Email: scientistgangadhar@yahoo.com

Abstract: Atomic-universe, that mean the atom present from hydrogen to uranium etc. is a gigantic universe, having similar universal structure and properties such galaxies, stars, planets in the form of electrons, protons and neutrons exactly similar to our universe. Just as there are continents, oceans, countries and human beings on some earth-like planets in our Geo-universe, continents, oceans, countries and living beings can be present on some neutrons in the atom. That is the atom is a vast universe as our universe. But we do not recognize them. For the creatures in the atom, in their view the atom is a great universe but they do not know that another gigantic universe exists above them, and that their atom in which they resides is acts as a tiny atom in our universe just as we do not know that our gigantic universe is a small particle in the universe above us. There may be humans on neutrons who have civilizations like countries, governments, planes, trains, ships, motors etc. just there are humans who have civilizations on our planet. Such atoms being built by universes of its descending order of creation that are photons and the same atom being act as a primary syntactic unit in its ascending world that is our universe. Let us learn more mysteries about the Atomic-universe through the Irlapatism-A New Hypothetical Model of Cosmology.

[Gangadhara Rao Irlapati. **Atom is a gigantic universe in which there are galaxies, stars, planets and human worlds.** *Rep Opinion* 2022;14(7):6-31]. Key Words: Irlapatism-A New Hypothetical Model of Cosmology, Geo-universe, Atomic-universe, Photon-universe, Geo-environment, Atomic-environment, Photon-environment, Spacegenesis, Space-atmosphere

Introduction:

The cosmos is made up of universes in infinite number, having similar universal external and internal structure and properties, embedded one in each other and extended in ascending and descending order. To explain and justify this model, there are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are having similar universal external and internal structure and properties, embedded one in each other and extended in ascending and descending order. Of these three, we known some extent about the internal structure and properties of the Geo-Universe but we do not known its external structure. We know some extent about the external structure and properties of the Photon-universe but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal & external structure and properties of the Atomic-universe. Hence, I have taken the similarities of external structure & properties between the Geo-universe & Atomic-universe to propose that all the universes in ascending and descending order of the creation are having similar universal internal structure and properties. The similarities of external structure & properties between the Atomic-universe and Photon-universe are taken to propose that all the universe in ascending and

descending order of creation are having similar external structure and properties. And the manner in which of these three universes i.e., embedded one in each other, extended in ascending and descending order to propose that all the universes in ascending and descending order of the creation are embedded one in each other and extended in ascending and descending order.

Similar External Structure & Properties

According to the model, all the universes in ascending and descending order of the creation are having similar external structure and properties. All the universes in either ascending or descending order of creation have the similar external structure and properties. So, we have imagine the external structure and properties of the atom compare with the external structure and properties of the photon. In the same way, imagine the photon external structure and properties compare with the external structure and properties of the atom. Because, according to my cosmological principle all the universes in the ascending and descending order of creation must have similar external and internal structure and properties. To explain and justify this, I have taken many similarities between the atom and photon. To justify this, I have taken many similarities between the atom and photon.

For example:-

Atomic-Universe	Photon-Universe
1) The atom appearing in several forms such as Hydrogen to uranium etc., being due to the Internal structure having different atomic particles at various numbers	2) The particle “Photon” related to energy appearing in several forms such as radio waves, gamma rays, violet rays etc being may be probably due to the internal structure having different particles at various numbers.
2)The atom exhibiting several physical and chemical Properties such as weight, colour, taste, hardness etc being due to the internal structure having different particles at various number.)The particle “photon” related to energy exhibiting properties such as wave length colour, temperature etc being may be Probably due to the internal structure having different particles at various number.

SIMILAR INTERNAL STRUCTURE & PROPERTIES

According to the model, all the universes in ascending and descending order of the creation are having similar internal structure and properties. All the universes in either ascending or descending order of creation have the similar internal structure and properties. So, we have imagine the internal structure and properties of the atom compare with the internal structure and properties of the Geo-universe that's the

universe seen around our earth. . In the same way, imagine the internal structure and properties of the Geo-universe, compare with the compare with the internal structure and properties of the atom. Because, according to my cosmological principle all the universes in the ascending and descending order of creation must have the similar external and internal and structure and properties. To explain and justify this, I have taken the many similarities between the atomic-universe and Geo-Universe.

