments of the observatory that is
above the ground to study the changes taking place in the
underground.

Kindly provide research facilities to carryout further
researches on the Geoscope project at N.G.R.I. Hyderabad.

Gangadhara Rao Irlapati
C/o. R. Mohana Rao,

G. Gangadhara Rao

In the High Court of Madras at Madras District of Hyderabad,
Special Original Jurisdiction

Wednesday the Sixth day of September
One thousand nine hundred and eighty nine

Present

The Hon'ble Mr. Justice Lakshmana Rao

Writ Petition No. 12355 of 1989

Between:

Irigeeti Gangedhara Rao.

..

Petitioner

And

1. Union of India, rep. by its Secretary,
Ministry of Science & Technology, Anusandhana
Bhavan, Rafi Marg, New Delhi-1.
2. Council of Scientific & Industrial Research,
rep. by its Director General, Rafi Marg, New Delhi-1.
3. National Geophysical Research Institute rep.
by its Director, Saranaka, Hyderabad. .. Respondents.

Petition under Art. 226 of the Constitution of India praying
that in the circumstances stated in the affidavit filed herein the
High Court will be pleased to issue an appropriate writ or order or
direction declaring

- i) that the inaction of the respondent authorities is not
considering petitioner's representations for carrying out
research and scientific investigations as arbitrary,
unreasonable and illegal;
- ii) a direction may be issued to the respondents 2 & 3
to consider the petitioner's representations so as to
enable him to carry out scientific investigations in
respondent 3 Institute, or any such other appro-
priate direction may be passed;
- iii) Costs be awarded to the petitioner;

For the Petitioner : Mr. K. Hanumanth Rao, Advocate

For the respondents : Mr. S. Venkateswara Rao, S.C. for Central Govt.

The Court made the following ORDER

Heard the learned counsel for the petitioner as well as the
learned standing counsel for the Central Govt. appearing on behalf
of the respondents.

The relief sought for in this writ petition is a direction
to the respondents to consider the respondent representations
submitted by the petitioner to provide facilities to enable him
to carry out scientific investigations in National Geophysical
Research Institute, Hyderabad and pass appropriate orders thereon.

Having regard to the facts and circumstances of the case, it
is directed that the respondents shall consider the representation
dated 7-6-89 submitted by the petitioner and pass appropriate orders
thereon as early as possible preferably within three months from the
date of receipt of a copy of this order.

The writ petition is accordingly disposed of. No costs.

CERTIFYING DECISION P.R.NO.07
ON THE 13th DAY OF DECEMBER, 1988.
PARTICULARS OF GANGADHARA RAO IRLAPATI

This is to certify that the particulars of Gangadhara Rao Irlapati which are given below:-

FAMILY PARTICULARS

Name: Gangadhara Rao
Sir name: Irlapati
Father's Name: Pullayya
Place of Birth: Merlapalem
Date of Birth: 25th, May, 1958

NATIVITY PARTICULARS

Nativity of Village: Merlapalem
Mandal: Atreyapuram
District: East Godavari
State: Andhra Pradesh

COMMUNITY PARTICULARS

Caste: Scheduled Caste
Sub-Caste: Mala
Religion: Hindu
Nationality: Indian
Social Position: Poor
Social conduct: Good Patriot

ACADEMICAL PARTICULARS

Scientific qualification: None, Natural Genius
General Education
Elementary School study: 1 to 5 classes
Upper Primary School study: 6 to 7 classes
High School Study: 8 to 10 classes
Pre-University course: Intermediate
Graduation: B.A. (Arts)
Post-Graduation:
Technical: F.T. (Trypan)

RESEARCH EXPERIENCE PARTICULARS

Year of starting of researches: 1963
Year of continuing of researches: 1988
Name of the research: Theory of Univalence (1977)
Place of the research: Irlapati, Merlapalem
Results of research: Univalence, etc.
Total Period of his services: He has sacrificed his life to the country for 25 years

PRESENT SITUATION PARTICULARS

Occupation: Un-employed
Wealth: Poverty
Health: Illness

The above particulars are true and correct as per the enquiry, verification and written witness of senior adults of the village.

