Abstract: I have conducted many studies on the origin, nature structure and evolution of the universe during the 1970-77 and proposed a new Hypothetical model of cosmology with hundreds or postulations. In 1977, a book was published in the name of IRLPATISM-IRLAPTATI THEORY OF UNIVERSE on the basis of the postulations of the hypothesis by the supporters. The postulations about the universe, existence of god, theory of evolution etc in the book were exposed to the anger of fanatic people and I got into a violent altercation about these postulations of the hypothesis. As a result I was subjected to the suppressions and persecutions. I reported these suppressions and torments to the revenue divisional officer. Amalapuram on 6-7-1977 the revenue divisional officer was conducted an enquiry about this matter on forenoon, July 21st, 1977 while returning from the enquiry, I was attacked by a mob and they had taken me to the village chavadi. Followed by an altercation with tortures about the theory, they beaten and forced me to put signatures on some false documents, and an offence falsely framed and foisted against me. After that I was sent to the taluk magistrate, kothapeta for another trial with the investigation of the superstitions, the taluk magistrate was declared me as a dangerous boy and up to anything and issued sentence to punish me and handed over to the police station, ravulapalem. The police was arrested me on July 21, 1977 registered a case and sent to remand, I was kept imprisoned some months in sub jail and remaining period interrogated periodically by panatics and officers. The trials were done between April 2, 1979 to November 20, 1979 after trials, the Honble Additional Judicial First Class Magistrate court was found me not guilty and acquitted on November 27, 1979. A New Hypothetical Model of Cosmology was proposed by me in 1977 with hundreds of postulates by considering several facts about the appearing universe, atom, photon, space and universe along with good stuff of all the theories. So, world scientists can study and review this theory with other cosmological theories and theorize the actual universe and cosmology and break the mysteries of the cosmology.

[Gangadhara Rao Irlapati. **Detailed explanation on A New Hypothetical Model of Cosmology.** *N Y Sci J* 2023;16 (12):24-70]. ISSN 1554-0200 (print); ISSN 2375-723X (online). <http://www.sciencepub.net/newyork>. 04. [doi:10.7537/marsnys161223.04](https://doi.org/10.7537/marsnys161223.04).

Key words: Bioforecast(1965-70), A New Hypothetical Model of Cosmology (1970-77), Inquisition(1977-79), Basics of Geoscope (1980-87), Basics of Monsoon Time Scales (1987-91), Indian Monsoon Time Scale(1991), Researches on Earth and space related issues(1991-2000), Numerical Weather Periodic Tables(2000-10), Designs of Geoscope projects (2010-20), Designs of Global Monsoon Time Scales (2020-)

Introduction: According to the Irlapatism-A New Hypothetical Model of Cosmology, the cosmos is made up of universes in infinite number, having similar universal external and internal and structure and properties, embedded one in each other and extended in ascending and descending order. To explain and justify this model, there are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are having similar universal external and internal structure and properties, embedded one in each other and extended in ascending and descending order. Of these three, we known some extent about the internal structure and properties of the Geo-Universe but we do not known its external structure. We know some extent

about the external structure and properties of the Photon-universe but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal & external structure and properties of the Atomic-universe. Hence, I have taken the similarities of external structure & properties between the Geo-universe & Atomic-universe to propose that all the universes in ascending and descending order of the creation are having similar universal internal structure and properties. The similarities of external structure & properties between the Atomic-universe and Photon-universe are taken to propose that all the universe in ascending and descending order of creation are having similar external structure and properties. And the

manner in which of these three universes i.e., embedded one in each other, extended in ascending and descending order to propose that all the universes in ascending and descending order of the creation are embedded one in each other and extended in ascending and descending order. This doesn't mean that these photon, atom, universe etc. are arranged one on another as cycles separately. The cosmos enormous mixed compound of photons, atoms, universes etc. that are extended in ascending and descending order, embedded one in each other in the form of super matter or super fluid or super fluid matter.

Descending order of creation:

The Geo-universe that means the Universe seen around our earth is having magnificent structure and properties such as galaxies, stars and planets and some planets such as earth having continents, countries, oceans, trees, animals, cyclones, human beings etc. Such Geo-universe being built by Universes of its descending order of creation that means atoms.

Atomic-universe that means the atom present in several forms from hydrogen to uranium etc is another gigantic universe, having magnificent structure and properties such as electrons, protons, neutrons, etc., and continents, countries, oceans, cyclones, trees, animals, human beings may be present on some neutrons having suitable conditions exactly similar to the earth planet resembling to the Geo-universe. Such Atomic universe being built by universes of its descending order of creation that means energy particle 'photons'.

The Photon-universe that means the particle "photon" related to energy present in several forms of electromagnetic radiation is also another gigantic universe having magnificent structure and properties resembling to Geo-universe and atom. Such Photon-universe may also being built by universes of its descending order of creation that is not yet known to us.

Thus the descending order of creation continuous infinitely.

Ascending order of creation:

The Photon-universe that means the particle related to energy "photon" having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means

atom. All components in the atom are built by these "photons" in infinite number. Such each and every energy particle "photon" in the Atomic-universe is basis to an infinite descending order of creation.

The Atomic—universe that means the "Atom" having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means in our Geo-universe. All components in the Geo-universe such as stars, planets etc., are built by these atoms in infinite number. Such each and every atom in the Geo-universe is basis to an infinite descending order of creation.

The Geo-Universe that means the "Universe" seen around our earth is a gigantic universe that is known to us, having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that is not yet known to us. All components in that universe are built by these Geo-universes in infinite number. Such each and every Geo-universe in that ascending creation is basis to an infinite descending order of creation.

Thus the ascending order of creation continuous infinite.

2. Similar universal structure & properties:

Of these three, we known some extent about the internal structure and properties of the Geo-universe but we do not know its external structure and properties. We know some extent about the external structure and properties of the Photon-universe but we do not know its internal structure and properties. Between of these three universes, we came to know a large extent about the internal and external, structure and properties of the Atomic-universe. So, I have taken the similarities of internal structure & properties between the Geo-universe & Atomic-universe to propose that all universes in ascending and descending order of the cosmos are having similar universal internal structure and properties. The similarities of external structure & properties between the Atomic-universe and Photon-universe are taken to propose that all the universes in ascending and descending order of cosmos are having similar universal external structure and properties.

r.

Similar External Structure & Properties

According to the model, all the universes in ascending and descending order of the creation are having similar external structure and properties. All the universes in either ascending or descending order of creation have the similar external structure and properties. So, we have imagine the external structure and properties of the atom compare with the external structure and properties of the photon. In the same way, imagine the photon external structure and properties compare with the external structure and properties of the atom. Because, according to my cosmological principle all the universes in the ascending and descending order of creation must have similar external and internal structure and properties. To explain and justify this, I have taken many similarities between the atom and photon. To justify this, I have taken many similarities between the atom and photon.

For example:-

Atomic-Universe	Photon-Universe
1) The atom appearing in several forms such as Hydrogen to uranium etc., being due to the Internal structure having different atomic particles at various numbers	1) The particle "Photon" related to energy appearing in several forms such as radio waves, gamma rays, violet rays etc being may be probably due to the internal structure having different particles at various numbers.
2)The atom exhibiting several physical and chemical Properties such as weight, colour, taste, hardness etc being due to the internal structure having different particles at various number.	2) The particle "photon" related to energy exhibiting properties such as wave length colour, temperature etc being may be Probably due to the internal structure having different particles at various number.