Atomic-Universe	Geo-Universe
1)Various atomic particles at different sizes in several numbers are present in the atom	1) Various astronomical objects at different sizes in several numbers are present in the Geo- Universe
2) These atomic particles having three types of charges at negative, positive and neutral states are present in the atom	2) These astronomical objects having three type of charges at positive, negative and neutral states are present in the Geo-Universe
3) Positively charged protons are present in the nucleus	3) Stars built by atoms having positive charged nucleus are present in centre of the Geo-Universe
4) Neutrons at neutral state are present in the Nucleus.	4) Planets at neutral state are present in Centre of the Geo – Universe
5) Negatively charged electrons are present at large distance of the atomic nucleus in the atom	5) Here is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the Geo-Universe.
6) Additional neutrons called isotopes are present.	6) Additional planets called satellites around the planets are present
7) Radiation emitting from the atom.	7) Cosmic rays emitting from the Geo- Universe.
8) There is a property of nuclear fission is in the atom.	8) There is a property of super Nova is in the Geo -Universe.

Descending order of creation:

The Geo-universe that means the Universe seen around our earth is having magnificent structure and properties such as galaxies, stars and planets and some planets such as earth having continents, countries, oceans, trees, animals, cyclones, human beings etc. Such Geo-universe being built by Universes of its descending order of creation that means atoms.

Atomic-universe that means the atom present in several forms from hydrogen to uranium etc is another gigantic universe, having magnificent structure and properties such as electrons, protons, neutrons, etc., and continents, countries, oceans, cyclones, trees, animals, human beings may be present on some neutrons having suitable conditions exactly similar to the earth planet resembling to the Geo-universe. Such Atomic universe being built by universes of its descending order of creation that means energy particle “photons”.

The Photon-universe that means the particle “photon” related to energy present in several forms of electromagnetic radiation is also another gigantic universe having magnificent structure and properties resembling to Geo-universe and atom. Such Photon-universe may also being built by universes of its descending order of creation that is not yet known to us.

Thus the descending order of creation continuous infinitely.

Ascending order of creation:

The Photon-universe that means the particle related to energy “photon” having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means atom. All components in the atom are built by these “photons” in infinite number. Such each and every energy particle “photon” in the Atomic-universe is basis to an infinite descending order of creation.

The Atomic—universe that means the “Atom” having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means in our Geo-universe. All components in the Geo-universe such as stars, planets etc., are built by these atoms in infinite number. Such each and every atom in the Geo-universe is basis to an infinite descending order of creation.

The Geo-Universe that means the “Universe” seen around our earth is a gigantic universe that is known to us, having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that is not yet known to us.

All components in that universe are built by these Geo-universes in infinite number. Such each and every Geo-universe in that ascending creation is basis to an infinite descending order of creation.

Thus the ascending order of creation continuous infinite.

POSTULATES::

The cosmos is made up of universes in infinite number that are having similar structure and properties, embedded one in each other and extended in ascending and descending order in the form of a super fluid of spacetime. .

There are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are individual universes, having similar structure and properties, embedded one in each other and extended in ascending and descending order.

The fill of structure and characteristics like galaxies, stars, planets, comets, meteors, asteroids, space dust including air, cyclones and all other celestial objects that are in the Geo-universe that's the universe seen around our earth is proposed as **Geo-environment**.

The state of structure and characteristics like proton, neutrons and electrons and all other components that are in the atomic-universe that's atom is proposed as **atomic-environment**.

The state of structure and characteristics that are not yet known in the photon-universe that is proposed as **photon-environment**.

The state of structure and characteristics in the space is proposed as **space-environment**.

The state of galaxies, stars, planets, nebulae, pulsars etc. at a particular region over a long period of time is proposed as **space-climate**.

The state of structure and characteristics like galaxies, stars, planets and their orbits and other physical forces etc that surrounds in the universe is proposed as **space-atmosphere**.