Dear Jralapati,

Received your recent letter
(dated nil) addressed to me and to my
research student and also your
proposed hypothesis regarding the
external universe. I have noted with
pleasure that you have also invented
some devices for predicting natural events
like cyclones, earthquakes etc. Your
efforts are praise-worthy. After all we have
to do something for the benefit of
mankind.

As regards your hypothesis
many things should be elaborated.
Recent developments in astrophysics
etc. should be taken into consideration.
It is true that even persons like
Marlikar has some reservation about
the big bang theory. Even some
nobel laureate like Townes are talking
about what happened before big bang
etc. So you can also appreciate that
we have also limitations. Please
continue with your effort.

ప్రపంచ అగ్రశ్రేణి దళిత శాస్త్రవేత్త ఇర్లపాటి గంగాధరరావు

భారతదేశంలో శాస్త్రవేత్తల ప్రతిభను నిర్ణయించేవి దబ్బు, కులం, రాజకీయం, ప్రభుత్వ సపోర్టు. వీలన్నిటికీ తోడు సత్తకలు ప్రచార సాధనాలు కూడా అగ్రవర్గాలు ధనిక వర్గాల గుప్పెట్లో ఉంచడం లంకాపై వర్గాలకు చెందిన శాస్త్రవేత్త ఏ చిన్న విషయం కనిపెడితే దానిని అతన్ని ఆకాశానికి కెత్తేస్తారు. మహా శాస్త్రవేత్తగా పొగడ్డలతో ముంచేస్తారు. అవార్డులు రివార్డులతో సత్కారాలు చేస్తారు. అధికారిక పదవుల అందలాలపై కూర్చోబెట్టి సకల సౌకర్యాలు కల్పించి గౌరవిస్తారు. కాని దళితుడు వందలాది వైజ్ఞానిక విషయాలను కని పెట్టి అపారమైన ప్రతిభాపాటవాలను ప్రదర్శించినానే గుర్తింపుకు ప్రోత్సహించికి వోచుకోలేక కనుమరుగైపోతారు.

ఇర్లపాటి గంగాధరరావు 1958 మే 25వ తేదీన తూర్పుగోదావరి జిల్లాలోని మొర్రపాలెం గ్రామంలో ఒక నిరుపేద దళిత కుటుంబంలో జన్మించాడు. పుట్టుకతోనే సకల శాస్త్రాల సంత రించుకోన్న ఈ సహజ మేధావి తన 5వ ఏట నుండి ఇంటి పద్ద దిన్నెదిన్నె పరికరాలతో లేదా రేటర్ స్టాపించుకొని పరిశోధనలు చేస్తూ వేయికి పైగా వైజ్ఞానిక వికేపాలను కనిపెట్టాడు. అపారమైన ప్రతిభాపాటవాలను, అసమానమైన కృషిని ప్రదర్శించాడు. ప్రభుత్వాలు, విశ్వవిద్యాలయాలు, పత్రికలు, పరిశోధనాసంస్థలు, ప్రజా సమాచారాలు, ప్రముఖులు ఇతనిని ఎంతగానో ప్రశంసించారు. మహా శాస్త్రవేత్తగాను, జ్ఞాని, విజ్ఞాని, కవి, సకల విద్యాసాధుడు, రచయిత, గాయకుడు; బ్రాహ్మీదత్త పరప్రసాదుడు, జగద్విశ్వాక మహామేధావి, పుంభావ సరస్వతి, తెనుగు కవితా విలాసుడు; తన అణు లౌకిక రసాయన భౌతిక బ్రహ్మాండవి వానాదిధ సర్వశాస్త్రాలను పుట్టుకతోనే సంతరించుకొన్న మహా పౌండిత్య ప్రతిభాసంపన్నుడు; అందజోటి బ్రహ్మాండాలను తన మహోజ్ఞాన నేత్రముతో దివ్యదృష్టితో తోర్చించి విశ్వసృష్టి సిద్ధాంతమును ప్రకటించి సృష్టి రహస్యాన్ని బ్రాహ్మణులొట్టిన చంద ప్రచంద మార్తాండ మేధాశీజాండు, రాష్ట్రం, దేశం గర్వించదగ్గ శాస్త్రవేత్త; తుఫానులు, భూకంపాలు, కరవు, కాలకాలు, అతిస్పృష్టి, అవాస్థస్థి, పెనుగాలుల వర్షాలు, వీడుగులు, ఉరుములు, మెరుపులు, వదగండ్ల వానలు, చలిగాలులు, వడగాల్పాలు వంటి ప్రకృతి వైపరీత్యాలపై వేయికిపైగా అధ్యయనాలను చేసిన ప్రకృతివైపరీత్యాల నిపుణుడు; ప్రకృతి వైపరీత్యాల సంక్షోభ వివారణలో రోస్సు గ్రామ్యయేషన్ విద్యను, పర్యావరణ శాస్త్రంలో రోస్సు గ్రామ్యయేషన్ డిప్లోమాను, సైకాలజీలో రోస్సు గ్రామ్యయేషన్ డిప్లోమాను