SIMILAR INTERNAL STRUCTURE & PROPERTIES

According to the model, all the universes in ascending and descending order of the creation are having similar internal structure and properties. All the universes in either ascending or descending order of creation have the similar internal structure and properties. So, we have imagine the internal structure and properties of the atom compare with the internal structure and properties of the Geo-universe that's the universe seen around our earth. . In the same way, imagine the internal structure and properties of the Geo-universe, compare with the compare with the internal structure and properties of the atom. Because, according to my cosmological principle all the universes in the ascending and descending order of creation must have the similar external and internal and structure and properties. To explain and justify this, I have taken the many similarities between the atomic-universe and Geo-Universe.

Atomic-Universe	Geo-Universe
1)Various atomic particles at different sizes in several numbers are present in the atom	1) Various astronomical objects at different sizes in several numbers are present in the Geo- Universe
2) These atomic particles having three types of charges at negative, positive and neutral states are present in the atom	2) These astronomical objects having three type of charges at positive, negative and neutral states are present in the Geo-Universe
3) Positively charged protons are present in the nucleus	3) Stars built by atoms having positive charged nucleus are present in centre of the Geo-Universe
4) Neutrons at neutral state are present in the Nucleus.	4) Planets at neutral state are present in Centre of the Geo – Universe
5) Negatively charged electrons are present at large distance of the atomic nucleus in the atom	5) Here is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the Geo-Universe.
6) Additional neutrons called isotopes are present.	6) Additional planets called satellites around the planets are present
7) Radiation emitting from the atom.	7) Cosmic rays emitting from the Geo- Universe.
8) There is a property of nuclear fission is in the atom.	8) There is a property of super Nova is in the Geo -Universe.

Research and analysis:

Universal similarities: According my theory, there are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are having similar structure and properties. Of these three, we have known some extent about the internal structure and properties of the Geo-universe, but we do not know its external structure. We know some extent about the external structure and properties of the Photon-universe, but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal and external structure and properties of the Atomic-universe. Hence, I have taken the similarities of external structure and properties between the Photon-universe and Atomic-universe to propose that all the universes in ascending and descending order of the creation are having similar external structure and properties. The similarities of internal structure and properties between the Atomic-universe and Geo-universe are taken to propose that all the universe in ascending and descending order of cosmos are having similar internal structure and properties.

Uniform comparisons between atom and photon:

The similarities of external structure and properties between the atom and photon are taken to propose that these two are having similar internal structure and properties.

Structure: The Atom appearing in several forms such as hydrogen to uranium etc. being due to the internal structure having different atomic particles at various number. In the same manner the “photon” related to energy appearing in several forms such as radio waves, gamma rays, violet rays etc. being may be probably due to the internal structure having different particles at various numbers.

Properties: The atom exhibiting several physical and chemical properties such as weight, color, taste, hardness etc. being due to the internal structure having different particles at various number. The “photon” related to energy exhibiting properties such as wave length color, temperature etc being may be probably due to the internal structure having different particles at various number.

Various atomic particles at different sizes in several numbers are present in the atom. Various astronomical objects at different sizes in several numbers are present in the Geo-universe.

Uniform comparisons between Atom and Geo-universe: The similarities of internal structure and properties between the atom and Geo-universe are

taken to propose that these two are having similar internal structure and properties.

1. Various atomic particles at different sizes in several numbers are present in the atom. In the similar way various astronomical objects at different sizes in several numbers are present in the Geo-universe.
2. These atomic particles having three types of charges at negative, positive and neutral states are present in the atom. In the similar way, these astronomical objects having three type of charges at positive, negative and neutral states are present in the Geo-universe.
3. Positively charged protons are present in the nucleus. In the similar way, stars built by atoms having positive charged nucleus are present in center of the neutrons at neutral state are present in the nucleus. In the similar way, planets at neutral state are present in center of the Geo-universe.
5. Negatively charged electrons are present at large distance of the atomic nucleus in the atom. In the similar way, there is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the Geo-universe.
6. Additional neutrons called isotopes are present. In the similar way, additional planets called satellites around the planets are present.
7. Radiation emitting from the atom. In the similar way, cosmic rays emitting from the Geo-universe.
8. There is a property of nuclear fission is in the atom. In the similar way, there is a property of super-nova is in the Geo-universe.

Study and discussion:

The Cosmology is one of the most creative and bizarre areas of science, concerned with the studies of origin, structure, nature and evolution of the universe. There are two main theories, steady state theory and the terms Theory, that explain the structure of the universe. For example, The Big Bang Theory has faced many criticisms by many scientists as being inadequate to explain the relativity and complexity of the universe. Therefore, it is not sufficient to correctly model the origins of the universe.

According to Bud Rapanault (quora); ‘The Big Bang Theory is essentially unscientific because the physical model it presents does not resemble the cosmos we observe in any of its particulars. None of the distinguishing features of the Big Bang Theory are part of the cosmological landscape that lies before us.

The Big Bang Theory itself and the *ad hoc* inflationary epoch are unobservable by terms of the model.

Curved and expanding space time cannot be directly detected but are integral to the model.

The Big Bang Theory model requires that 95% of the universe consist of some dark matter and dark energy neither of which can be empirically detected and both of which are simply additional adhoc patches necessary to make the model predictions conform to physical reality.

In addition, the Big Bang Theory rests on two assumptions, one simplistic and naïve, the other dubious

The cosmos is a unified, coherent, and simultaneous entity.

The cosmological redshift is a recessional velocity.

According to George Yool(quora); current evidence like the cosmological principle, hubble ultra deep field and alternatives like quantum relativity suggest a universe has no beginning or end in which big bangs are galactic processes we can observe empirically. There are many esteemed critics such as;

NASA WMAP beyond big bang theory;

Einstein evolving universe.

Hoyle The Bang Theory got its name from a man who thought the theory was total nonsense.

Plus 34 more famous scientists around the world in an open joint letter to the scientific community has been criticized the Big Bang Theory (Big Bang Theory Busted By 33 Top Scientists)Rense.com

Concepts and postulates:

After many researches and studies on the origin, structure, nature and evolution of the cosmos, I proposed that:

The cosmos is made up of similar universes in infinite number that are having similar structure and properties, embedded one in each other and extended in ascending and descending order in the form of a super fluid of spacetime. There are three universes so far known to us (a) Geo-universe that means the universe seen around our earth, (b) Atomic-universe that means the atoms from hydrogen to uranium, (c) Photon-universe that means the particles related to energy. These three are individual universes, having similar external&internal and structure&properties, embedded one in each other and extended in ascending and descending order. Geo-universe, that means the universe seen around our earth is a gigantic universe, having magnificent structure and properties such as galaxies, stars, planets etc. There are continents,

oceans, countries and living beings on some planets in our Geo-universe. Such gigantic geo-universe is a little atom in its ascending world. That means our universe is in that ascending world just as atom is in our universe. We do not know whether our Geo-universe is in the air, water or elsewhere in that ascending world. In my opinion, our Geo-universe is in an intelligent creature in that ascending world. But what is not known to that creature in that ascending world is that there are galaxies, stars, planets and human worlds in their atoms. In their view it is thought that there are tiny particles in their atoms. But they do not know that there are galaxies, stars, planets and human worlds in their atoms just as we think that there are electrons, protons, neutrons in our atom. But we do not realize that there are galaxies, stars, planets and human worlds in the atom. In the same way as we think, they do not know that there are galaxies, stars and planets etc. in the atom of their universe. Such Geo-universe being built by universes of its descending order of creation that means our Geo-universes and the same time being act as a primary syntactic unit in its ascending order of creation that is not yet known to us.