The state of characteristics of space- climate like solar wind flares, asteroids etc at a particular region during a short period of time is proposed as **space-weather**.

The state of space atmosphere being in still is proposed as “Inactive Space Region” and the state of space atmosphere being in active is proposed as “**active space region**”

The region of space atmosphere in which the celestial bodies are more widespread areas is proposed as “**space high pressure area**” the less widespread area is proposed as “**space low pressure area**”.

Some space times happens variation of differences of pressure in the space-climate, At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure area is proposed as “**space-storm**” which is galaxies. The centre of space low pressure area itself is the **black-hole** and the circular whirling celestial bodies & other space dust etc caused by the space low pressure area is proposed as “space-storm that's galaxy.

Empty spaces that are space voids formed in some places in the space as a result of the movements of celestial objects where space pressure is low relative to its immediate surroundings. It is often a indicator of coming space low pressure area. As a result, a low pressure system in the space atmosphere develops when these celestial objects in the surroundings space high pressure area rushes in to fill the empty space. They will try to occupy that empty space all at once. In this attempt, the whirl around that space low pressure area due to the obstruction of centripetal force acceleration as as a space-storm that is galaxy. As the celestial objects rotates, an space-eye form in the center of the space-storm that is galaxy is proposed as Black-hole. After this, the space-low pressure area filled and neutralized with celestial objects, those will be scattered that is proposed as space-clusters.

Cosmic-Environments:

The fill of structure and characteristics in the universe of the cosmos proposed as **cosmic environments**. For example the fill of structure and characteristics like galaxies, stars, planets etc in the Geo-Universe proposed as Geo-Environment, the fill of structure and characteristics like proton, neutrons and electrons etc in the Atomic-Universe proposed as Atomic-Environment and the fill of structure and characteristics in the Energy-Universe that means in the photon that is not yet known proposed as Energy-Environment.

Space Weather:

The fill of structure and characteristics like galaxies, Stars, Planets and their orbits and other physical forces etc that surrounds in the universe proposed as space atmosphere, the state of galaxies, stars, planets, nebulas. Pulsars etc at a particular region over a long period of time proposed as space-climate,

the state of characteristics of space- climate like solar wind flares, asteroids etc at a particular region during a short period of time proposed as space-weather.

Space Regions:

The state of space atmosphere being in still proposed as “Inactive Space Region”, the state of space atmosphere being in active proposed as “Active Space Region” The region of space atmosphere in which the celestial bodies are more widespread areas proposed as “Space High Pressure Area” the less widespread areas proposed as “Space Low Pressure Area”.

Space Low Pressure Systems:

Some space times happens variation of differences of pressure in the space-climate, At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure. The centre of space low pressure area itself is the black-hole and the circular whirling celestial bodies & other space dust etc caused by the space low pressures proposed as Galaxy.

The earth is not tilted at a a constant angle of 23.5 degrees as expected so far but slightly ups and downs by 23.5 degrees and revolves in oscillating order on sun's fulcrum, which orbits the centre of our galaxy tipped at an angle of 60 degrees bobs ups and downs and above and below the galatic plane is the root cause of the climate changes, seasons, monsoonal changes on the earth.

Research and analysis:

Similar universal similarities: According my theory, there are three universes so far known to us (a) Geo-Universe (b) Atomic-Universe (c) Photon-Universe. These three are having similar structure and properties. Of these three, we known some extent about the internal structure and properties of the geo-niverse but we do not know its external structure. We know some extent about the external structure and properties of the photon-universe but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal & external structure and properties of the atomic-universe. Hence, I have taken the similarities of external structure & properties between the photon-universe & atomic-universe to propose that all the universes in ascending and descending order of the creation are having similar external structure and properties. The similarities of internal structure & properties between the atomic-universe and geo-universe are taken to propose that all the universe in ascending and descending order of

creation are having similar internal structure and properties.

Uniform comparisons between atom and photon: The similarities of external structure & properties between the atom and photon are taken to propose that all these two are having similar internal structure and properties.

Structure: The Atom appearing in several forms such as hydrogen to uranium etc., being due to the internal structure having different atomic particles at various number. In the same manner the “photon” related to energy appearing in several forms such as radio waves, gamma rays, violet rays etc being may be probably due to the internal structure having different particles at various numbers.