అధికారిక శాస్త్రాలలో గ్రామ్యయేషన్ డిగ్రీని, సాంకేతిక కంప్యూటర్ శాస్త్రాలలో సర్టిఫికేట్లు ప్రోగ్రామ్ విద్య నభ్యసించిన విద్యాసంతుడు; ఆంధ్రప్రదేశ్లోని ప్రకృతి వైపరీత్యాలపైనే ప్రత్యేక అధ్యయనాన్ని చేసి మన రాష్ట్రం పట్ల దేశభక్తిని చాటిన పౌరుడు; దేశంలోని సంబంధించే ప్రకృతి వైపరీత్యాలను వేయి కళ్ళతో (వేయి శాస్త్రీయ పద్ధతుల్లో) పసిగట్టి తక్షి సామర్థ్యాలు కల వ్యక్తిగా ఇతని ప్రతిభాపాటవాలను ప్రశంసించాయి.

కాని ప్రపంచం - విజ్ఞాన శాస్త్ర రంగంలో ఇతని విష్వవాత్మక కృషికున్న ప్రాధాన్యతను గుర్తించ లేదు. ప్రభుత్వం ఇతని పరిశోధనలకు ప్రోత్సాహం ఇవ్వలేదు. సమాజ పరమైన మద్దతు లేదు. పత్రికలు ప్రసార సాధనాలు ఇతనికి ప్రచారం ఇవ్వలేదు. వైజ్ఞానిక వాస్తవాల అవిష్కరణలో ఎన్నో జబ్బులకు, విమర్శలకు, హింసలకు గురయ్యాడు. దళితుడైన కారణంగా కులవివక్షతకు, నిర్లక్ష్యానికి, జాత్యంపాకారానికి గురై రీకటిలోనికి వెళ్లి వేయింది కోపర్నికన్, గెలిలియో, బ్రూనో వంటి శాస్త్రవేత్తల కోవలోనికి చేరిపోయాడు.

వల-శోధనలు

ఈ శాస్త్రవేత్త 1963-77 సంవత్సరాల మధ్య విశ్వాంతరాళానికి సంబంధించిన ఎన్నో విషయాలను కనిపెట్టాడు. 1964లో ఘా-విశ్వసమానా సిద్ధాంతాన్ని, 1965లో అణు-విశ్వసమానా సిద్ధాంతాన్ని కనుగొన్నాడు.

1967లో అంతరిక్ష నిర్మాణ వియమాలను, 1968లో అంతరిక్ష గతి నియమాలను, 1969లో సూర్య నిర్మాణ సమానాను, 1971లో చంద్ర నిర్మాణ సమానాను, 1972లో భూనిర్మాణ సమానా సిద్ధాంతాన్ని, 1973లో విశ్వప్రవృత్తికి వాదాన్ని కనుగొన్నాడు. 1974లో విశ్వాంతరాళ ఆరోహణ అవరోహణ లోకాల సిద్ధాంతాన్ని, 1975లో విశ్వసృష్టి రహస్యవాదాన్ని, 1976లో వైపక్య భావవాదాన్ని కనుగొన్నాడు. 1977లో ఇతడు కనిపెట్టిన విశ్వసృష్టి సిద్ధాంతాన్ని మిత్రులు "ఇర్లపాటి థియరీ ఆఫ్ యూనివర్స్" అనే పేర పుస్తకం రూపంలో ముద్రించారు. విశ్వాంతరాళానికి సంబంధించిన ఎన్నో రహస్యాలను అవి వెల్లడి చేస్తున్నాయి. ఒకటి ప్రతిభాపాటవాలకు పూర్వోత్కృతి ఊహ తక్షికి పరాకాష్ఠ భూకంపాలను హెచ్చరించే జియోసోఫ్టు రూపకల్పన. జియోసోఫ్టు అవిష్కరణ మూలకర్తగా రూపకల్పిగా ఇతనికి తగిన గుర్తింపు రాలేదు. ఈ ఒక్క అవిష్కరణను అట్టి ఇతనికి దేశం తగిన గుర్తింపును ఇవ్వవలసింది. 1982లో జియోసోఫ్టును, (మిగిలినది 28వ పేజీలో)