Atomic-universe, that mean the atom present from hydrogen to uranium etc. is a gigantic universe, having similar structure and properties such as galaxies, stars, planets in the form of electrons, protons and neutrons exactly similar to our universe. Just as there are continents, oceans, countries and human beings on some earth-like planets in our Geo-universe; continents, oceans, countries and living beings may be present on some neutrons in the atom. That is the atom is a vast universe as our universe. But we do not recognize them. For the creatures in the atom, in their view the atom is a great universe, but they do not know that another gigantic universe exists above them, and that their atom in which they reside is acts as a tiny atom in our universe just as we do not know that our gigantic universe is a small particle in the universe above us. There may be humans on neutrons who have civilizations like countries, governments, planes, trains, ships, motors just there are humans who have civilizations on our planet. Such atoms being built by universes of its descending order of creation that are photons and the same atom being act as a primary syntactic unit in its ascending order of creation that is our universe.

Photon-universe, that means photon, the particle related to energy existing in several forms of electromagnetic radiation etc. is a gigantic universe, having similar structure and properties exactly similar to our universe that have galaxies, stars, planets and similar to atom that have electrons, protons and

neutrons. Just as there are continents, oceans, countries and human beings on some earth like planets in our Geo-universe; continents, oceans, countries and living beings can be present on some planets in the photons. That is, the photon is a vast universe as our universe and as the atom. But we do not recognize them. For the creatures in the photon, in their view their photon is a great universe, but they do not know that there is another gigantic universe in their ascending cosmos that is atom, and there is another cosmos above the atom that is our Geo-universe. There may be humans in the photon who have civilizations like countries, governments, planes, trains, ships, motors etc. just there are humans who have civilizations on our planet. Such photon is being built by universes of its descending order of creation that are not yet known to us and the same photon is being act as a primary syntactic unit in its ascending order of creation that is atom.

The fill of structure and characteristics in the universe of the cosmos proposed as **cosmic environments**. For example the fill of structure and characteristics like galaxies, stars, planets etc in the Geo-Universe proposed as Geo-Environment, the fill of structure and characteristics like proton, neutrons and electrons etc. in the Atomic-universe proposed as Atomic-environment and the fill of structure and characteristics in the Photon-universe that means the structure in the photon that is not yet known proposed as Photon-environment.

The fill of structure and characteristics like galaxies, stars, planets, comets, meteors, asteroids, space dust including air, cyclones and all other celestial objects that are in the Geo-universe that's the universe seen around our earth is proposed as Geo-environment.

The state of structure and characteristics like protons, neutrons and electrons and all other components that are in the Atomic-universe that's atom is proposed as **Atomic-environment**.

The state of structure and characteristics that are not yet known in the Photon-universe that is the photon is proposed as **Photon-environment**.

The state of structure and characteristics in the space like galaxies, stars, planets etc in the space is proposed as **space-environment**.

The state of galaxies, stars, planets, nebulae, pulsars etc. at a particular region over a long period of time in the space is proposed as **space-climate**.

The state of structure and characteristics like galaxies, stars, planets and their orbits and other physical forces

etc. that surrounds in the universe is proposed as **space-atmosphere**.

The fill of structure and characteristics like galaxies, stars, planets and their orbits and other physical forces etc. that surrounds in the universe is proposed as space-atmosphere, the state of galaxies, stars, planets, nebulae, pulsars etc. at a particular region over a long period of time is proposed as space-climate, the state of characteristics of space-climate like solar wind flares, asteroids etc. at a particular region during a short period of time proposed as space-weather.

The state of space atmosphere being in still proposed as "Inactive Space Region", the state of space atmosphere being in active proposed as "Active Space Region" The region of space atmosphere in which the celestial bodies are more widespread areas proposed as "Space High Pressure Area" the less widespread areas proposed as "Space Low Pressure Area".

The state of space atmosphere being in still is proposed as "Inactive Space Region".

The state of space atmosphere being in active is proposed as "**active space region**"

The region of space atmosphere in which the celestial bodies are more widespread areas is proposed as "**space high pressure area**"

The region of space atmosphere in which the celestial bodies are less widespread area is proposed as "**space low pressure area**".

Some space times happens variation of differences of pressure in the space-climate, At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure. The centre of space low pressure area itself is the black-hole and the circular whirling celestial bodies and other space dust etc. caused by the space low pressure area is proposed as Galaxy.

Some space times happens variation of differences of pressure in the space-climate. At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure area is proposed as "**space-storm**" which is galaxy.

The centre of space low pressure area itself is the **black-hole** and the circular whirling celestial bodies and other space dust etc. caused by the space low

pressure area is proposed as “space-storm” that's galaxy.

Empty spaces that are space voids formed in some places in the space as a result of the movements of celestial objects where space pressure is low relative to its immediate surroundings. It is often an indicator of coming space low pressure area. As a result, a low pressure system in the space atmosphere develops when these celestial objects in the surroundings space high pressure area rushes in to fill the empty space. They will try to occupy that empty space all at once. In this attempt, the whirl around that space low pressure area due to the obstruction of centripetal force acceleration as a space-storm that is galaxy. As the celestial objects rotates, a space-eye form in the center of the space-storm that is galaxy is proposed as Black-hole. After this, the space-low pressure area filled and neutralized with celestial objects, those will be scattered that is proposed as star clusters or interstellar cloud of gas and dust.

The earth is not tilted at a constant angle of 23.5 degrees as expected so far but slightly ups and downs by 23.5 degrees and revolves in oscillating order on sun's fulcrum, which orbits the center of our galaxy tipped at an angle of 60 degrees bobs ups and downs and above and below the galactic plane is the root cause of the climate changes, seasons, monsoonal changes on the earth.

Everyone should know about the origin, structure, nature, evolution of the universe and its various properties. Since, all the hazards on the earth directly or indirectly are associated with the gravitational forces of the universe. Further, this in order to be study the hazards, study of the cosmology is needed to know about hazards. There are hazards on the earth, on other planets and there are also happening within atoms. Human beings are on the earth, are on the outside planets of the earth and also on the neutrons in the atoms. Even if the world's people appreciate or criticize me, it is fact. Hazards caused by asteroids, meteoroids, and comets as they pass near the earth, enter the earth's atmosphere, and/or strike the earth, and by changes in inter planetary ionosphere, and atmosphere. In the face of extra terrestrial hazards and events that can lead to disasters, it is important to live in a resilient community because these types of disasters are so unpredictable and depending on the size of meteorite can cause serious damage through the heat emitted during impacts with earth's surface. In addition, impact can cause earth quakes, tsunamis, wildfires, acid, rains from nitrogen oxides, darkness from dust and soot and global warming. It is for this reason that staying aware and prepared at all times is

extra important. This is not an implication to live in fear, but a reminder to stay educated about these types of disasters and to have a plan in place as with any other type of disaster. Before an extraterrestrial hazards/events occur, there are some steps that can be taken to mitigate and minimize the impact. I have conducted many studies on the universe and its extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth. A New Hypothetical Model of Cosmology will helpful to study and know the universe, extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth.