Properties: The atom exhibiting several physical and chemical properties such as weight, colour, taste, hardness etc being due to the internal structure having different particles at various number. The “photon” related to energy exhibiting properties such as wave length colour, temperature etc being may be probably due to the internal structure having different particles at various number.

Various atomic particles at different sizes in several numbers are present in the atom Various astronomical objects at different sizes in several numbers are present in the Geo- Universe.

Uniform comparisons between Atom and Geo-universe: The similarities of interinternal structure & properties between the atom and geo-universe are taken to propose that all these two are having similar internal structure and properties.

1. Various atomic particles at different sizes in several numbers are present in the atom. In the similar way various astronomical objects at different sizes in several numbers are present in the geo- universe. 2. These atomic particles having three types of charges at negative, positive and neutral states are present in the atom. In the similar way, these astronomical objects having three type of charges at positive, negative and neutral states are present in the geo-universe. 3. Positively charged protons are present in the nucleus. In the similar way, Stars built by atoms having positive charged nucleus are present in centre of the geo-universe. 4. Neutrons at neutral state are present in the nucleus. In the similar way, planets at neutral state are present in centre of the geo-universe. 5. Negatively charged electrons are present at large distance of the atomic nucleus in the atom. In the similar way, there is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the geo-universe. 6. Additional

neutrons called isotopes are present. In the similar way, additional planets called satellites around the planets are present. 7. Radiation emitting from the atom. In the similar way, cosmic rays emitting from the geo-universe. 8. There is a property of nuclear fission in the atom. In the similar way, there is a property of super Nova in the universe.

Study & discussions:

The Cosmology is one of the most creative and bizarre areas of science, concerned with the studies of origin, structure, nature and evolution of the universe. There are two main theories, steady state theory and the big bang theory, that explain the structure of the universe. For example, The big bang theory has faced many criticisms by many scientists as being inadequate to explain the relativity and complexity of the universe. Therefore, it not sufficient to correctly model the origins of the universe.

According to Bud Rapanault (quora); ‘The Big Bang Theory is essentially unscientific because the physical model it presents does not resemble the cosmos we observe in any of its particulars. None of the distinguishing features of the Big Bang Theory are part of the cosmological landscape that lies before us.

The Big Bang Theory itself and the *ad hoc* inflationary epoch are unobservable by terms of the model.

Curved and expanding space time cannot be directly detected but are integral to the model.

The Big Bang Theory model requires that 95% of the universe consist of some dark matter and dark energy neither of which can be empirically detected and both of which are simply additional *ad hoc* patches necessary to make the model predictions conform to physical reality.

In addition, the Big Bang Theory rests on two assumptions, one simplistic and naïve, the other dubious

The cosmos is a unified, coherent, and simultaneous entity.

The cosmological redshift is a recessional velocity.

According to George Yool (quora); current evidence like the cosmological principle, hubble ultra deep field and alternatives like quantum relativity suggest a universe has no beginning or end in which big bangs are galactic processes we can observe empirically. There are many esteemed critics such as;

NASA WMAP beyond big bang theory;

Einstein evolving universe.

Hoyle The big bang theory got its name from a man who thought the theory was total nonsense.

Plus 34 more famous scientists around the world in an open joint letter to the scientific community has been criticized the Big Bang Theory (Big Bang Theory Busted By 33 Top Scientists)Rense.com

Researches on humanitic benefits:

Extraterrestrial hazards:

Everyone should know about the origin, structure, nature, evolution of the universe and its various properties. Since, all the hazards on the earth directly or indirectly are associated with the gravitational forces of the universe. Further, this in order to be study the hazards, study of the cosmology is needed to know about hazards. There are hazards on the earth, on other planets and there are also happening within atoms. Human beings are on the earth, are on the outside planets of the earth and also on the neutrons in the atoms. Even if the world's people appreciate or criticize me, it is fact. Hazards caused by asteroids, meteoroids ,and comets as they pass near the earth ,enter the earth's atmosphere ,and /or strike the earth ,and by changes in inter planetary ionosphere, and atmosphere. In the face of extra terrestrial hazards and events that can lead to disasters, it is important to live in a resilient community because these types of disasters are so unpredictable and depending on the size of meteorite can cause serious damage through the heat emitted during impacts with earth's surface .In addition , impact can cause earth quakes , Tsunami, wildfires ,acid rains from nitrogen oxides, darkness from dust and soot and global warming. It is for this reason that staying aware and prepared at all times is extra important. This is not an implication to live in fear, but a reminder to stay educated about these types of disasters and to have a plan in place as with any other type of disaster. Before an extraterrestrial hazards /events occur, there are some steps that can be taken to mitigate and minimize the impact. I have conducted many studies on the universe and its extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth. A new hypothetical model of cosmology will helpful to study and know the universe, extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth.

The impact of the gravitational forces on Earth's atmosphere:

The year to year change of movement of axis of the earth inclined at 23½ degrees from vertical to its path around the sun does play a significant role on the Earth's atmosphere and stimulates the weather. The inter-tropical convergence zone at the equator follows the movement of the sun and shifts north of the equator merges with the heat low pressure zone created by the rising heat of the sub-continent due to direct and converging rays of the summer sun on the India Sub-Continent and develops into the monsoon trough and maintain monsoon circulation..

Studies Carried Out: Many studies were carried out on this Hypothesis and it was successfully proved out in the studies.

Acknowledgements:

Many consultations were made with university professors and research scientists for their suggestions and advices. There was also taken some information from the Wikipedia. I am grateful to them.

Conclusion:

I would like to have an extensive discussion on my hypothesis. My theory is the basic relating to the cosmology. Many things that visible to researchers relating to beyond the extreme deep intergalactic space and expanding universe etc are yet to be explained. Kindly recognize my theory by making references in your research papers and bring me into light.

Author bio: I'm an unfortunate Indian scientist that society throws away and government did not encourage and provide research opportunities, was born on May 25, 1958 in India to a poor depressed community family. Eventually, I built a small lab in my house and more than 1000 researches and studies have been conducted by me from the childhood age 1965 to till year 2022 earth and space science issues.

Among them, Bio-forecast(1965-70), Irlapatism-A New Hypothetical Model of Cosmology(1970-77), Inquest and imprisonment(1977-79), Geoscope(1980-87), Basics of Monsoon Time Scales(1987-91), Indian Monsoon Time Scale(1991), Disaster management prevention and mitigation policies(2000-10), Global Monsoon Time Scales(2010-2022) etc. were important and successfully completed while Artificial rains for creating normal rains, Artificial storms for pouring heavy rains, Artificial underground waters for increasing ground waters, Time-Travel-Machine for traveling into the past, present future, Geo-machine for re-creating humans of past, Earth-machine for re-creating the another earth in the space, Inventing the life, Microcosm project for connecting and entering the

worlds of micro organs, atomic-worlds, Macrocosm project for connecting and entering the worlds of space and outer space worlds etc. were uncompleted due to lack of support and opportunities.

Mainly between 1970-77 years, I have conducted researches and studies on the origin, structure, nature and evolution of the cosmos and proposed A New Hypothetical Model of Cosmology with hundreds of postulates by taking several facts that confirm the universe such as similarity among the geo-universe, atom, photon, these three are having similar structure and properties, embedded one in each other and extended in ascending and descending order etc along with good stuff in all the theories. On 1st July,1977 on the basis of those postulates, a book was published in the name of Irlapatism- Irlapati Theory of Universe by supporters. The postulates about the creation, existence of god, theory of evolution etc in the book were exposed to the anger of fundamentalists and superstitious, subsequently got into violent altercations. As a result, my lab was destroyed and copies of my hypothesis were burned. I reported these repressions to the Revenue Divisional Officer. Amalapuram in July,1977. The Revenue Divisional Officer was conducted an enquiry about this matter. While returning from the enquiry, on forenoon, I was attacked by a mob and they had taken me forcibly to the village chavadi, Ryali, there fundamentalists and superstitious people were met and where I was beat up. Followed by altercations about my thoughts in the book, they beaten and forced me to put signatures on some prepared documents, and an offence falsely framed and foisted against me. After tortures, I was sent to the Taluk Magistrate, Kothapeta and persuaded to renounce my views and ideas. The fundamentalists and superstitious people succeeded me in sentencing. The Taluk Magistrate was declared me as a dangerous boy and up to anything and issued sentence to punish and handed over to the police station, Ravulapalem. I was arrested on July 21, 1977. A case was registered and I was kept remand for some months in sub-jail and remaining period interrogated periodically. I had been driving with chains through the streets of Kothapeta from sub-jail to court during the timings of presenting to the court. The trials were done from April 2, 1979 to November 20,1979. After many trials and arguments, the Hon'ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27,1979. Let's discuss the hypothesis I have proposed and it's postulates. World scientists have done more researches on my hypothesis and break the mystery of the universe.