ప్రతిభ

5,500 సంవత్సరాల అంబేద్కర్ క్యాలెండర్

మధ్యప్రదేశ్ కు చెందిన అంబేద్కర్ విరాచిమాని ఒకరు ఏకంగా 5,500 సంవత్సరాల క్యాలెండర్ ను రూపొందించి సంచలనం సృష్టించారు. బ్రిటన్ లో కలార్ అనే డిజైన్ ఉపాధ్యాయుడు రెండు సంవత్సరాల నిర్విరామంగా క్రమించి ఈ అద్భుత కార్యాన్ని సాధించారు. అన్నింటి సంవత్సరాల క్యాలెండర్ ను తయారు చేయడం విశేషం కాదు కానీ ఈ క్యాలెండర్ మొత్తం ఒకే ఒక్క పేజీలో ఉండటమే అసలు విశేషం. ఇంటి దునం ఒక సంవత్సరం క్యాలెండర్ కి పన్నెండు పేజీలు కేటాయిస్తే ఈ ఘనపోతి 5,500 సంవత్సరాలకు ఒకే ఒక్క పేజీని వినియోగించాడన్నమాట. ఆది అంబేద్కర్ అభిమాని సాధించిన రికార్డు. క్యాలెండర్ ను ఏవిధంగా చూడాలి? ఆ పేజీలోనే స్పష్టంగా వివరించటం కూడా అరిగింది. క్యాలెండర్ కు ఒకవైపు అంబేద్కర్ ఫోటో, మరొకవైపు బుద్ధుని ఫోటో ముద్రించబడ్డాయి. ఈ క్యాలెండర్ కు కలార్ పెట్టిన పేరు 'అంబేద్కర్ మిలీనియం క్యాలెండర్' హ్యూటన్ టు బ్రిటన్ లో కలార్.

దళిత శాస్త్రవేత్త ఇర్లపాటి గంగాధరరావు

(24వ పేజీ తరువాయి) 1983లో కరవనం హెచ్చరించే పద్ధతులను, 1984లో బ్రాహ్మణ హెచ్చరించే పద్ధతులు మొదలగు అవిష్కరణలను కనిపెట్టారు. భూకంపాలను హెచ్చరించే జియోస్ట్రోఫు ప్రతిపాదనను 1987లో పొడమెంటు సభ్యులు శ్రీ ఎ.జె.వి.వి.ఎం. రావుగారు కేంద్ర శాస్త్ర సాంకేతిక మంత్రి గారి సమర్పించారు. కేంద్ర మంత్రులు (రాష్ట్రపతులు) శ్రీ కె.ఆర్. నారాయణన్ గారు ఈ జియోస్ట్రోఫును అభివృద్ధి చేయాలిందిగా కోరారు. ఇంతేగాకుండా 1989లో అంధ్రప్రదేశ్ హైకోర్టు వారు కూడా జియోస్ట్రోఫును ప్రోత్సహించవలసిందిగా ప్రభుత్వ విభాగాలను కోరటం అరిగింది.