The year to year change of movement of axis of the earth inclined at 23½ degrees from vertical to its path around the sun does play a significant role on the Earth's atmosphere and stimulates the weather. The inter-tropical convergence zone at the equator follows the movement of the sun and shifts north of the equator merges with the heat low pressure zone created by the rising heat of the sub-continent due to direct and converging rays of the summer sun on the India sub-continent and develops into the monsoon trough and maintain monsoon circulation.

Conclusion:

I would like to have an extensive discussion on my hypothesis. My theory is the basic relating to the cosmology. Many things that visible to researchers relating to beyond the extreme deep intergalactic space and expanding universe etc. are yet to be explained. So scientists can review this New Hypothetical Model of Cosmology and theorize the actual universe and cosmology. .

Acknowledgements:

Many consultations are made with professors and scientists for their suggestions and advices. There was also taken some information from the Wikipedia. I am grateful to all of them.

Author's appeal:

I'm an unfortunate Indian scientist, born on May 25, 1958 in India to a poor depressed community family. The governments did not encourage and provide research opportunities and the society threw away me. They ridiculed, humilisted and beaten me and pushed out to the gate when I asked to provide research opportunities. After many rejections and humiliations, I built a small lab in my house and made more than 1000 researches and studies on the earth and space. Among them, Bioforecast(1965-70), Irlapatism-A New Hypothetical Model of Cosmology (1970-77),

Inquisition(1977-79), Basics of Geoscope (1980-87), Basics of Monsoon Time Scales (1987-91), Indian Monsoon Time Scale(1991), Researches on Earth and space related issues(1991-2000), Numerical Weather Periodic Tables2000-10), Designs of Geoscope projects (2010-20), Designs of Global Monsoon Time Scales (2020 to till date) etc. were important and successfully completed. However, Artificial rains for creating normal rains; Artificial storms for pouring heavy rains; Artificial underground waters for increasing ground waters; Time-Travel-Machine for traveling into the past, present future; Bio-machine for recreating humans of past; Geo-machine for recreating humans of past, New-earth-machine for re-creating the another earth in the space, Inventing life to revive living beings; Microcosm project for connecting the worlds of micro organs, atomic-worlds; Macrocosm project for connecting the worlds of space and outer space worlds etc. were uncompleted due to lack of support and opportunities.

Between 1987-91, many researches were conducted by me on the world local, regional and global monsoon systems and proposed Basics for Monsoon Time Scales to study the past's, present and future movements of monsoon systems and its relationship with rainfall and other weather problem and natural calamities.

Invention history&inquisition: Between 1970-77 years, I conducted researches and studies on the origin, structure, nature and evolution of the cosmos and proposed A New Hypothetical Model of Cosmology with hundreds of postulates by taking several facts that confirm the universe such as similarity among the geo-universe, atom, photon that these three are having similar structure and properties; embedded one in each other and extended in ascending and descending order etc. along with good stuff in all the theories. In 1977, a book was published in the name of Irlapatism-Irlapati Theory of Universe by the supporters. All matters pertaining to the cosmos were widely discussed in this book. Apart from these many proposed ideas to be researches by me were incorporated in this book. The postulates about the creation, existence of god, theory of evolution and my research proposals such as creating artificial rains to rainfall; creating artificial underground waters to increase underground waters; creating artificial storms and making them our control by moving desert planes and pour rains; travelling into the past by using new technologies just like Time-Travel-Machine; restoring and re-creating people in the past by using new biotechnologies just like Bio-Machine; restoring and re-creating people in past by images that are preserved in the earth's magnetic field by new technologies just

like Geo-Machine; traveling inner worlds of the atom and come back into the future through microcosm; traveling outer geo-worlds of the Geo-universe through macrocosm; re-creating similar earth of past of earth in the space which is embedded in the gravitational layers and go back into past time by new technologies that is space earth project etc. were exposed to the anger of fundamentalists and superstitious, subsequently got into violent altercations. As a result, my lab was destroyed and copies of research notes were burned. I reported these repressions to The Revenue Divisional Officer. Amalapuram in July,1977. The Revenue Divisional Officer was conducted an inquiry about this matter. While returning from the inquiry, I was attacked by a mob and they had taken me forcibly to the village Chavadi, Ryali, there fundamentalists and superstitious people were met and where I was beat up. Followed by altercations about my thoughts in the book, they beaten and forced me to put signatures on some prepared documents, and an offence falsely framed and foisted against me. After many tortures, I was sent to the Taluk Magistrate, Kothapeta and persuaded to renounce my views and ideas. The fundamentalists and superstitious people succeeded me in sentencing. The Taluk Magistrate was declared me as a "dangerous boy and up to anything" and issued sentence to punish and handed over to the Police Station, Ravulapalem. I was arrested on July 21, 1977. A case was registered and I was kept remand in Sub-jail and remaining period interrogated periodically. I faced trials, handcuffed and led through streets police enquiries and court trials/hearings, and imprisoned. The trials were done from April 2, 1979 to November 20,1979. After many trials and arguments, the Hon'ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27,1979.

However, much efforts and sacrifice did tho, I could not get government recognition and social support. My researches were ignored and darkened. I am a victim of racism and discrimination, negligence and jealousy. Throughout my life, I have experienced hardships all my life. I was abused, humiliated and beaten when I asked to provide research opportunities. I was pushed out of the gate, when I asked to provide research opportunities. I was insulted by my race. I was tied to a pole and beaten. My thoughts and researches were subjected to the wrath of racists, casteists and fanatics as well as fellow scientists and resulted into oppression on me. My lab was invaded. Illegal cases were framed and foisted against me. I faced trials, handcuffed and led through streets police enquiries and court trials/hearings, and imprisoned. Political recommendations and officials support, cash and

caste, region and religion may play a key role in giving support and opportunities, awards and rewards, respect and recognition to depressed communities. But I have no of them. I am now making my life's last journey due to disregard, despair and serious illness, severe poverty.

Kindly find out my researches in all social networking websites or can obtain by sending your email to me. These findings are very helpful for research institutions, universities researches. And also these findings can be very helpful for Ph.D students, Postdocs, professors, seniors, scientists and science enthusiasts who want to innovate. I will send them the valuable information I have.

For example, those who want to design Monsoon Time Scales for their regional or country' Monsoons and conduct weather predictions have trouble in making the Monsoon Time Scales, kindly contact me at my email id gangadhar19582058@gmail.com and take my suggestions and assistance. I will send you complete details of the Monsoon time scales. Further if you want, I will create a manual Monsoon Time Scale and send the same to you for study and research. However for this, data of list of monsoon pulses in the form of monsoonal low pressure systems, depressions and storms formed over their monsoon region or country last 100 and above years since 1880 as cited in the Reference-1 (i.e Mooley DA, Shukla J(1987); Characteristics of the west ward-moving summer monsoon low pressure systems over the Indian region and their relationship with the monsoon rainfall. centre for ocean-land atmospheric interactions, university of Maryland, college park, MD.). I will make and send it to you. So, researchers send Monsoon data of their region or country, I will make and send Monsoon Time Scales for their region or country. These monsoon time scales are very helpful for research institutions, universities researches and also these can be very helpful for Ph.D students, Postdocs, professors, seniors, scientists and science enthusiasts who want to conducting researches and studies on climate changes there. Because, through these Monsoon Time Scales it is known in advance that what kind of climate changes have occurred in your country in the past 100 years and what kind of climate changes are going to happen in the coming 100 years.