However, much efforts and sacrifice did tho, I could not get government recognition and social support. My

researches and studies on Artificial rains, Artificial storms, Artificial underground waters, Time-Travel-Machine, Geo-machine, Earth-machine, Inventing life, Re-creation of humans of past etc. and my campaigns to dispel superstitions, remedial education, literacy programs and science popularization programs etc. and my proposals such as "photon is a gigantic universe as same as our universe and atom in which there are galaxies, stars, planets similar as in our universe and/or electrons, protons, neutrons similar as in atom; atom is a gigantic universe as same as our universe in which there are galaxies, stars, planets in the form of electrons, protons and neutrons and there are continents, oceans, countries, living beings on some neutrons similar as on the earth; the universe seen around our earth is a tiny atom in another ascending order of creation etc. were subjected to the wrath of upper communities, racists, casteists and religious people as well as fellow scientists and resulted into oppression on me. They invaded my laboratory, abused and beaten, humiliated and tortured me in many ways. Illegal cases were framed and foisted against me. I faced trials, handcuffed and led through streets, and imprisoned. I am a victim of racism and discrimination and negligence and jealousy.

Appeal to world scientists:

I am now making my life's last journey due to disregard and despair and serious illness and severe poverty that's no food to eat, no fabrics to put and no money to take treatment for the asthma cardiovascular disease. Dear world scientists, if world scientists have invented any technology in future that re-create humans of past, kindly remember and re-create me to complete my uncompleted goals together with world scientists.

Received a tipped report Taluk Magistrate Kotta Peta with case as follows:-
Ref: A2-5813/77 dt 21-7-77 Taluk office Kotta Peta

From: Sri P. Subbarao, C. Com. Taluk Magistrate To: The Station House Officer
Ravalapalem.

Sir, Sub: Signature - Forgery Signature - Sri Jalapati Gangadhara Rao of Kavalapalem V. Report of the Revenue Inspector - Atreyapuram.
Ref: Report of the Srivasa Rev. Inspector, Atreyapuram dt 21-7-77.

The Rev. Inspector Atreyapuram, enquired and reported that Smt - Relange Rattamma wife of Muraliah of Kavalapalem Village applied for grant of a tree (Pannid) situated on the north-west portion of her house for which house - si - Patta was granted. On the above petition the signatures of village Munsiff, Kavalapalem and the Rev. Inspector Atreyapuram were forged.

The Rev. Inspector, Atreyapuram further reported that Smt - Relange Rattamma in her statement deposed that the brother son of Sri Jalapati Muraliah forged the signatures. As such the Rev. Inspector Atreyapuram has called for the individual and enquired in to the matter and reported that he failed Intermediate and left hand - writer. He accepted that he forged signatures and the signatures of the village Munsiff, Kavalapalem and the Rev. Inspector, Atreyapuram. He is a very dangerous boy and is upto any thing.

In the above circumstances Sri Jalapati Gangadhara Rao of Muraliah of Kavalapalem Village, the offender in the instant case may be dealt with according to law. Please intimate the action taken in the matter.

1. The following records are enclosed here with duty officers and enclosed and enclosed.
2. Slip containing forged Signature.
3. Statement recorded from Sri Jalapati Gangadhara Rao of Muraliah of Kavalapalem Village.
4. Statement of Smt - Relange Rattamma wife of Muraliah of Kavalapalem Village.
5. Report of the Rev. Inspector, Atreyapuram dated 21-7-77.