1988-93 సంవత్సరాల మధ్య సమాజం - సైన్స్ - సంప్రదాయాల మధ్య మంచి అవగాహనా పరమైన సంబంధాల అభివృద్ధి కృషి చేశారు. పయోజన విద్య, సైన్సు ప్రాచుర్యాలపై కృషి సల్పారు. అంద విశ్వాసాలను పోగొట్టి హేతుబద్ధమైన సమాజ జీవనశైలి నిర్మాణాలపై కృషి చేశారు. అయో ఫోర్ క్యాస్ ఫలితం (1990), మేజిక్ పెన్సి (1991), మేజిక్ రింగ్ (1991), చరిత్రలు (1992) వదగాల్పాలు (1992) మొదలగు ఎన్నో విషయాలను కనిపెట్టారు. 1991 అంధ్రప్రదేశ్ శాస్త్ర సాంకేతిక మండలిలో భూ అయస్కాంత శైతం - వాతావరణం - ప్రకృతి వైపరీత్యాల మధ్య సంబంధాలపై అధ్యయనం చేశారు. తుఫానులు, వర్షాలు, చరిత్రలు, వదగాల్పాలు, మొదలగు వాతావరణ మార్పులను హెచ్చరించే ఇకని పద్ధతులను ప్రోత్సహించవలసిందిగా జి.ఎం.సి. బాలయోగి వంటి ప్రముఖులు ఎన్నో నివేదికలను భారత వాతావరణ శాఖకు పంపటం అరిగింది. ఇతను కనిపెట్టిన అనేక పరికరాలు, నిర్మాణాలు 1991-2003 సంవత్సరాలలో అన్వేషణ అంబేద్కర్ సైన్సు ప్రమావన్. అంధ్రప్రదేశ్ వంటి ఎన్నో పత్రికలలో ప్రచురితం అయ్యాయి. అంతే గాకుండా 1993-94 సంవత్సరాల మధ్య తుఫానులు వర్షాలు వంటి వాతావరణ మార్పులను హెచ్చరించే వెదర్ జెనిటిక్ సైకిల్ (1993) వెదర్ లూనార్ సైకిల్ (1993) వదగంధ వానలు, పెనుగాలులను హెచ్చరించే ఎన్నో పద్ధతులు కనిపెట్టారు. ఈ సైన్సానిక పరిశోధనలపై కేవలం సెక్రటరీయేట్ కు కేంద్ర శాస్త్ర సాంకేతిక విభాగానికి ఒక నివేదిక 1994లో పంపటం అరిగింది.

1995-96లో భారత వాతావరణ శాఖకు, లోకసభ సెక్రటరీ యేట్ ద్వారా దేశంలోని ప్రముఖులందరికీ జాతీయ వాతావరణ హెచ్చరిక విధానమును, సమర్పించడమైనది. 1995లో అంధ్ర విశ్వ విద్యాలయం వాతావరణ విభాగము వారి సహకారముతో వాతావరణ క్యాలెండరును రూపకల్పన చేయటానికి కృషి చేయడం అరిగింది. 2001-2002 సంవత్సరాలలో క్లిమాట్ వరల్డ్, న్యూ స్కూలర్స్ ట్రైబ్యూ వంటి ఎన్నో పత్రికలలో ఎన్నో వైజ్ఞానిక అభివృద్ధులు ప్రచురితం అయ్యాయి.

ఈ శాస్త్రవేత్త కనుగొన్న ఎన్నో వైజ్ఞానిక విశేషాలను సంక్షిప్తంగా వచ్చే సంచికలో దళిత ప్రపంచానికి తెలియచేయడం ఆదుగుతుంది.

GOVERNMENT OF ANDHRA PRADESH
PLANNING (XI) DEPARTMENT

Letter No.2851/Ptg.XI/A2/2004-4.

Dated: 15-10-2004.

From
Sri A.K.Goel, I.A.S.,
Principal Secretary to Government,
Planning Department,
A.P.Secretariat,
Hyderabad.

To
The Secretary,
A.P.Public Service Commission,
Hyderabad.

Sir,

Sub:- Estt - Request of Sri I.Gangadhara Rao, Senior Assistant, O/o.the A.P.Public Service Commission, to consider him for appointment by transfer to the post of Statistical Officer under the control of Director of Economics & Statistics - Regarding.

Ref:- 1.Repn.from Sri I.Gangadhara Rao, Sr.Asst., O/o.the A.P.P.S.C., Hyd., dt.5.2.2004.
2.From the D.E.&S., Hyd., Lr.No.5455/Admn.I/A2/04, dt.2.8.2004.
* * *

I am to inform that in the representation first cited Sri I. Gangadhara Rao, Senior Assistant, O/o the A.P.Public Service Commission, Hyderabad, has requested to appoint him by transfer to the post of Statistical Officer under the control of Director of Economics and Statistics.