I am now making my life's last journey in ill-health and poverty. Illness weakening the health and mind slows down and forgetfulness is coming. It is not known how long I will live and when I will die, but I know my time is near. Hence, I humbly request that if world scientists have invented any

technology in future that re-create humans of past, kindly remember and re-create me to complete my uncompleted researches working as an attendant in your research laboratory.

Geo:Universe has its own structure and properties exactly similar to the structure and properties resembling Atom and Energy particle. There are stars, planets, galaxies and life on the earth etc. present in the Geo-Universe.

Atom is gigantic Universe having structure and properties exactly similar to the structure and properties resembling our Geo- Universe and Energy particle. Just as there are stars, planets, galaxies and life on the earth etc. present in the Geo- Universe, in the same way exactly similar stars, planets, galaxies and life on neutrons etc. may be present in the form of electrons, protons and neutrons in the atom.

Energy particle has internal structure and having three kinds of basic elements proposed and named as Positive energions (PEONS) Negative energions (NEONS) and Neutral energions (NEUONS). It is also another universe named as Energy-Universe having structure and properties exactly similar to the structure and properties resembling our Geo-Universe and Atomic-Universe.

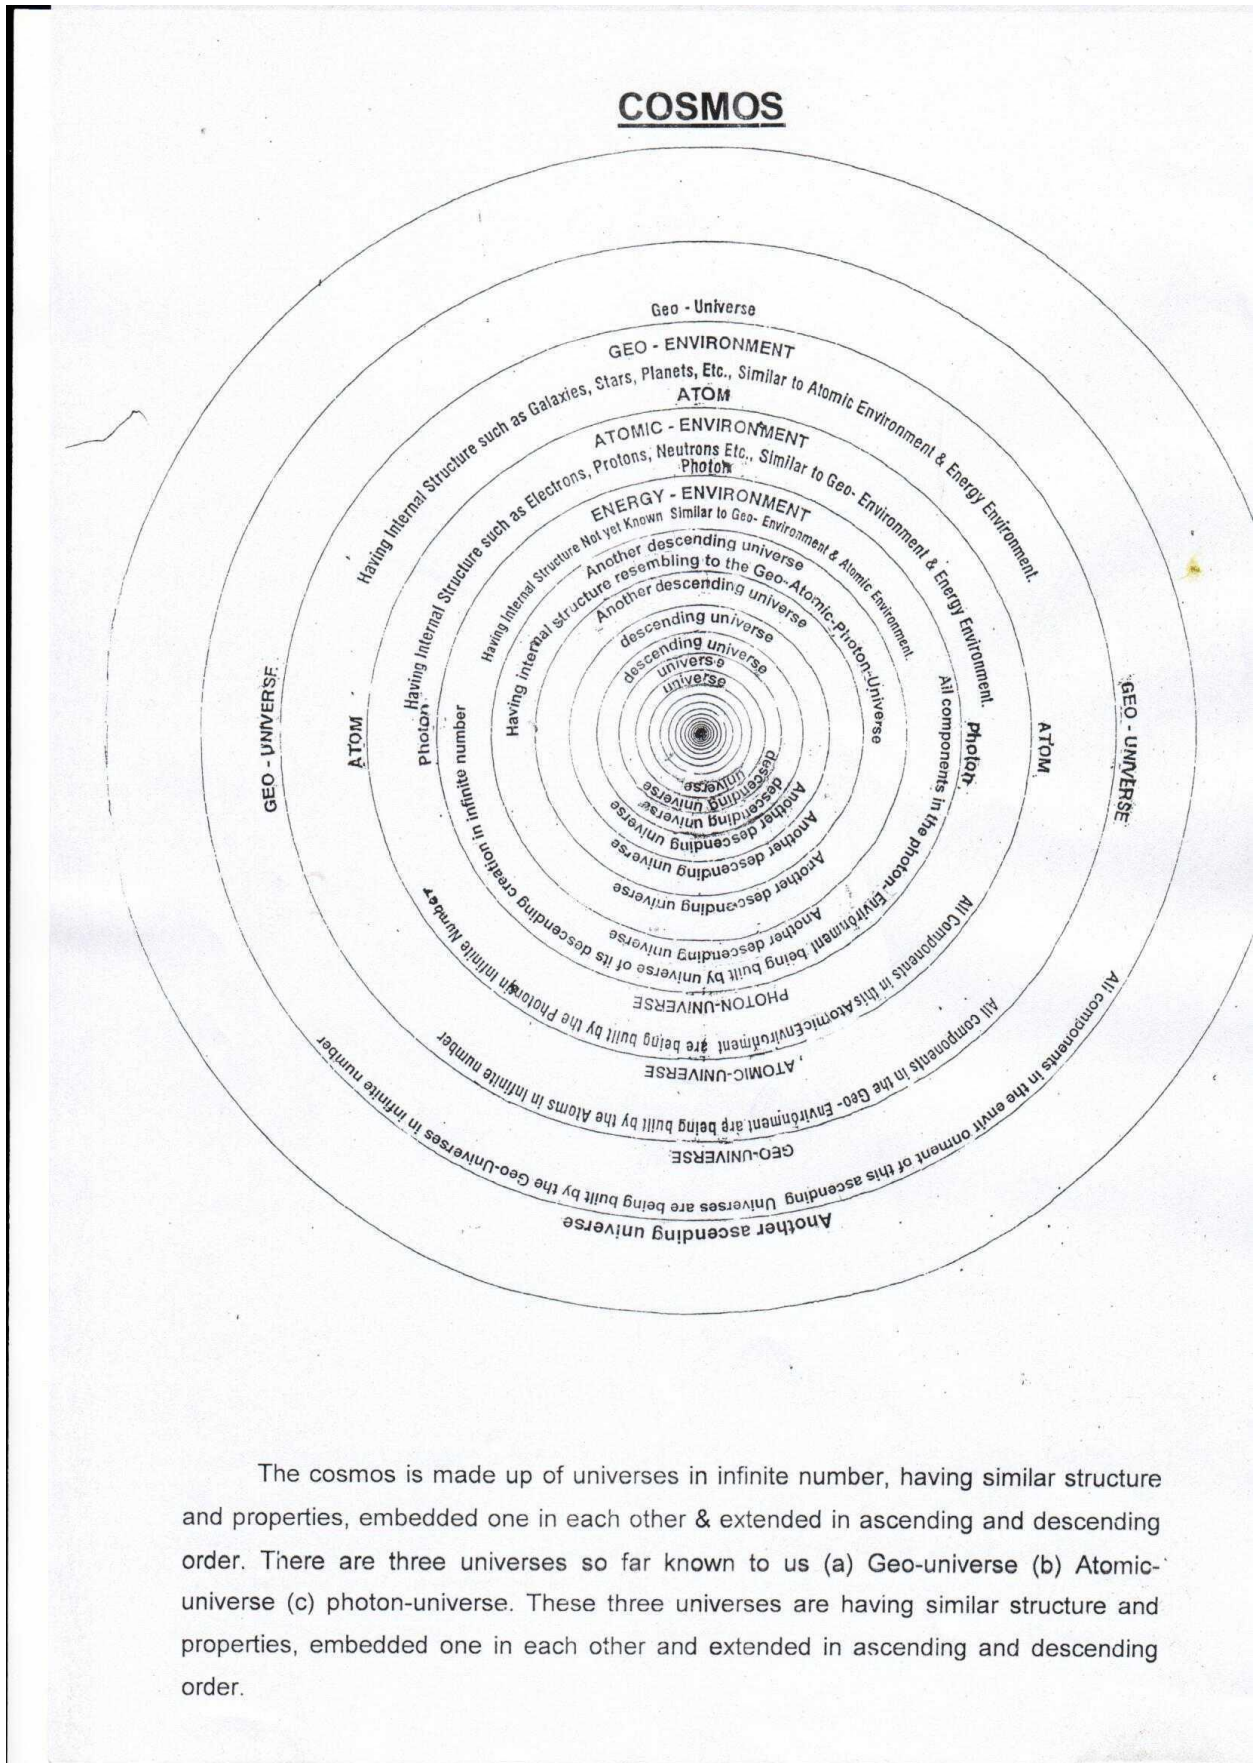

Geo-UNIVERSE has its own structure and properties exactly similar to the structure and properties resembling Atom and Energy particle. There are stars, planets, galaxies and life on the earth etc. present in the Geo-UNIVERSE.

Energy particle has internal structure and having three kinds of basic elements proposed and named as Positive energies (PEONS), Negative energies (NEONS) and Neutral energies (NEUCONS); it is also another universe named as Energy-UNIVERSE having structure and properties exactly similar to the structure and properties resembling our Geo-UNIVERSE and Atomic-UNIVERSE.

Atom is gigantic UNIVERSE having structure and properties exactly similar to the structure and properties resembling our Geo-UNIVERSE and Energy particle. Just like there are stars, planets, galaxies and life on the earth etc. present in the Geo-UNIVERSE; in the same way exactly similar stars, planets, galaxies and life on neutron's etc. may be present in the form of electrons, protons and neutrons in the atom.

The cosmos is made up of universes in infinite number, having similar structure and properties, embedded one in each other & extended in ascending and descending order. There are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) photon-universe. These three universes are having similar structure and properties, embedded one in each other and extended in ascending and descending order.

The Geo-universe is on the outer line and it is being built by its inner Atomic-universes in infinite number. The Atomic-universe is below the Geo-universe and it is being built by its inner Photon-universes in infinite number. The photon-universe is below to the Atomic-universe and it is being built by it is another inner universes in infinite number. In this manner, there are many universes, extends inwards infinitely.

The universe seen around our earth is being as a small atom in it is outer, universe of it is ascending order of creation. All components in that universe being built by universes of its descending order of creation, that means our Geo-0universe is a gigantic universe and has magnificent structure and properties. The Geo-universe having our earth is as small atom in the outer universe. There are many different type of cosmic bodies in its internal structure similar to galaxies, stars, planets of Geo-universe, atmosphere, clouds, earthquakes etc., many be present on some objects resembling to the Geo-universe. There are intelligent people may also be living on some cosmic objects similar to the earth. Those people may have most modern civilization and use the aero-planes, computers, ships, trains, buses etc., similar to our world countries.