The offender is produced before you through the Rev. Inspector Atreyapuram for taking in to custody.

Enclor: - As Stated above.

H.C. 1644
S/O Kavalapalem

enforced for verification and enquiry on 21.7.77, contacted P.W. 1 to and also questioned the accused at the village chavidi of Ryali before whom the accused admitted the offence and P.W.4 recorded the statements of P.W.1 and the accused. The accused was produced before the Tahsildar, Kothapeta who forwarded the accused to the Police Station, Ravulapalem along with Exs.pl to P4 The police, Ravulapalem registered Cr.No.53/77 U/s. 420,467 and 471 IPC. Therefore, the accused is liable for punishment under sec. 420,467 and 471 IPC.

3. The case was taken on file against the accused Under sec. 420, 467 and 471 IPC. When the accused appeared before this court, copies of documents contemplated Under sec. 207 Cr.P.C. were furnished to him and he was examined on the contents of the documents. He denied the offence. On consideration of the documents, a charge Under sec. 420, 467 and 471 IPC were framed, readover, interpreted and explained to the accused in Telugu to which he pleaded not guilty and claimed to be tried.

4. The prosecution, in support of its case, examined P.W.1, who wanted to apply patta of the tamarind tree, P.W.2 the village Munsif, Ryali, P.W.3, village Kannam of Ryali, P.W.4 the Revenue Inspector in whose presence the accused is alleged to have confessed the offence, P.W.5 the Head Constable who registered the crime. P.W.6 the Investigating Officer, P.W.7, the Tahsildar who forwarded the accused and report of P.W.4 to Ravulapalem P.S. and got marked Ex.pl to P6. The accused did not adduce any oral or documentary evidence.

5. After closure of the prosecution evidence, the accused was examined U/s. 313 Cr.P.C. regarding the incriminating circumstances appearing in the evidence of the prosecution against the accused. The plea of the accused is total denial of the offence. He stated that P.W.4 is superstitious and fanatic and that when P.W.4 was telling about God once he told him that human being was born from monkey. Therefore, P.W.4 grew wild in that connection

and that subsequently when he approached P.W.4 to sign on the caste certificate, he demanded Rs. 10/- from him and that subsequently he reported the matter to the Revenue Divisional Officer, Amalapuram about the demanding of illegal gratification of P.W.4. ←
 The R.D.O. Amalapuram has promised to enquire into the matter. ←
 Therefore, this case is falsely foisted against him. ← when he was ←
 coming from Ravulapalem the village servant took him before P.W.4. Thereafter he was ~~kept~~ taken to village chavidi where P.Ws. 1 to 4 were present and they beat him and obtained his signature on Ex.P3 and subsequently he was taken to the taluqdar, Kothapeta from there he was sent to Police Station, Ravulapalem and that he is innocent and he did not commit any offence.

6. The point for consideration is whether the prosecution has been able to establish its case against the accused, beyond all reasonable doubt? ←

7. The case of the prosecution is that the accused forged the signature of P.S.4 the Revenue Inspector and village Munsif, Merlapalem (who is no more alive). Ex.P1 is the petition which contains the alleged forged signatures of village Munsif, Merlapalem and Revenue Inspector (P.W.4). Ex.P1 is in torn condition. The alleged signature of village Munsif, Merlapalem is completely torn and the signature of P.W.4 is also torn completely except some portion. It also contains the thumb impression alleged to have been affixed by P.W.1. The prosecution to establish that it is the accused who is responsible for the alleged forgery of signatures of P.W.4 and village Munsif, Merlapalem relied on Ex.P1 petition and Ex.P2 the slip which is also alleged to have been signed by the accused in the presence of P.Ws. 2 to 4. There is no direct evidence available, in this case, who witnessed the forging of the signatures of P.W.4 and village Munsif, Merlapalem. Even the alleged signatures are in torn condition. Regarding the statement of the accused recorded by P.W.4 in the presence