2. The matter has been examined in consultation with Director of Economics and Statistics who has stated that there are no rules for recruitment of candidates by transfer from other departments to the post of Statistical Officer. I am further to inform that orders were issued in G.O. Ms. No.68, Finance & Planning (Ptg. Wing- Estt) Department, dated 30-12-1991 framing special rules for the posts covered under A.P.Economic & Statistical Service. The post of Statistical Officer comes under category-5 of the said rules. According to Rule.3 of the said rules the method of appointment to the post of Statistical Officer is appointment by transfer. I am also to inform that an amendment was issued in G.O. Ms. No.145, Finance & Planning (Ptg.XI) Department, dated 28-12-1998, according to which in respect of the appointments to the posts of Statistical Officers, 18 out of 19 substantive vacancies should be filled by transfer from the category of Deputy Statistical Officers of A.P.Economic & Statistical Subordinate Service. The 19th vacancy should be filled up by transfer from the category of Superintendents from Ministerial Service in the subordinate offices under the control of Director of Economics and Statistics. In view of the above, it is clear that there is no provision under the above rules to consider the request of the individual.

3. I am therefore to request you to inform the individual that in view of the rule position set out in para.2 above his request is hereby rejected.

Yours faithfully,

for PRINCIPAL SECRETARY TO GOVT.

Sir,

Sub: Project Proposal "SCALE & GEOSCOPE" for Combating natural calamities – requested for establishment & implementation in the services of the nation – reg.

- Ref 1. Letter No.1162/ADB/2/94 dated 19-5-1994 from the Secretary, APPSC, Hyderabad to the Cabinet Secretary, Government of India, New Delhi.
2. U.O.No. 1281/94-CA-V dated 7-7-1994 of the Director, Cabinet Secretariat, Rastrapati Bhavan, New Delhi.
3. D.O.No.NMRF/SKM/30/94 dated 17-8-1994 of the Joint Secretary, Ministry of Science & Technology, New Delhi.

1. I, Gangadhara Rao Irlapati S/o Pullaiah working as an Asst. Section Officer in APPSC, Hyderabad submitting the Project Proposal for your kind consideration.
2. I am a Scientist with an ideal to serve the country through scientific researches. Myself and my Research associate in a combined effort have formulated a project consisting hundreds & thousands of multiple processes for forecast of all natural calamities like season disorders, monsoon failures, droughts, cyclones, Time & Location investigations of Low pressure systems, Hail rains, Lightnings & thunder storms, Heavy rains & floods, Earth Quakes & Tsunamies, Heat Waves, Cold winds, rainfall positions etc. with the help of the unit.
3. I am submitting the project report for your kind consideration. Kindly accept my offers and implement the project. The Government may appoint any personnel to carryout scientific investigations of the project. However, if my services are required in this regard. I may be appointed for this work by transfer in lien period to carryout the scientific investigations since I desire to work as a scientist and also to serve the nation.

Yours faithfully,

OPINION

Ref. D.No. 80642965

Date: 02.01.2006

IN THE MATTER OF **Sh. Gangadhar Rao Irigatti**

I have perused the case papers of the applicant who is a Scientist and of the considered opinion that the applicant has an alternative remedy to approach the High Court under Article 226 of Constitution of India for seeking appropriate relief and directions as the petition cannot be filed directly under Article 32 of the Constitution of India as there appears no violation of fundamental right of the petitioner.

Sub : Invention of an equipment for fore-warning of earthquakes
Ref : Letter No. Nil dated Nil addressed to Secretary, MoES

Sir,

Kindly refer to the communication cited above on the subject received through the office of Secretary, Ministry of Earth Sciences. In this regard, the following observations/suggestions are made:-

We appreciate your interest in the field of Seismology, particularly relating to geo-chemical changes preceding earthquakes. It may be informed that various high precision seismological and geophysical equipment are already in operation in some seismically active areas of the country to monitor and understand the earthquake precursory phenomena. A lot of data has already been generated and is being processed. For an update on the scientific developments on the subject, you may like to contact National Geophysical Research Institute (NGRI), Uppal Road, Hyderabad – 500 007.

Thanking you,

Yours faithfully,