The universe seen around our earth is being as a small atom in it is outer, universe of it is ascending order of creation. All components in that universe being built by universes of its descending order of creation, that means our Geo-0universe is a gigantic universe and has magnificent structure and properties. The Geo-universe having our earth is as mall atom in the outer universe. There are many different type of cosmic bodies in its internal structure similar to galaxies, stars, planets of Geo-universe, atmosphere, clouds, earthquakes etc., many be present on some objects resembling to the Geo-universe. There are intelligent people may also be living on some cosmic objects similar to the earth. Those people may have most modern civilization and use the aero-planes, computers, ships, trains, buses etc., similar to our world countries.

The world seen around the earth is a gigantic universe. It has magnificent structure and prosperities. There are many different type of cosmic bodies such as galaxies, stars, planets etc in its internal structure. Similar continents, oceans, mountains, cyclones, atmosphere, clouds, earthquakes, valleys etc resembling to earth may be present on some planets. Forests, animals, human beings, virus, bacteria, living being etc., may be present on some other planets resembling to the earth. And there are intelligent people may also be living on some planets having similar conditions exactly similar to the earth. Those people may have most modern civilization and use the Aero-planes, computers, ships, trains, buses, cards etc, similar to our world countries.

The Atom present in several forms from Hydrogen uranium and above is gigantic universe. It has magnificent structure and properties. There are many different type of atomic particles such as electrons, protons, neutrons etc., in its internal structure. Continent oceans, mountains, valleys, earth quakes, atmosphere etc structure may be present on some neutrons resembling to the Geo-universe. Forests, animals, human beings, virus, bacteria, living beings etc may be present on some neutrons resembling to the earth. And there are intelligent people may also be living on some neutrons having similar conditions resembling to the earth. Those people may have most modern civilization and use the aero-planes, computers, ships, trains, buses, cards etc similar to our world countries.

The photon present in several forms of electro-magnetic radiation from radio-waves, micro waves, infrared radiation, visible light, ultraviolet radiation, x-rays and gamma rays is a gigantic universe. There are many different type of photonic particles in its internal structure similar to electrons, protons, neutrons of atom and galaxies, stars, planets of Geo-universe. Continents, oceans, mountains, valleys earthquakes, atmosphere etc structure may be present on some particles resembling to Geo-universe and atomic-universe. Forests, animals, human virus, bacteria, living beings etc may be present on some particles resembling to the neutrons of atoms, earth like planets of Geo-universe. Those people may have most modern civilization and use the aeroplanes, computers, trains, buses, cars etc similar to our world countries.

The photon-universe is being built by it is inner universe of its descending order of creation. That inner universe is a gigantic universe and has magnificent structure and properties. All components in that universe being built by it is another inner universe there are many different type of particles in it is internal structure similar to electrons, protons, neutrons of atomic-universe and galaxies, stars, planets of Geo-universe, continents, oceans, mountains, valleys, seas, atmosphere, clouds, earthquakes etc., many be present on some particles on some particles resembling to Geo-universe. Forests, animals, tress, human beings, virus, bacteria etc may be present on some particles resembling to the earth. Those people may have most modern civilization and use the aero-planes, computers, ships, trains, buses etc., similar to out earth.

27-

Received a tipped report Taluk Magistrate Kotta Peta with the following:-
 Ref. A-2-5973/77 dt 21.7.77 Taluk office Kotta Peta

From: Sri P. Subbarao, C. Com. Taluk Magistrate
 To: The Station House Officer
 Ravulapalem.

Sir,
 Subj: Signature - Forgery Signature - Sri J. J. Gangadhara Rao of Merlapalem V. Report of the Revenue Inspector, Atreyapuram.
 Ref: Report of the Sririka Rev. Inspector, Atreyapuram dt 21.7.77.

The Rev. Inspector Atreyapuram enquired and reported that Smt. Relangi Rattamma wife of Muralaiah of Merlapalem Village applied for grant of a tree (Terminalia) situated on the north-west portion of her house for which house - si - Patta was granted. On the above petition the signatures of Village Munsiff, Merlapalem and the Rev. Inspector Atreyapuram were forged.