..4.. 31

→ is that he was beaten by P.W.4 and others and he was forced
 → to put his signature on Ex.P3 and also Ex.P2. Further, the
 → plea of the accused is that there was altercation between him
 and P.W.4 with regard to the existence of God and also with regard
 to obtaining of signature of P.W.4 on the caste certificate.
 Except, the confession statement of the accused Ex.P3 before
 P.Ws. 2 to 4, there is no direct evidence to connect the accused
 with the offences charged against him. P.W.4 is an illeterate.
 She does not know on which paper the accused obtained her thumb
 impression. Even for a moment sake, it is presumed that it is
 the accused who obtained the signature of P.W.1, on Ex.P1, Ex.P1
 itself is completely in torn condution and the Tahsildar, Kothapeta
 who is competent authority to grant patta of the tamarind tree,
 would not have acted upon the petition Ex.P1. Moreover, the
 prosecution failed to explain the reason why the accused forged
 the signature of P.W.4 and the Village Munsif, Merlapalem on
 Ex.P1 and by forging the signature what is the wrongful gain
 the accused wanted to obtain. There is no evidence to show that
 it is the accused who filed Ex.P1 petition and other enclosures
 in the Tehsil Office, Kothapeta. Further, there is a typed
 petition filed in this case which contains the recommendation
 of the Village Munsif and the recommendation of Revenue
 Inspector-P.W.4. It is not marked by prosecution. To support
 a conviction U/s. 467 IPC, there must be evidence that the
 document is a false document, within the meaning of section 464
 IPC and that it was forged by the accused with some intent
 mentioned in sec. 463 IPC. It is not sufficient that some
 possible intent may be inferred from the facts, it is necessary
 such intent should be established by evidence, which is laching
 in this case. Under Sec. 420 IPC, there must be evidence that the
 person deceived delivered to someone, or consented that some
 person shall retain certain property, that the person deceived
 was induced by the accused to do as above, that such person

was likely to cause damage or harm to that person in property. There must also evidence of fraudulent or dishonest intention at the time of the omission of the act in respect of which the cheating is alleged. Since the main part of the alleged signatures of P.W.4 and Village Munsif, Merlapalem (who is no more are completely torn and Ex.P1 is in such a condition that the Tahsildar, Kothapeta would not have been acted upon it in granting patta of the tamarind tree to the petitioner i.e., P.W.1. Therefore the question of commission of offences of cheating and thereby dishonestly inducing delivery of property, forgery of a valuable security or authority to make transfer any valuable security and using a genuine a forged document which is known to be forged are not proved against the accused, beyond all reasonable doubt.

In the result, the accused is given the benefit of doubt. The accused is found not guilty of the offences punishable Under sections 420, 467 and 471 IPC. and he is acquitted Under sec. 248(1) Cr.P.C.

Dictated to the Shorthand-writer, transcribed by him, Corrected by me and pronounced in Open Court on this the 27th day of November, 1979 in the presence of the accused.

Dear Shri Irlapati,
Received your letter along with a copy of your proposed hypothetical model of cosmology. You have requested me to make comments on it. I have gone through your model and found that you have quite systematically developed your logic.

With regards,

Yours sincerely,

(Sanjay K. Ghosh)

Dear Jralapati,

Received your recent letter (dated nil) addressed to me and to my research student and also your proposed hypothesis regarding the external universe. I have noted with pleasure that you have also invented some devices for predicting natural events like cyclones, earthquakes etc. Your efforts are praise worthy. After all we have to do something for the benefit of mankind.

As regards your hypothesis many things should be elaborated. Recent developments in astrophysics etc. should be taken into consideration. It is true that even persons like Wankar has some reservation about the big bang theory. Even some nobel laureate like Townes are talking about what happened before big bang etc. So you can also appreciate that we have also limitations. Please continue with your effort.

Yours sincere

Dear Irlapati,

Your letter dated NIL was received on 10-10-2000. As regards my comments on your paper entitled "A NEW HYPOTHETICAL MODEL OF COSMOLOGY", I can only submit that till date no theory exists which can explain both Microscopic as well as Macroscopic universe. To me your hypothesis appears to be your efforts in that direction. I appreciate your endeavour. Keep it up.

Yours,