The Rev. Inspector, Atreyapuram further reported that Smt. Relangi Rattamma in her statement deposed that the second son of Sri J. J. Gangadhara Rao of Merlapalem Village, the offender in the instant case may be dealt with according to law. Please intimate the action taken in the matter.

In the above case the offender is Sri J. J. Gangadhara Rao of Merlapalem Village, the offender in the instant case may be dealt with according to law. Please intimate the action taken in the matter.

1. The following records are enclosed here with duly officiating the taluk and enclosed.
2. Slip containing forged signature.
3. Statement recorded from Sri J. J. Gangadhara Rao of Merlapalem Village.
4. Statement of Smt. Relangi Rattamma wife of Muralaiah of Merlapalem Village.
5. Report of the Rev. Inspector, Atreyapuram dated 21.7.77.

The offender is produced before you through the Rev. Inspector Atreyapuram for taking in to custody.

Enclo: - As stated above.
 (sd) P. Ramasubbingi
 Head clerk.

yours faithfully,
 (sd) P. Subbarao
 Taluk - Magistrate
 Kotta Peta.

IN THE COURT OF THE JUDICIAL MAGISTRATE OF THE I CLASS KOTHAPETA.
 PRESENT: SRI D. VENKATAMARAYANA, B.COM., LL.B., Judicial Magistrate
 of the I Class.

TUESDAY, the 27th day of November, 1979.

C.C.No. 13/79.

Between:

The State of Andhra Pradesh, through

The State Inspector of Police, Razole
 Cr.No. 63/79 of Ravulapalem P.S.

.. Complainant.

and

Irlapati Gangadhara Rao,
 s/o Pullayya, Aged 19 yrs.
 Merlapalem.

.. Accused.

This case coming on 20.11.79 for hearing before me in the presence of the State Complainant and the accused appearing in person and having stood over for consideration till this day, the court delivered the following:-

JUDGMENT

The Inspector of Police, Razole has laid the charge sheet in Cr.No. 63/79 of Ravulapalem Police Station Under Sections 420, and 471 IPC against the accused herein.

2. The case of the prosecution is that P.W.1 is resident of Merlapalem village and she is living in a house constructed in R.S.No. 129 in Merlapalem village which was given to her by the Revenue Department. There is a tamarind tree in the said house site near her house. The branches of the said tree were over-hanging on her house endangering safety to her house. She was advised to apply for patta of the said tamarind tree. The accused who had come to know about it approached P.W.1 two weeks prior to 21.7.77 and offered his services to get the tree or patta for her and he induced her to affix her thumb impression on the application written by him and wanted her to get the recommendations of the Village Munsif and Revenue Inspector, Atreyapuram. When she expressed her inability to secure their signatures he resorted to forging of the signatures of Village Munsif, Merlapalem and Revenue Inspector (P.W.4). Completing the application and the recommendations he presented the application in the Taluk Office,

enforced for verification and enquiry on 21.7.77, contacted P.W. 1 to and also questioned the accused at the village chavidi of Ryali before whom the accused admitted the offence and P.W.4 recorded the statements of P.W.1 and the accused. The accused was produced before the Tahsildar, Kothapeta who forwarded the accused to the Police Station, Ravulapalem along with Exs.pl to P4 The police, Ravulapalem registered Cr.No.53/77 U/s. 420,467 and 471 IPC. Therefore, the accused is liable for punishment under sec. 420,467 and 471 IPC.

3. The case was taken on file against the accused under sec. 420, 467 and 471 IPC. When the accused appeared before this court, copies of documents contemplated under sec. 207 Cr.P.C. were furnished to him and he was examined on the contents of the documents. He denied the offence. On consideration of the documents, a charge under sec. 420, 467 and 471 IPC were framed, read over, interpreted and explained to the accused in Telugu to which he pleaded not guilty and claimed to be tried.

4. The prosecution, in support of its case, examined P.W.1, who wanted to apply patta of the tamarind tree, P.W.2 the village Munsif, Ryali, P.W.3, Village Kannam of Ryali, P.W.4 the Revenue Inspector in whose presence the accused is alleged to have confessed the offence, P.W.5 the Head Constable who registered the crime. P.W.6 the Investigating Officer, P.W.7, the Tahsildar who forwarded the accused and report of P.W.4 to Ravulapalem P.S. and got marked Ex.pl to P6. The accused did not adduce any oral or documentary evidence.

5. After closure of the prosecution evidence, the accused was examined U/s. 313 Cr.P.C. regarding the incriminating circumstances appearing in the evidence of the prosecution against the accused. The plea of the accused is total denial of the offence. He stated that P.W.4 is superstitious and fanatic and that when P.W.4 was telling about god once he told him that human being was born from monkey. Therefore, P.W.4 grew wild in that connection

is that he was beaten by P.W.4 and others and he was forced to put his signature on Ex.P3 and also Ex.P2. Further, the plea of the accused is that there was altercation between him and P.W.4 with regard to the existence of God and also with regard to obtaining of signature of P.W.4 on the caste certificate. Except, the confession statement of the accused Ex.P3 before P.Ws. 2 to 4, there is no direct evidence to connect the accused with the offences charged against him. P.W.4 is an illiterate. She does not know on which paper the accused obtained her thumb impression. Even for a moment sake, it is presumed that it is the accused who obtained the signature of P.W.1, on Ex.P1, Ex.P1 itself is completely in torn condition and the Tehsildar, Kothapeta who is competent authority to grant patta of the tamarind tree, would not have acted upon the petition Ex.P1. Moreover, the prosecution failed to explain the reason why the accused forged the signature of P.W.4 and the Village Munsif, Merlapalem on Ex.P1 and by forging the signature what is the wrongful gain the accused wanted to obtain. There is no evidence to show that it is the accused who filed Ex.P1 petition and other enclosures in the Tehsil Office, Kothapeta. Further, there is a typed petition filed in this case which contains the recommendation of the Village Munsif and the recommendation of Revenue Inspector-P.W.4. It is not marked by prosecution. To support a conviction U/s. 467 IPC, there must be evidence that the document is a false document, within the meaning of section 464 IPC and that it was forged by the accused with some intent mentioned in sec. 463 IPC. It is not sufficient that some possible intent may be inferred from the facts, it is necessary such intent should be established by evidence, which is lacking in this case. Under Sec. 420 IPC, there must be evidence that the person received delivered to someone, or consented that some person shall retain certain property, that the person received was induced by the accused to do as above, that such person acted upon such inducement in consequence of his having been deceived by the accused, that the accused acted fraudulently

and that subsequently when he approached P.W.4 to sign on the caste certificate, he demanded Rs. 10/- from him and that subsequently he reported the matter to the Revenue Divisional Officer, Amalapuram about the demanding of illegal gratification of P.W.4. ←
 The R.D.O. Amalapuram has promised to enquire into the matter. ←
 Therefore, this case is falsely foisted against him. ← when he was coming from Ravulapalem the village servant took him before P.W.4. Thereafter he was kept taken to village chavidi where P.Ws. 1 to 4 were present and they beat him and obtained his signature on Ex.P3 and subsequently he was taken to the panchayat, Kothapeta from there he was sent to Police Station, Ravulapalem and that he is innocent and he did not commit any offence.

6. The point for consideration is whether the prosecution has been able to establish its case against the accused, beyond all reasonable doubt? ←

7. The case of the prosecution is that the accused forged the signature of P.S.4 the revenue inspector and village Munsif, Merlapalem (who is no more alive). Ex.P1 is the petition which contains the alleged forged signatures of village Munsif, Merlapalem and Revenue Inspector (P.W.4). Ex.P1 is in torn condition. The alleged signature of village Munsif, Merlapalem is completely torn and the signature of P.W.4 is also torn completely except some portion. It also contains the thumb impression alleged to have been affixed by P.W.1. The prosecution to establish that it is the accused who is responsible for the alleged forgery of signatures of P.W.4 and village Munsif, Merlapalem relied on Ex.P1 petition and Ex.P2 the slip which is also alleged to have been signed by the accused in the presence of P.Ws. 2 to 4. There is no direct evidence available, in this case, who witnessed the forging of the signatures of P.W.4 and village Munsif, Merlapalem. Even the alleged signatures are in torn condition. Regarding the statement of the accused recorded by P.W.4 in the presence

dishonestly when so inducing that person, that the accused so induced that person intentionally, that such act of the accused was likely to cause damage or harm to that person in property. There must also evidence of fraudulent or dishonest intention at the time of the omission of the act in respect of which the cheating is alleged. Since the main part of the alleged signatures of P.W.4 and Village Munsif, Merlapalem (who is no more) are completely torn and Ex.P1 is in such a condition that the Tahsildar, Kothapeta would not have been acted upon it in granting patta of the tamarind tree to the petitioner i.e., P.W.1. Therefore the question of commission of offences of cheating and thereby dishonestly inducing delivery of property, forgery of a valuable security or authority to make transfer any valuable security and using a genuine a forged document which is known to be forged are not proved against the accused, beyond all reasonable doubt.

In the result, the accused is given the benefit of doubt. The accused is found not guilty of the offences punishable Under sections 420, 467 and 471 IPC. and he is acquitted Under sec. 248(1) Cr.P.C.

Dictated to the Shorthand-writer, transcribed by him, Corrected by me and pronounced in Open Court on this the 27th day of November, 1979 in the presence of the accused.

Sd.D.Venkata Narayana, 27.11.79
Judicial Magistrate of the
1st Class, Kothapeta.

Appendix of evidence.
Witnesses examined for.

Prosecution:

P.W.1: Relangi Rattamma
P.W.2: Pericherla Satyanarayanaraju.
P.W.3: T.V.Sriramachandra Murty.
P.W.4: Malladi Panduranga Vithal,
HI, Atreyapuram.
P.W.5: K.M.Meera Sahe,
HC 1625, Ravulapalem P.S.
P.W.6: T.B.Pundarikakshudu,
Inspector of Police,
Ravulapalem.
P.W.7: P.Subba Rao,
Tahsildar, Kothapeta.

Defence:

None.

9th December, 1988.

Dear Shri Rao,

I have your letter dated 15th November, 1988,
enclosing a petition from Shri Gangadhara Rao
Irlapati.

2. I will try to help.

Yours sincerely,

(K.R. NARAYANAN)

Shri A.J.V.B. Maheswara Rao,
Member of Parliament (LS),
43, North Avenue,
New Delhi.

Hyderabad,
Date:03-06-1989

To

The Director General,
Council of Scientific and Industrial Research,
Rafi Marg, New Delhi-I.

Sir,

Sub: Invention of Geoscope - Requested for further
research and development at the National Geophysical
Research Instituted - Reg.

- Ref: 1) Letter dated: 03-12-1987 of A.J.V.B.M. Rao,
Member of Parliament (IS), Amalapuram.
- 2) Letter No.401/VIP/MOS/88 Dated:8th December,1988
of Sri K.R.Narayanan, Minister of State Science
& Technology, New Delhi.

I am a poor scientest with an ideal to serve the Country
through Scientific research. I have invented and built a
small Geoscope at my house which can help to study the
underground.

Geoscope is a simple and wonderful invention. A borehole
having suitable width and depth has to be ~~dig~~ dug. An
Observatory having research and analysis facilities has to be
constructed on the borehole various ~~apparatus~~
sensing apparatus to recognize the geophysical and geochemical
changes generated in the underground should be inserted into
the underground through the borehole and linked with the
concerned analysis departments of the observatory that is
above the ground to study the changes taking place in the
underground.

Kindly provide research facilities to carryout further
researches on the Geoscope project at N.G.R.I. Hyderabad.

Gangadhara Rao Irlapati
C/o. R. Mohana Rao,

G. Gangadhara Rao

In the High Court of Judicature of Andhra Pradesh at Hyderabad.
Special Original Jurisdiction

Wednesday the Sixth day of September
One thousand nine hundred and eighty nine

Present
The Hon'ble Mr. Justice Lakshmana Rao

Writ Petition No.12355 of 1989

Between:
Irlapati Gangadhara Rao. .. Petitioner

And

1. Union of India, rep. by its Secretary,
Ministry of Science & Technology, Anusandhana
Bhavan, Rafi Marg, New Delhi-1.
2. Council of Scientific & Industrial Research,
rep. by its Director General, Rafi Marg, New Delhi-1.
3. National Geophysical Research Institutes rep.
by its Director, Tarnaka, Hyderabad. .. Respondents.

Petition under Art. 226 of the Constitution of India praying
that in the circumstances stated in the affidavit filed herein the
High Court will be pleased to issue an appropriate writ or order or
direction declaring

- i) that the inaction of the respondent authorities in not
considering petitioner's representations for carrying out
research and scientific investigations as arbitrary,
unreasonable and illegal;
- ii) a direction may be issued to the respondents 2 & 3
to consider the petitioner's representations so as to
enable him to carry out scientific investigations in
respondent 3 institution, or any such other appro-
priate direction may be passed;
- iii) Costs be awarded to the petitioner;

For the Petitioner : Mr. K. Ramkrishna Reddi, Advocate
For the Respondents : Mr. S. Venkateswara Rao, S.G. for Central Govt.

The Court made the following: ORDER

Heard the learned counsel for the petitioner as well as the
learned Standing counsel for the Central Govt. appearing on behalf
of the respondents.

The relief sought for in this writ petition is a direction
to the respondents to consider the respondent representations
submitted by the petitioner to ~~xxx~~ provide facilities to enable him
to carry out scientific investigations in National Geophysical
Research Institute, Hyderabad and pass appropriate orders thereon.

Having regard to the facts and circumstances of the case, ~~it~~
it is directed that the respondents shall consider the representation
dated 7-6-89 submitted by the petitioner and pass appropriate orders
thereon as early as possible preferably within three months from the
date of receipt of a copy of this order.

The writ petition is accordingly disposed of. No costs.

Sir,

Sub: Global Monsoon Time-Scales - Indian Monsoon Time Scales -
Requested for further Research & Development - Reg.,

I am a poor Scientist with an ideal to serve the country
research. I have built a small Lab at my house and conducting
research on the Global Monsoon systems. As a part of this, I have
Invented the Indian Monsoon Time Scale which can help to study
the past, present and future movements of the Indian Monsoon.

I am request you that kindly accept my Indian Monsoon
Time Scale and Develop in the services of the country.
